

Oklahoma School Testing Program
2014-15 Winter/Trimester
EOI Test Administration

To: District Test Coordinators
From: Office of Assessments, Oklahoma State Department of Education
Date: December 2, 2014
Subject: OCCT EOI Performance Level Lookup Tables

The state's online testing program is designed to provide instant feedback to students at the end of their test in the form of an immediate Raw Score (the number of test items correct) for the multiple-choice sections of the End-of-Instruction (EOI) exams.

For the Winter/Trimester administrations, the attached Lookup Tables must be referenced to determine a student's immediate Performance Level of Advanced, Proficient, Limited Knowledge, or Unsatisfactory using the appropriate form of the test the student took.

Please note that final English II and III EOI scores are based on the multiple-choice and writing components. A student's Raw Score and Performance Level may change with the addition of the writing score. Writing scores are provided in the 2-Week Summary Reports.
