

# Looking for a formula to Build Behavioral Expertise in Your School?

Send three or more people from your school to attend a “Train the Trainer” series on writing behavioral intervention plans based on function. Learn how to collect data using unique tools that graphs the antecedents, behaviors, and consequences in an easy to understand format. Each team will come for six sessions and each participant will conduct 5 full functional behavior assessments on students in your school. Dr. Laura Riffel will guide participants step-by-step. For a detailed class description click here: <http://tinyurl.com/bbeinfo>

**Participants need to have a windows compatible laptop for the class- You will be learning how to use:**

- FBA data graphing tool
  - Entering data
  - Interpreting data
- Graphing baseline, intervention, and follow-up data for frequency, duration, and percentages

Participants will also learn behavioral interventions for ADHD, Autism, Oppositional Defiant Disorder, Learning Disabilities, and general classroom management

**January 24, 2013**
