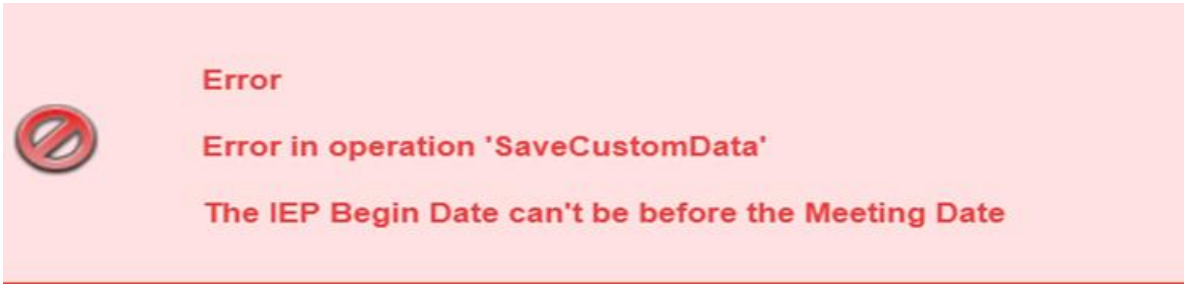
School Districts,

It has come to our attention that OK EDPlan is throwing the error "**The IEP Begin Date cannot be before the IEP Meeting Date**" when using "In State Transfer" as the meeting type. The error has begun to appear when attempting to finalize. We are working with PCG to get this issue cleared as soon as possible.



While this error is being fixed, please use the practice of annotating the "**Begin Date**" as the same date as the "**Meeting Date**" for your IEPs when using In State Transfer as the meeting purpose.

We will send out notification as soon as this is error is clear. Thank you for your understanding.

Very Respectfully,

Cameron S Lackey
