2007
OKLAHOMA SCHOOL TESTING
PROGRAM (OSTP) RESULTS

GRADES 3-8 · **Ub X**
END-OF-INSTRUCTION (EOI)

General Assessment, Oklahoma Core Curriculum Tests - 2007

PREFACE

Data from the 2007 Oklahoma School Testing Program (OSTP) are presented in this report, as well as data from the 2006 OSTP (when applicable) for growth measurement.* The report is ordered first by grade and then subject for Grades 3 through 8, which includes Math, Reading, Science, Social Studies/U.S. History, Geography, and Writing tests administered at specified grades to the regular student population and to students with disabilities, with or without accommodations.

Next, the report outlines results by subject for the End-of-Instruction (EOI) assessments, including *ACE* Algebra I, English II, Biology I, and U.S. History, administered to the regular student population and to students with disabilities, with or without accommodations, who have completed instruction in the specified course.

Test results in this report include data for both Full Academic Year and Non-Full Academic Year students. In addition to "All Students" data, data are also disaggregated by specific student subgroup. All data are reported for the "All Students" group. The "All Students" group includes only those taking the General Assessment. End-of-Instruction results include data from both Winter and Spring administrations, except in the case of Algebra I.*

"
"

*Because the Algebra I test has been revised and recalibrated according to *Achieving Classroom Excellence (ACE)* legislation, comparison of growth from earlier administrations (including the Winter 2006 administration) cannot be made. Schools are encouraged to use their Algebra I test results from the Spring 2007 administration as a baseline for growth in the future. In addition, because of the shift of administration mode from paper-pencil to online in 2007, results from the 2006 Biology I and U.S. History EOI assessments are not presented for comparison.

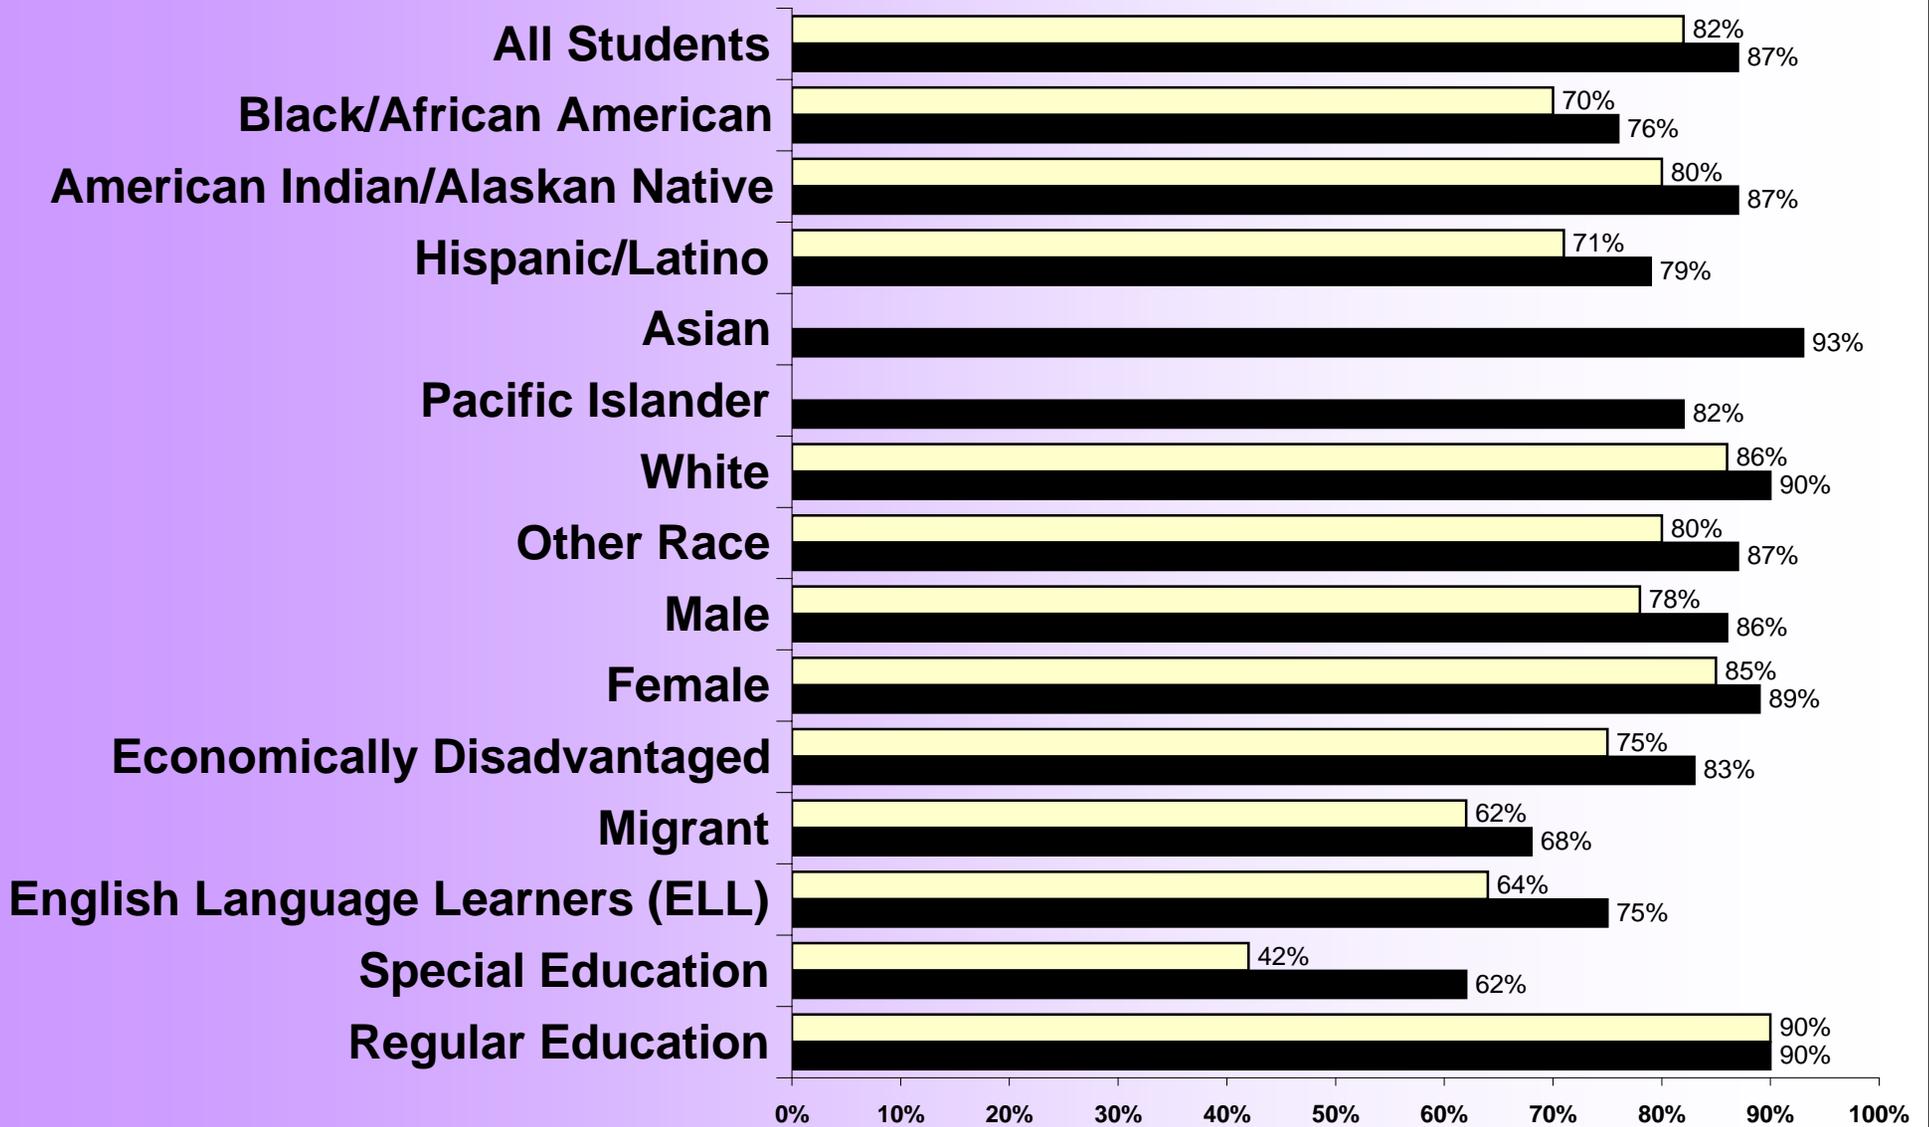

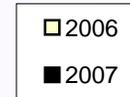

The "All Students" group includes only those taking the General Assessment.
