

October 7, 2013

The Oklahoma Transition Council (OTC) seeks your input to assist educators and other professionals in preparing transition aged youth with disabilities for life after high school (including education/training, employment, transportation, life skills, independent living, etc.). This is an effort to support schools and families in maintaining engagement between elementary and high school so students have improved chances for post-school success. For the purposes of this survey, we are seeking information on youth between the ages of 14 and 22.

If you need or would like a paper copy of this survey, please call Ms. Tina Spence, Transition Specialist, Oklahoma State Department of Education, at (405) 521-4877, or e-mail her at tina.spence@sde.ok.gov. The information gathered through this survey will assist us in planning for future training, technical assistance, and resource development. Please complete the survey by November 1, 2013.
