

Proposed Modules for the DLM Professional Development
(Updated 8/28/12)

Topic Area 1: Common Core Structure

[Currently Available]

Module 1.1 *Common Core*

Module 1.2 *Essential Elements*

Module 1.3 *Instructional Achievement Level Descriptors*

Topic Area 2: Instructional Basics

Module 2.1 *Universal Design for Learning (UDL)* [currently available]

Module 2.2 *Principles of ELA* [available by 9/30/12]

Module 2.3 *Principles of Mathematics* [available by 9/30/12]

Topic Area 3: English Language Arts Standards & Instruction

[Note: By the time the entire set of modules is complete there will likely be many more than are listed below, but there will first be one module created for each cluster within each strand of the ELA Common Core Standards]

[available beginning late fall 2012 and continuing thru 2013]

Reading

Module 3R.1 *Comprehension of Key Ideas and Details*

Module 3R.2 *Understanding Craft & Structure*

Module 3R.3 *Supporting Integration of Knowledge and Ideas*

Module 3R.4 *Range of Reading and Level of Text Complexity*

Module 3R.5 *Print Concepts*

Module 3R.6 *Phonological Awareness*

Module 3R.7 *Phonics and Word Recognition*

Module 3R.8 *Fluency*

Writing

Module 3W.1 *Text Types & Purposes*

Module 3W.2 *Production & Distribution of Writing*

Module 3W.3 *Research to Build Knowledge*

Module 3W.4 *Range of Writing*

Speaking and Listening

Module 3SL.1 *Comprehension and Collaboration*

Module 3SL.2 *Presentation of Ideas*

Language

Module 3L.1 *Conventions of Standard English*

Module 3L.2 *Effective Language Use*

Module 3L.3 *Vocabulary Acquisition and Usage*

Topic Area 4: Mathematics Standards & Instruction

[Note: By the time the entire set of modules is complete there will likely be many more than are listed below, but there will first be one module created for each domain within the Mathematics Common Core Standards]

[available beginning late fall 2012 and continuing thru 2013]

Module 4.1 *Counting and Cardinality*

Module 4.2 *Operations and Algebraic Thinking*

Module 4.3 *Numbers and Operations in Base 10*

Module 4.4 *Numbers and Operations – Fractions*

Module 4.5 *Measurement and Data*

Module 4.6 *Geometry*

Module 4.7 *Ratios and Proportional Relationships*

Module 4.8 *The Number System*

Module 4.9 *Expressions and Equations*

Module 4.10 *Statistics and Probability*

Module 4.11 *Functions*

Module 4.12 *Number and Quantity*

Module 4.13 *Algebra*

Topic Area 5: The DLM Assessment System

Specific Modules TBA, but there will be modules that explain the assessment system, how it was developed, and how it is used.
