

Grant Public Schools

1. Beginning with data from the previous two school years, the number of students who were eligible for and who participated in the public school choice option.

All students in our school are eligible for public school choice; however we didn't have any students that took advantage of this option.

2. For the current school year, a list of available schools to which students are eligible to participate in public school choice may transfer.

We sent requests to the three closest schools to our district. They are Hugo Public School, Soper Public School, and Fort Towson Public School. Hugo and Soper schools have denied us the ability to transfer students and Fort Towson has agreed on a case by case basis.
