

2014-15 OAAP Weekly Update

The 2014-15 Oklahoma Alternate Assessment Program (OAAP) will utilize two different assessment systems. Science and social studies will be assessed through Portfolio/PearsonAccess. The subject areas of math and English/Language Arts will be assessed through the Dynamic Learning Maps (DLM) Alternate Assessment System.

Resources specific to the 2014-15 OAAP are available at <http://ok.gov/sde/assessment>. Oklahoma resources relating to specific DLM roles are available at <http://dynamiclearningmaps.org/oklahoma>.

Dynamic Learning Maps (DLM) Phase C Field Test

The Phase C field test window is January 5 – March 6. The field test will contain specific End-of-Instruction testlets. Field testing is entirely optional; school districts must decide whether or not to participate.

Phase B Field Test Data

As of December 7, Oklahoma has had 737 students complete DLM field testlets. Oklahoma had more students than any other year-end model state participate in field testing. More than 1,600 students were eligible to participate in Phase B field testing. Phase B field testing ends December 20.

DLM Professional Development

The [Educator Resource Page](#) contains resources specific to the role of assessment administrators; these resources are designed to increase educators' knowledge of the assessment and are useful prior to administering the assessment. DLM has created interactive modules that focus on a topic related to the DLM assessment. A total of 41 instructional modules are available. [Click to View Self-directed Learning Modules](#)

High School Students Can Be Assigned Rosters in Educator Portal

Rosters for high school students will need to be created by uploading a Roster Template into Educator Portal, as opposed to creating a roster manually. When uploading a Roster Template, district test coordinators will need to use unique codes that are specific to the End-of-Instruction course(s) the student will be assessed in and is currently enrolled in.

OSDE-SES recommends that LEAs *do not* assign students to DLM rosters manually.

Portfolio Administration (Science, History, and Geography)

The window for the Winter End-of-Instruction (EOI) administration is open and is scheduled to close this Friday, December 19, 2014. The Winter EOI is only available to students taking U.S. History and Biology. The operational spring window is scheduled to open January 12, 2015.
