

Standard Review Comments from OKC and Tulsa Metro

Teaching and Learning Consortium

June 2015

Note: The comments below were written on the front page of the standard's draft. Their comments were basically on format not content.

Comment #1: I would like to see a combination of the formats for ELA and Math. I like the readability of this math format, but the ELA standards are better at showing vertical alignment.

Comment #2: Really like the format!!

Comment #3: I liked the ELA tracking one standard across the page through the grade levels. Ranges on ACT Standards.

Comment #4: A chart showing the vertical alignment would help!

Comment #5: Love the layout and format of the math standards...We need a vertical articulation document for the major standards as well....Like ELA format.
