

Know Your Role

The 2014-15 Oklahoma Alternate Assessment Program (OAAP) will utilize two different assessment systems. Science and social studies will be assessed through Portfolio/PearsonAccess. The subject areas of math and English/Language Arts will be assessed through the Dynamic Learning Maps (DLM) Alternate Assessment System.

Dynamic Learning Maps (DLM) Professional Development

Professional development for Dynamic Learning Maps is currently available online in the KITE Educator Portal, the dashboard where educators manage student data, access professional development, receive test information, access training modules and view reports.

Professional development topics are addressed by role and align with the responsibilities of that role.

The Four DLM Roles

- Assessment Coordinator – the person(s) supporting assessment implementation as well as supporting teachers as they prepare for the assessment. This role is often fulfilled by the district test coordinator or special education director.
- Data Steward – the person(s) managing student and enrollment data. This role can be fulfilled by the Assessment Coordinator.
- Technical Liaison – the person managing technology requirements for the district. The responsibilities of this role include installing KITE Client to computer operating systems. KITE Client is the web-based interface used by students for taking tests. Learn more about KITE Client by clicking [here](#).
- Test Administrator – teacher or test examiner.

KITE Educator Portal

Teachers' KITE Educator Portal accounts should be set up by the school district's Assessment Coordinator. In order to accomplish this, the school district must assign the role of Assessment Coordinator to the appropriate person(s). This person will be responsible for supporting teachers and supporting assessment implementation. The Assessment Coordinator's role is best served by either the district test coordinator or special education director.

The school district's designated Assessment Coordinator must have an Educator Portal account assigned by the OSDE. Once the account has been assigned, the Assessment Coordinator must create Educator Portal accounts for individual teachers to ensure they have access to key features and professional development. If an individual attempts to create an Educator Portal account themselves, that person will not have access to professional development.

If you are serving as your district's Assessment Coordinator and do not have an Educator Portal account, please contact kurt.johnson@sde.ok.gov.
