

High Risk Districts**Count: 2**

CTB prioritized districts based upon the feedback given after the stress test. Those districts who had the top three priorities are labeled as high risk. CTB has been contacting these districts to verify the severity of the problems and to see if they have been resolved by the districts. The ones that have not been resolved or that CTB has not been able to contact are considered high risk. These districts are listed below. CTB is still contacting these districts to attempt to identify and resolve any remaining issues.
