

Building Better Oklahoma Standards

Oklahoma welcomes your help in developing strong academic standards in English Language Arts and Mathematics. Not only will the resulting standards ensure students are prepared for the rigors of college or career, they will reflect Oklahoma values and principles. The Oklahoma State Department of Education is committed to making the standards-creation process as inclusive and comprehensive as possible, encouraging the participation of **all** Oklahomans — educators, parents, grandparents, civic and business leaders, etc. — who want our state's system of public education to be second to none.

These standards will be **by Oklahomans for Oklahomans**. If you want to bring your expertise to the development of these new standards, you are urged to apply for membership to one of the committees or teams in this standards-creation process.

The work ahead will be lengthy and time-consuming, but highly rewarding and crucial for ensuring a bright future for Oklahoma. We look forward to your help.
