# OSDE Behavior and Discipline Survey

OSDE and the Behavior Advisory Group are dedicated to improving the collection and reporting of school-level discipline data. The Behavior Advisory Group consists of a team of your colleagues who are district experts with experience in discipline data and discipline practices. We need your feedback! Please have members of your district who are involved with discipline either with student-level discipline, discipline data, or discipline reporting complete the survey linked below. The responses that are received will help OSDE and the Behavior Advisory Group better serve districts as together we work to make discipline data meaningful and actionable to serve all stakeholders.
