

How data feeds into your report card

- A site’s **Student Information System (SIS)** feeds data to the state through the **Wave**. This includes but is not limited to, enrollment, attendance, course information and student demographics.
- The **Accountability Reporting Application** in Single Sign-On pulls data for the report card indicators in real-time allowing sites to monitor data used for the school report card throughout the year.
- **Data Verification Windows (DVRs)** open for sites to review and validate their data in the Accountability Reporting application. The school district shall have at least fifteen (15) calendar days to review and request corrections to each new data component as it becomes available. No requests for changes to data shall be made after the expiration of the review period. Each DVR is researched, and a resolution provided.
- **Calculation Verification Review (CVR)** Prior to the final release of school performance grades, a school district shall have at least ten (10) calendar days to certify the calculation of the performance grade. If the school district determines that a different performance grade should be assigned because of the omission of certified student data, a data miscalculation, or special circumstances that might have affected the grade assigned, school districts may submit a request for a review of the data calculation to the State Department of Education. **Discrepancies in data cannot be considered during this window.** Each CVR is researched and a resolution provided.
- **Oklahoma School Report Cards** are finalized and presented to the State Board of Education for their approval. Once approved, each school's report card will be publicly available on go live on the public dashboard found at <https://oklaschools.com>.

Full Academic Year (FAY) Overview

For accountability purposes, Full Academic Year (FAY) criteria is used for determination of inclusion in accountability measures. (OAC 210:10-13-2). FAY criteria applies to all indicators (with the exception of graduation). **As a reminder, a student’s FAY determination uses enrollment and not attendance.**

A student is considered FAY for an indicator if he or she enrolled within the first 20 instructional days of the school year and does not have a **gap of 10 or more consecutive instructional days of enrollment** prior to the applicable FAY end date for that indicator:

Indicator	FAY END DATE
Academic Achievement & Growth Grades 3-8	April 20, 2021 (beginning of OSTP testing window for school year 2020-21)
Academic Achievement Grade 11	April 1, 2021 (beginning of testing window for CCRA Assessments)
English Language Proficiency Assessment Progress (ELPA)	January 11, 2020 (beginning of WIDA testing window for school year 2019-2020)
Postsecondary Opportunities & Chronic Absenteeism	End of school year (set by district calendar)

A student may be Non-Full Academic Year (NFAY) at different levels. Please note that a blank NFAY value means that FAY cannot be calculated due to missing or invalid enrollment or calendar dates.

FAY/ NFAY	Definition
0	The student is FAY . The student is FAY when he/she is enrolled within the first 20 days, and did not have an instructional gap of 10 or more consecutive instructional days in the student’s enrollment. This record will be used in school, district and state accountability
1	The student is NFAY at the school level only . This happens when the student is not enrolled within the first 20 instructional days at a site (or LEA) or they have a gap of 10 or more consecutive instructional days at the school level. For instance, a student may have switched schools but stayed within the district. This student’s record will be used in district and state accountability .
2	The student is NFAY at the school and district level . This happens when the student is not enrolled within the first 20 instructional days or the student had a gap of 10 or more consecutive instructional days at the school and district level. For instance, a student may have transferred to another school in another district. This student’s record will be used in state accountability .
3	The student is NFAY at the school, district and state level . This happens when the student was either: <ul style="list-style-type: none"> ✓ Enrolled in an Oklahoma public school for the first time AFTER the first 20 instructional days of the school year. ✓ Enrolled within the first 20 instructional days but has a lapse of 10 or more consecutive instructional days with <u>no enrollment</u> in any Oklahoma public school. This student’s records are excluded from school, district and state accountability.
