Oklahoma Grades 3-5 English Language Arts Instructional Materials Evaluation Rubric

Instructional materials selection is an important district decision, and conducting a thorough review of instructional materials at the local level is essential in ensuring the adoption of high-quality instructional materials that meet the needs of students within a district. This evaluation rubric is designed to offer an evaluation structure that districts can utilize to determine how well instructional materials align to the Oklahoma Academic Standards for English Language Arts (ELA) (OAS) and other criteria for high-quality instructional materials for ELA. The evaluation rubric includes key considerations for high-quality instructional materials and outlines four **Gateways** for consideration when evaluating materials. Within each Gateway, **Criterion** and related **Indicators** are provided along with **Guiding/Key Questions**. Additionally, **Priority Indicators** are indicated with an asterisk (*) in an effort to draw reviewers' attention to aspects of the reviewed materials that will likely need to be supplemented if the given instructional materials are adopted. Each **Indicator** is evaluated as Not Representing Quality, Approaching Quality, or Exemplifies Quality using a 0-1-2 or 0-2-4 scale score.

The evaluation rubric is designed to allow reviewers to determine a threshold for quality for each gateway. If instructional materials do not meet the thresholds for Exemplifies Quality or Approaching Quality expectations for a Gateway, reviewers are prompted not to move forward with reviewing the other Gateways.

- Gateway 1: Text Quality and Complexity and Alignment to the Standards**
 - Advance to Gateway 2 only if it Exemplifies Quality or is Approaching Quality.
- Gateway 2: Building Knowledge with Texts, Vocabulary, and Tasks**
 - Advance to Gateway 3 only if it Exemplifies Quality or is Approaching Quality.
- Gateway 3: Usability**

Remember to focus on what is present in the instructional materials and any supplemental resources rather than what might be inferred. All scores should be based on evidence observed from the instructional materials themselves.

Gateway 1: Text Quality and Complexity and Alignment to the Standards

High-quality instructional materials for English Language Arts (ELA) that are aligned to the OAS include high-quality texts which are: the central focus of lessons, at the appropriate grade level text complexity, and accompanied by quality tasks aligned to the college and career-ready standards of reading, writing, speaking, listening, and language in service to grow literacy skills.

To determine the Gateway rating, educators use evidence gathered from the instructional materials to score indicators related to each criterion.
