Oklahoma General Instructional Materials Evaluation Rubric

Instructional materials selection is an important district decision, and conducting a thorough review of instructional materials at the local level is essential in ensuring the adoption of high-quality instructional materials that meet the needs of students within a district. This evaluation rubric is designed to offer an evaluation structure that districts can utilize to determine how well instructional materials align to the Oklahoma Academic Standards (OAS) and other criteria for high-quality instructional materials. The evaluation rubric includes key considerations for high-quality instructional materials and outlines three **Gateways** for consideration when evaluating materials. Within each Gateway, **Criterion** and related **Indicators** are provided along with **Guiding Questions**. Additionally, **Priority Indicators** are indicated with an asterisk (*) as they have been deemed most essential to a quality program. Each **Indicator** is evaluated as Not Representing Quality, Approaching Quality, or Exemplifies Quality using a 0-1-2 or 0-2-4 scale score.

All scores should be based on evidence observed from the instructional materials themselves, rather than what might be inferred. The evaluation rubric is designed to allow reviewers to determine a threshold for quality for each gateway. If instructional materials meet the thresholds for Exemplifies Quality or Approaching Quality expectations for a Gateway, reviewers are prompted to move forward with reviewing the next Gateway (→). If instructional materials do not meet the thresholds for Exemplifies Quality or Approaching Quality expectations for a Gateway, reviewers are prompted not to move forward with reviewing the next Gateway (⊗).

Gateway 1: Alignment and Coherence

High-quality instructional materials are aligned and coherent for their subject area and grade level.

To determine the Gateway rating, educators use evidence gathered from the instructional materials to score indicators related to each criterion.

Gateway 1 Overview		
Criterion	Indicators	Available Points
1.1: Alignment and Research-Based Instructional Design The materials support student learning associated with content and skills of the subject area and grade-level under review.	1a - 1c	8
1.2: Coherence The materials attend to the learning progressions associated with the subject-area under review, so that the curriculum is coherent both within grades and across grade bands.	1d - 1f	8

Criterion 1.1 Alignment and Research-Based Instructional Design	The materials support student learning associated with content and skills of the subject area and grade under review.		
Indicators	Guiding Questions	Score	Comments
*1a. Materials provide a sequence or collection of activities and texts that build content knowledge and skills aligned with the applicable subject area.	Do the materials align with the content and skills associated with the applicable subject area?	0 2 4	
1b. Materials align to research-based instructional practices associated with the applicable subject-area.	Do materials align to research-based instructional practices?	0 1 2	
1c. Materials have a variety of student-centered instructional strategies to facilitate critical thinking within lessons and across the curriculum.	Do the materials include a mixture of instructional strategies such as discussions, modeling, student activities, and projects?	0 1 2

Criterion 1.2 Coherence		The materials attend to the learning progressions associated with the subject-area under review, so that the curriculum is coherent both within grades and across grade bands.	
Indicators	Guiding Questions	Score	Comments
*1d. An explicit and consistent scope and sequence is provided that fosters coherence between grade levels and can be completed within a typical school year with little to no modification.	Is the amount of time for content and skills explicitly and consistently identified and coherent?	0 2 4	
1e. Materials make connections to topics covered in past lessons, so students connect new learning with background knowledge.	Are past topics and lessons referenced as new concepts are added?	0 1 2	
1f. Content is appropriate to the grade level and considers each students' prior knowledge to incorporate this knowledge into the lesson and/or cover material not previously covered.	Are the materials inclusive of students and their individual experiences?	0 1 2

Gateway 2: Instructional Support

Gateway 2 examines the way materials support teachers to fully utilize the curriculum and understand the skills and learning of their students.

To determine the Gateway rating, educators use evidence gathered from the instructional materials to score indicators related to each criterion.

- ❑ **Materials must receive a score of Exemplifies Quality or Approaching Quality in Gateway 1 in order to be reviewed in Gateway 2.**

Gateway 2 Overview		
Criterion	Indicators	Available Points
2.1: Student Learning The materials identify ways in which materials are designed for each child’s regular and active participation in grade-level/grade band/series content.	2a - 2c	8
2.2: Teacher Support and Supplemental Material The materials include resources for teachers to effectively plan and implement materials with integrity and to further develop their professional learning.	2d - 2g	10
2.3: Assessment The materials provide tools, guidance, and support for teachers to collect, interpret, and act on data regarding student progress towards content and skill proficiency.	2h - 2i	10

Gateway 3: Access and Technology

Schools can use digital resources in a variety of ways to support teaching and learning.

To determine the Gateway rating, educators use evidence gathered from the instructional materials to score indicators related to each criterion

- ❑ **Materials must receive a score of Exemplifies Quality or Approaching Quality in Gateway 2 in order to be reviewed in Gateway 3.**

Gateway 3 Overview

Criterion	Indicators	Available Points
3.1: Accessibility and Technology Materials integrate digital technology and interactive tools, when appropriate, in ways that support student engagement.	3a-3e	Narrative Evidence Only

Criterion 3.1 Accessibility and Technology		Materials integrate digital technology and interactive tools, when appropriate, in ways that support student engagement.	
Indicators	Guiding Questions	Score	Comments
3a. Materials integrate technology such as interactive tools and/or virtual manipulatives/objects in ways that engage students in the grade-level content and skills, when applicable.	Do the materials integrate digital technology and interactive tools in ways that support student engagement in content?	Narrative Evidence Only	
3b. Materials include or reference digital technology that provides opportunities for teachers and/or students to collaborate with each other, when applicable.	Do the digital materials provide opportunities for teachers and/or students to collaborate with each other?	Narrative Evidence Only	
3c. The visual design (whether in print or digital) supports students in engaging thoughtfully with the subject, and is neither distracting nor chaotic.	Does the visual design support student learning and engagement, without being visually distracting?	Narrative Evidence Only	
3d. If technology is embedded, the materials provide teacher guidance to support and enhance student learning.	Do the materials provide teacher guidance for the use of embedded technology to support and enhance student learning?	Narrative Evidence Only	
3e. Materials are available in a digital platform and support remote learning opportunities.	Do the materials support virtual/remote or blended learning?	Narrative Evidence Only
