1-Code Tables

This section identifies code tables showing how SIF provided by your SIS SIF Agent will be mapped by *The Wave* to acceptable OSDE codes. It also provides the expected code for an element that does not have a standard SIF code. Wherever applicable in the SIF specification, always use the appropriate SIF code. For the elements in the SIF Object Mappings document that did not include a reference to a table in this section the tables identified in the SIF specification are to be utilized.

******Any code in red is no longer a valid code******

1.3 BasisOfAdmission (EntryTypeCode/OtherCodeList) Reporting Use

The following table provides an indication of how the state will interpret the Basis of Admission code being supplied on an enrollment for a student for the purposes of state reporting. The Basis of Admission code describes the involvement of the school reporting the code and indicates to the state system how to use the data supplied. In some instances, more than one district may send student data to the state on the same student. Some examples would include a student in a cooperative. The resident district will have the student enrolled with a Basis of Admission code of “R” while the cooperative will be tracking courses and period attendance for the student in their own system for the purpose of reporting it back to the resident district. The cooperative district could supply the student to The Wave as well with a Basis of Admission code of COOP. Another example would be two districts that have an IEP Service Agreement in place. The resident district would supply the student with a Basis of Admission code of “R” while the district serving the student may also send data to The Wave as well. The district serving the student on the IEP Service Agreement would supply a Basis of Admission code of IEPSA.

The table below will contain either a Yes or No indicating how The Wave will use the enrollment record for reporting purposes. If further explanation is needed beyond Yes or No, the column will contain the text “Explanation” followed by a number that will correspond to the explanation below the table

Explanation 1 (ACEPT – Membership/Attendance)

The Basis of Admission Code ACEPT indicates an ACE part-time student denied a standard diploma by the school district that re-enrolls in that same school district on a part-time basis to meet the unfulfilled ACE graduation requirements. The district is NOT paid state aid for membership and attendance through the First Quarter Statistical Report (FQSR) or the Annual Statistical Report (ASR) for this student but can receive funding for this student by completing the ACE Part Time Report indicating the total number of hours the student is enrolled and the length of time.

Explanation 2 (BORDER-NR – October 1 Accreditation Count)

The Basis of Admission Code BORDER NR indicates a student who is a resident of a bordering state, but who attends school full-time in a public district in the state of Oklahoma. This student cannot be funded with any state funding. Explanation 3 (BORDER- NR – October 1 Special Education Child Count)

The Basis of Admission Code BORDER NR indicates a student who is a resident of a bordering state, but who attends school full time in a public district in the state of Oklahoma. This student cannot be funded with any state funding. This student WILL be reported on the Special Education Child Count report if the student is on an IEP and Oklahoma services the IEP. The School District will NOT receive state aid weights for this student.

Explanation 4 (LTTS & STSS – State Assessments)

The Basis of Admission Code LTSS or STSS indicates a student that has been suspended for a given amount of time, but the districts are still providing educational services. It is at the districts discretion on whether they include this student for state testing. Some certain students on an Individualized Education Plan (IEP) may have a statement in their IEP to require state testing. These students will NOT be included in the pre-code of testing labels and should be added manually once data is transferred to the state assessment vendor's portal.

Explanation 5 (FRGN)

A student that is on being educated in an Oklahoma school district that is in the country on a J-1 Visa and has no tuition restrictions as long as the school district/site is certified through the Student and Exchange Visitor Information System (SEVIS) to count the student for attendance and membership. If a J-1 Visa student is included in membership and attendance, the student is eligible to count in transportation if legally transported and lives 1.5 miles or further from the school.

Explanation 6 (ROP- Transportation)

ROP students can be used in transportation counts only if the district is providing transportation between the school and the facility.

1.13 Entry and Exit Code Descriptions

Below are the Entry and Exit Codes *The Wave* will receive from your district's Student Information System (SIS) whenever a student enters or exits your district and the district end user places the appropriate code. The codes available in your SIS may not be the same as the SIF Code listed below, but the descriptions should be similar. Your SIS Vendor will translate your codes into the SIF Codes below when the data is transmitted to *The Wave*. Be certain your SIS Vendor has at least 20 entry codes and 33 exit codes. This will ensure accurate entry and exit information is provided to *The Wave*. The shaded areas below represent some of the more common codes districts will utilize. **It is important to read through the codes and select the most appropriate reason for the student's entry or exit.**

SIF Code	SIF Description – Entry	OSDE Description
1821	Transfer from a public school in the same local education agency.	Entry - Student is changing sites in the same district. This can occur during the school year. This code would also be utilized at the beginning of the school year if a student is changing sites (e.g., Student is changing from Junior High to High School).

1830	Transfer from a school outside of the country	Entry - Student is entering the district, coming from a school outside of this country, but has been educated in the United States previously (Note: If the student has not received some form of education in the United States prior to this entry, the appropriate code would be either 1839 or 1840).
