

2023-2024 9th-12th Grade Subject Codes

Revised June 2020

SUBJECT CODE GUIDANCE

Teaching Assignment

For more support on completing teaching assignments for high school level teachers, visit page 8 of this document for instructions. If you have further questions, please contact your Regional Accreditation Officer.

STEM Blocks

Course eligibility as a STEM Block course, allowable as a Math or Science credit for the core curriculum pathway towards graduation, must meet the minimum requirements set for Math and Science courses. Such courses must be aligned to the competencies at or above the rigor of Algebra I and Biology I respectively. Courses not including Math or Science content must include sets of competencies within computer education. Any course only addressing engineering, without the inclusion of Math, Science or Computer Science content, is not eligible.

Graduation Requirements

Courses should be transcribed reflecting the courses and competencies covered. For example, a concurrent course taken should be coded to the High School course with the level marked as "college" in the WAVE. If you are embedding courses, both sets of competencies must be covered and both courses should be reflected on the transcript with the credit and grade earned.
