Our Mission: The Alternative Education Department of the Office of Student Support partners with each Alternative Education program in Oklahoma to provide guidance and support to satisfy the 16 Alternative Education criteria. This guidance includes (but is not limited to) evaluation of criteria evidence, providing support through our multi-tiered system of support (MTSS), engaging in professional development, conducting site visits and criteria audits, etc.

Beginning FY23, the Alternative Education Department will make changes to the evaluation and audit process of programs. Our goal is to move from one of predominantly evaluation to one more focused on guidance, support, and evaluation. With this in mind, we have changed the processes for programs to acquire funding for an Alternative Education program and the on-site audit. The new process is fully complaint with HB 2520, the current legislation involving Alternative Education.

The new process will include:
- Each year, all districts will submit evidence of adherence to the 16 criteria in digital folders.
  - Districts must email their field specialist to request access to their digital folders.
  - Completion of the digital folders is due Sept. 1 each year.
- During even years, programs in even regions will have an on-site audit by an Alternative Education field specialist. During this visit an Alternative Education support rubric will be completed. This rubric will help us determine the criteria areas in which the school is highly effective, effective, or in needs of improvement.
- During odd years, programs in odd regions will have an on-site audit by an Alternative Education field specialist. During this visit an Alternative Education support rubric will be completed. This rubric will help us determine the criteria areas in which the school is highly effective, effective, or in needs of improvement.
- Support will be provided to programs in their areas needing improvement. Programs can also reach out to their Alternative Education field specialist to request specific assistance.

If you have any questions, please reach out to your Alternative Education field specialist:
