2.0 System Features 

2.1 Student Searches 

When searching for students, please remember that both regular education and special education students will be listed in EDPlan™. The system will only allow a certain number of students to appear on the screen at once. At this point users should narrow their search by choosing either General Ed or Section 504 Eligible and the beginning letters of the child’s last name. The student search screen will look different depending on each user’s permissions. Some users might not be able to search for students and may only be able to view their individual caseload.

1. From the Main Menu, click on the ‘Students’ button, and then ‘Student Search.’ The ‘Recent Students’ button will display students the user has accessed within the current session.
2. Enter search criteria, such as ‘Student Last Name.’ The search may also be narrowed by choosing the Grade Level, School, and/or Section 504 status.

To search for students with a range of last initials, such as students whose last names start with A, B, or C, enter “a…c.” The ellipses tell the system to include the in-between letters in the search results.

3. Click ‘View Students’ for a list of students that meet the selected criteria.

4. The user may also choose to view students by clicking ‘View My Caseload.’
5. To select a specific student record, click on the name of the student.

2.2 Compliance Symbols

Every student in EDPlan™ has a compliance symbol associated with their name. The compliance symbol can be found in two places in EDPlan, the ‘Select a Student’ page and the ‘Eligibility Report’ page of the 504 process for a particular student. When viewing a caseload, the compliance symbols are a quick way for users to see which students are in or out of compliance, as well as students who have approaching deadlines.

The most common compliance symbols are:

2. Other team members may be added by clicking the ‘Select Section 504 Team’ button.

3. Select any additional team members and Save.
3.2 504 Process Landing Page

Selecting the 504 Process link will direct the user to the 504 Process landing page. EDPlan 504 is process driven, meaning once a section is completed, the user will be directed to the next section in the process. Each section of the process is represented by a tile on the 504 Process landing page. Clicking on a tile will direct the user to that page. As a section is completed, the tile will be green.

When moving through EDplan, the tiles will turn green when a page has completed or red if incomplete.

3.3 Review of Existing Data (RED) and Parent Consent for Evaluation

1. Begin by entering the nature of the concern and responding Yes or No to the question that appears.
2. If Yes is selected, the following fields will appear to be completed. Identify the suspected impairment(s), major life activity(ies), and whether additional evaluation data is required to determine eligibility for Section 504.

1. Is there a suspected physical or mental impairment that substantially limits one or more of the student's major life activities?
   - Yes
   - No

(A) If Yes, identify the suspected physical or mental impairment(s)

   Impairment(s)

   A "physical impairment" means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genito-urinary; hemic and lymphatic; skin; and endocrine.

   A "mental impairment" means any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness and specific learning disabilities.

(B) If Yes, identify one or more major life activity(ies) that it is suspected the impairment(s) substantially limits

   Describe

3. If Question 2 is also marked as Yes, the following fields will also appear. Describe the evaluation procedures and indicate if parent consent if for an initial evaluation or a reevaluation.
4. Click ‘Create Draft’ to create a draft 504 Eligibility document, or ‘Create Final’ to create a final 504 Eligibility document. If parent consent is being requested, a Section 504 Review of Existing Data and Parent Consent document will be generated.

4.0 Eligibility

The ‘Eligibility’ page guides the user through a set of questions to establish a student’s 504 eligibility.

1. Select Print/View Documents from the 504 Process landing page.

2. Check the box next to each document to be viewed/printed in the column labeled ‘Batch.’
