OK Alternate Assessments

The OAAP Portfolio assessment is intended for a very small population of students with the most significant cognitive disabilities. Due to the severity of the cognitive disabilities of this population of students, alternate achievement of the content standards is required in daily instruction as well as statewide assessment and the performance expectations aligned with the statewide general assessment are not appropriate even with accommodations. Assessment decisions are made on an annual basis by the IEP team and students must meet certain criteria to be eligible for an alternate assessment. Students who do not meet the eligibility criteria displayed below SHOULDN'T take the alternate assessment.

If the answer to ANY of the questions below is "NO", the student must participate in the regular assessment with or without accommodations. If ALL of the answers to the questions above are "YES", the student is eligible to participate in an alternate assessment.

1. From the IEP Process tab select the ‘OK Alternate Assessments’ link.

The start and end dates of services must fall within the date range of the IEP Addendum.

Follow the same process of creating the IEP document.
