DTC Timeline

A timeline has been created to assist District Test Coordinators throughout the year with reminders of all the OAAP testing tasks.

Bulk Student Upload in Kite Educator Portal

All districts should now be able to view their students in Kite Educator Portal. The student enrollments were based on IEP records in EdPlan on 8/28/2023. Please review your students, make any necessary updates, and remove any student who is no longer enrolled in your district or eligible for alternate assessment.

New First Contact Survey

A student's First Contact Survey remains with the student from year to year and typically only must be reviewed, updated if needed, and resubmitted each new school year. Due to revisions to the First Contact Survey for 2023–2024, all required items will need to be completed, even for returning students. District Test Coordinators will need to Roster students to the teacher for the teacher to complete this step.

Professional Development

Dynamic Learning Maps offers many valuable professional development resources on their website. We will feature a training in each update that educators may wish to pursue. The next course we are introducing is called Symbols. This course focuses on symbols to support communication and interaction through modeling symbol use, using a core vocabulary overlay, and pairing symbols with words in text.
