

Oklahoma House Bill 4073

Alyssa's Law & Emergency Communications

October 1, 2024 Update

Notice

We are writing to inform you about our ongoing efforts to incorporate changes resulting from [Alyssa's Law \(HB 4073\)](#) regarding school district requirements to implement mobile panic alert systems.

OSDE will soon provide a list of approved vendors that meet the requirements of Alyssa's Law. Once a list of approved vendors is established, school districts will have the option to select the vendor that best meets your district's needs. Funding for any approved vendor will be approved through the School Security Revolving Fund per HB2903 (2023). To apply for this grant and see allowable purchases, visit <https://sde.ok.gov/sro-funding>. For questions, email okcares@sde.ok.gov.

While we work on these important updates, OSDE will continue contracting with RAVE to provide this service to districts currently using the system. OSDE will only cover the cost for this ongoing contract through 06/30, 2025. Should RAVE be selected as an approved vendor, schools may apply for funding from the School Security Revolving Fund to continue service. We appreciate your patience and cooperation as we work to implement these changes and ensure the safety and well-being of Oklahoma's students.
