

The Postsecondary Opportunity (PO) indicator examines how schools are preparing juniors and seniors for life after high school. This guide will go over three key elements: the score, the points and the letter grade. The score reflects the school's performance relative to a specific metric (e.g., % of students on track); whereas the points reflect the school's performance relative to the state-wide distribution, scaled to 10 points.

The Score

The **Postsecondary Opportunities Score** represents the percentage of FAY students in grades 11 and 12 that successfully completed by passing at least one of the approved college-and-career- readiness opportunity. The score is calculated using this formula:

$$\frac{\text{Total Students in grades 11 and 12 with } \geq 1 \text{ Opportunity}}{\text{Total 11th and 12th Grade Students enrolled}} \times 100 = \text{Score}$$

This calculation is displayed in the Accountability Reporting application in Single Sign-On, by the numerator, denominator and score:

Numerator	Denominator	Score	Points	Points Max	Letter Grade
40	110	36.36	4.30	10	C

$$\frac{40}{110} \times 100 = 36.36 \text{ (percent of students that completed at least one opportunity)}$$

Records used to calculate your Postsecondary Opportunity (PO) score were populated from the Student Coursework tab and were reviewed and verified during the PO Data Verification Review (DVR) window. Course records can be retrieved by clicking on the Numerator or Denominator.

Grade Level	Courses	Course Code	Course Description	Lowest Grade	Credit Earned	Target	Points
12	1	SC0026000	Biomedical Science and Medicine ST...	A	1	1	1
12	1	HL0016007	Medical Services	B	1	1	1
12	1	SC0016001	Pre-Engineering STEM Academy	A	1	1	1
12	1	HL0016007	Medical Services	B	1	1	1
11	1	SC0026000	Biomedical Science and Medicine ST...	A	1	1	1
12	1	IT0036002	Digital Design and Publishing	A	1	1	1
11	1	2815	AP Art	A	1	1	1
11	1	HM0046002	Cosmetology	A	1	1	1
11	1	SC0016001	Pre-Engineering STEM Academy	A	1	1	1
11	1	SC0026000	Biomedical Science and Medicine ST...	A	1	1	1

Students earn a point when they complete and pass at least one approved postsecondary opportunity by earning a D or higher. Specific course codes approved for credit for the SY 2021– 2022 Report Card can be found in the Postsecondary Opportunities Guidance linked [here](#).

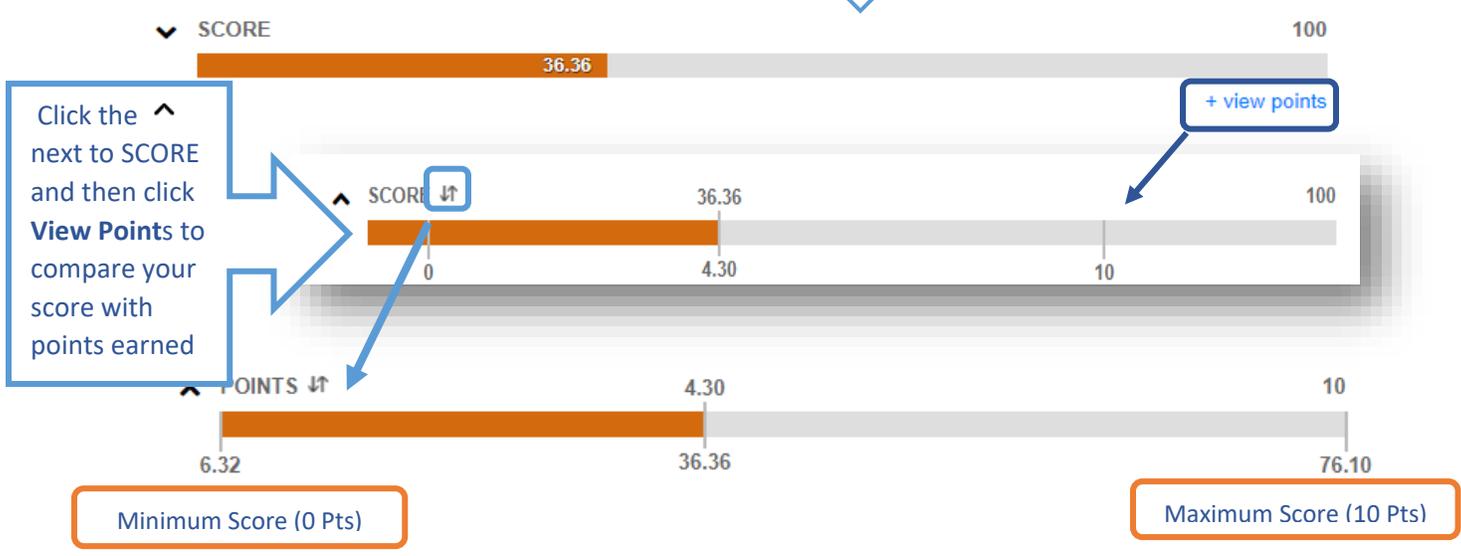

Note: students that have participated in more than one opportunity are identified with a ▶ beside the Year. Clicking on the ▶ will expand the table to show all the courses in which this student participated. Reminder, the goal of this indicator is to ensure that ALL students in grades 11 and 12 have access to at least one opportunity; therefore, students are only eligible to earn one point.

▼ 2019	3	---	---	---	---	2	1	1
11	SC0016001	Pre-Engineering STEM Academy	F	0				
11	4057	AP English 3	A	1				
11	5415	AP US History	A	1				

The Points

The default display is the score for each subject as previously discussed.

Percent of 11th and 12th grade students completing at least one postsecondary opportunity (score)

By clicking the arrows next to “Score”, the bar calibrates relative performance across the state. Relative performance reflects the range used to index scores for the SY 2017-2018 Report Card. The minimum value corresponds to approximately the 2nd percentile and the maximum value corresponds to approximately the 98th percentile. The orange bar displays where the school’s score (bottom) and points (top) earned are indexed based on their performance. Maximum and minimum values used for this indicator are shown below.

Model Type	Minimum PO Score (0 Pts)	Maximum PO Score (10 Pts)
High School	≤ 6.32	≥ 76.10

Postsecondary Opportunity Score to Points is calculated by examining the range between the minimum and maximum scores and comparing your score using the steps below:

Step 1: Find the overall range of scores by subtracting the Maximum Score (98th percentile) from the Minimum Score (2nd percentile)

$$76.10 \text{ (Max PO Score)} - 6.32 \text{ (Min PO Score)} = 69.78 \text{ Overall Range of Scores}$$

Step 2: Find where your score fits within the overall range

$$36.36 \text{ (Earned PO Score)} - 6.32 \text{ (Min PO Score)} = 30.04$$

Step 3: Divide the value found in step 2 by the total range found in Step 1 to find the percentage of points earned

$$\frac{30.04 \text{ (Value from Step 2)}}{69.78 \text{ (Total Range)}} = 0.4305 \text{ (percent of points)}$$

Step 4: Multiply the percentage of points earned by the Maximum Points Possible

$$0.4305 \text{ (% of points earned)} \times 10 \text{ (Max Points Possible)} = 4.31 \text{ points earned}$$

You letter grade is then determined by comparing the points earned to the point distribution shown in the rubric.

The Letter Grade

The table below shows the cut scores based on Total POINTS earned, not the indicator score.

Post-Secondary Opportunities Indicator Letter Grade Rubric		
Grade	Low	High
A	8.89	10.00
B	6.26	8.88
C	3.87	6.25
D	0.37	3.86
F	0.00	0.36
