Activity Description	Reimbursement	Dates	Additional Information
<p>This project is intended to increase participation in OSDE sponsored events/trainings/conference as well as those that would benefit special education teachers and district staff in improving outcomes for students with disabilities. Each activity below will be tracked in our Grants Management System. Districts will need to create an application in the Grants Management System and submit for pre-approval. Districts must then make a claim that adheres to and is approved through the OSDE Joint Federal Programs Claims Procedures. Depending on the activity, reimbursement is offered for mileage, substitutes, registration, and lodging.</p>
