

# SoonerStart

Building futures for babies & families

## Oklahoma SSIP Stakeholder Advisory Committee Meeting April 28, 2021

# Agenda

- Updates
- Guiding Questions
- SSIP Work Groups

# Updates

- Pyramid Model framework and training
- SIMR Statement
- Selection of Pilot Sites – Staff Survey Results
- Selection of Data Collection and Measurement Tool

# NEXT STEPS: Pyramid Model Framework

SSIP Leadership Team will:

- Develop “Request for Proposals” for a contract to support the pyramid model implementation in Oklahoma
- Begin work on the content of the framework
- Establish training protocols
  - Train the Leadership Team
  - Create a “train the trainer” model
  - Develop training for pilot sites

# Selection of the SIMR

- Working on a precise statement and data point to present to OSEP as our SIMR
- Have identified the ASQ-SE2 as the measurement tool

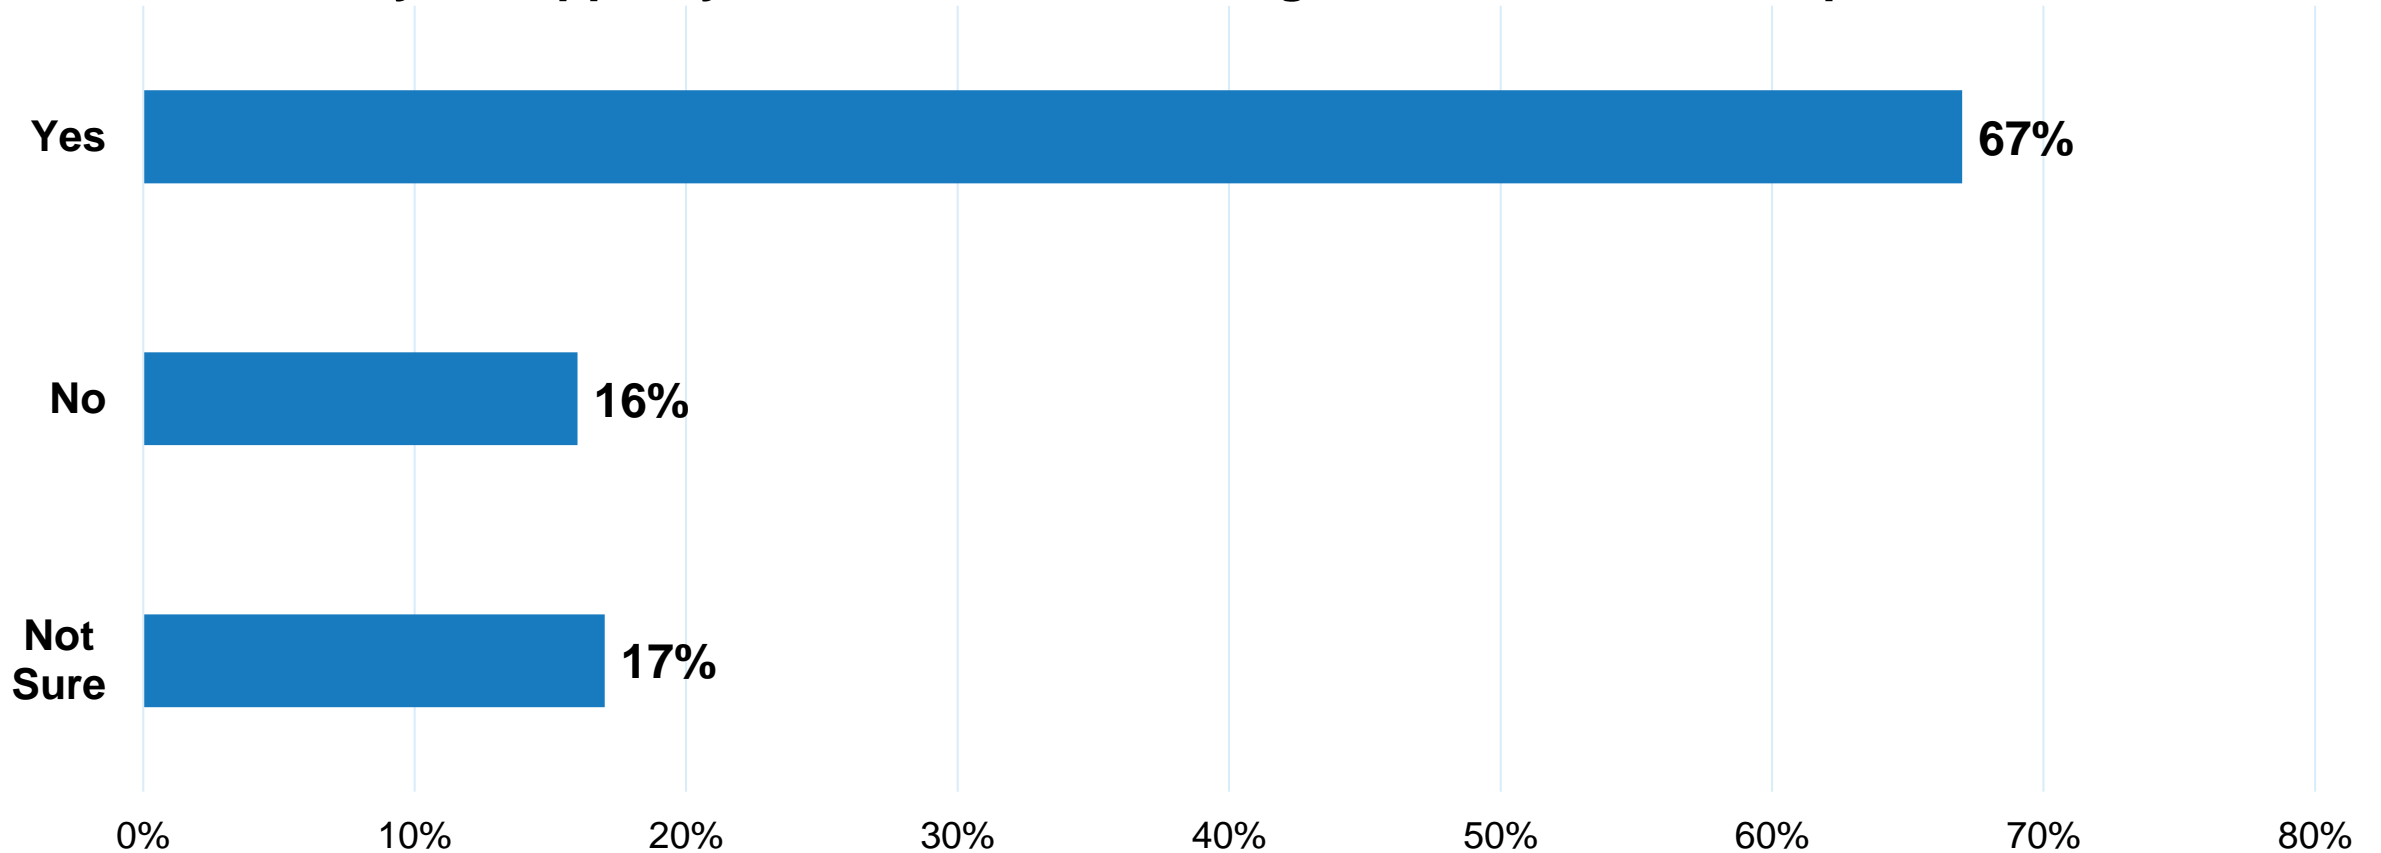

# Pilot Site Survey

**90 Survey Responses (45%)**

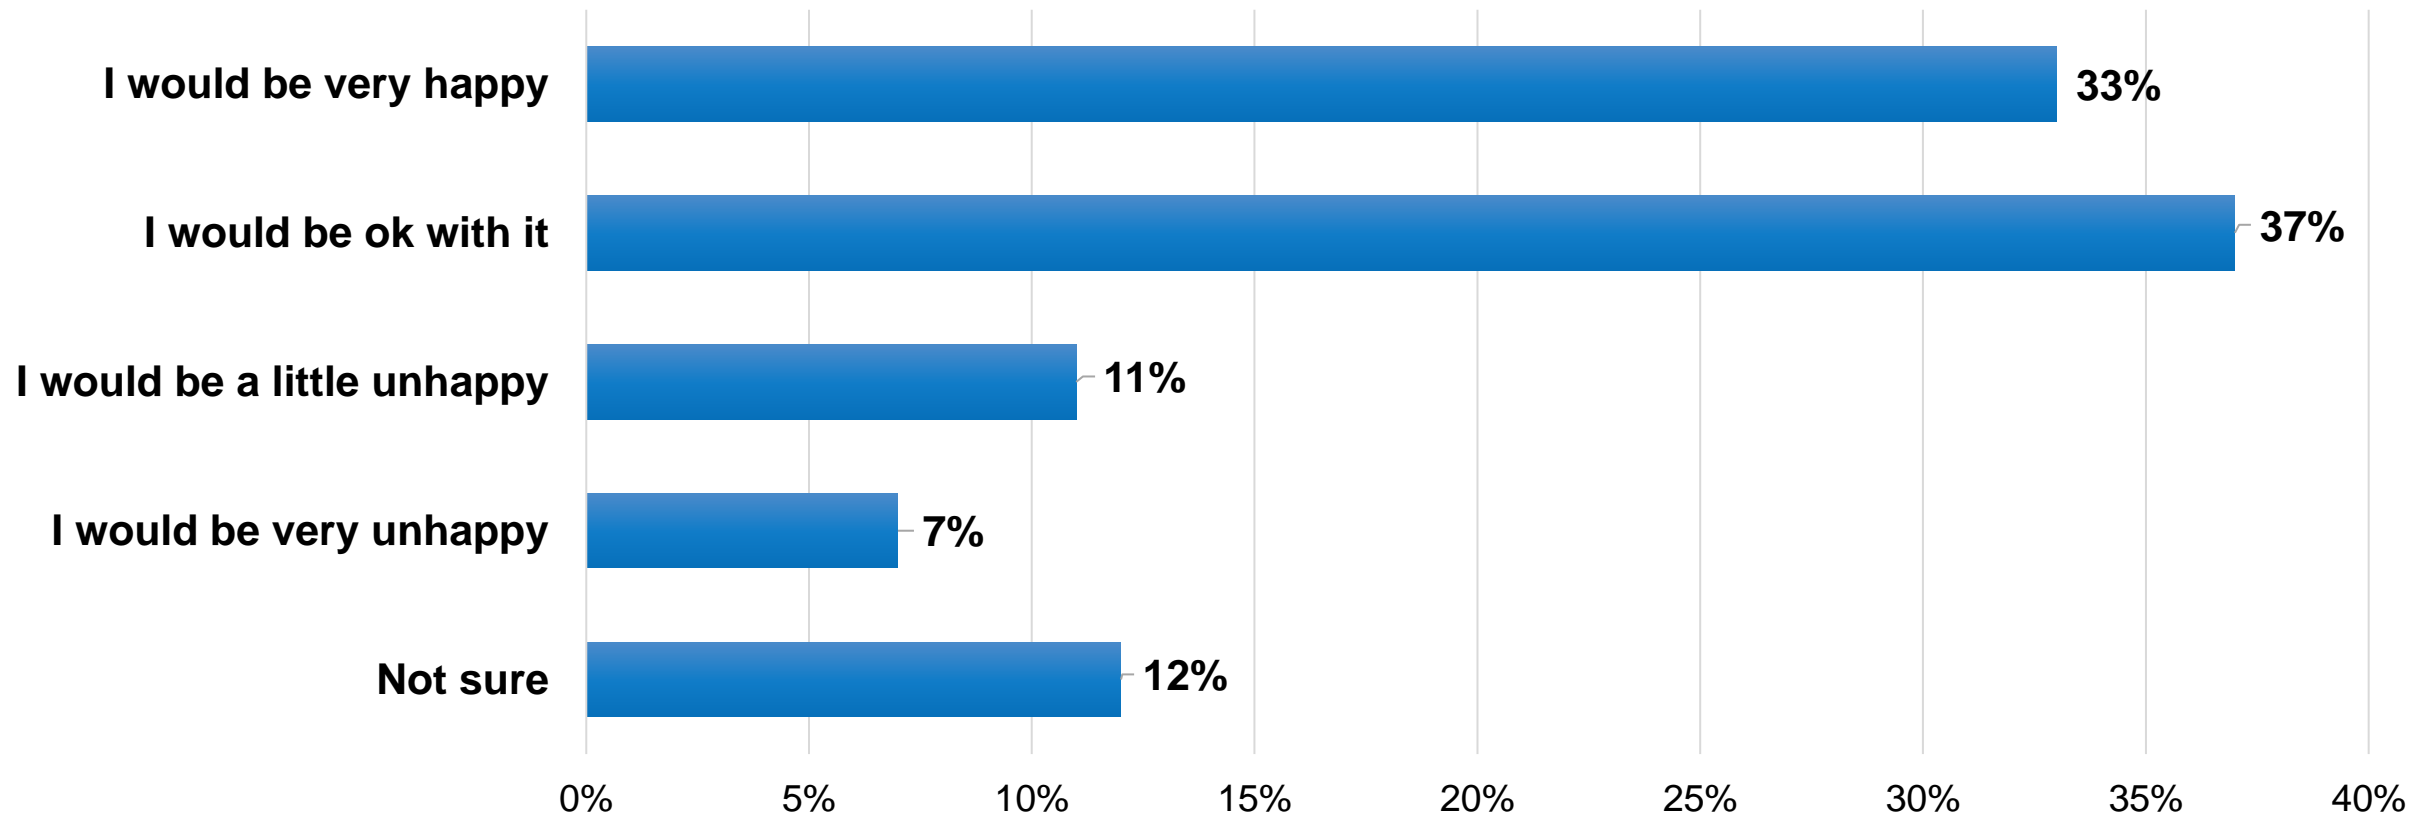

# Q1: Pilot Site Willingness

Would you support your team leaders asking to be one of the first pilot sites?

# Q2: Pilot Site Enthusiasm

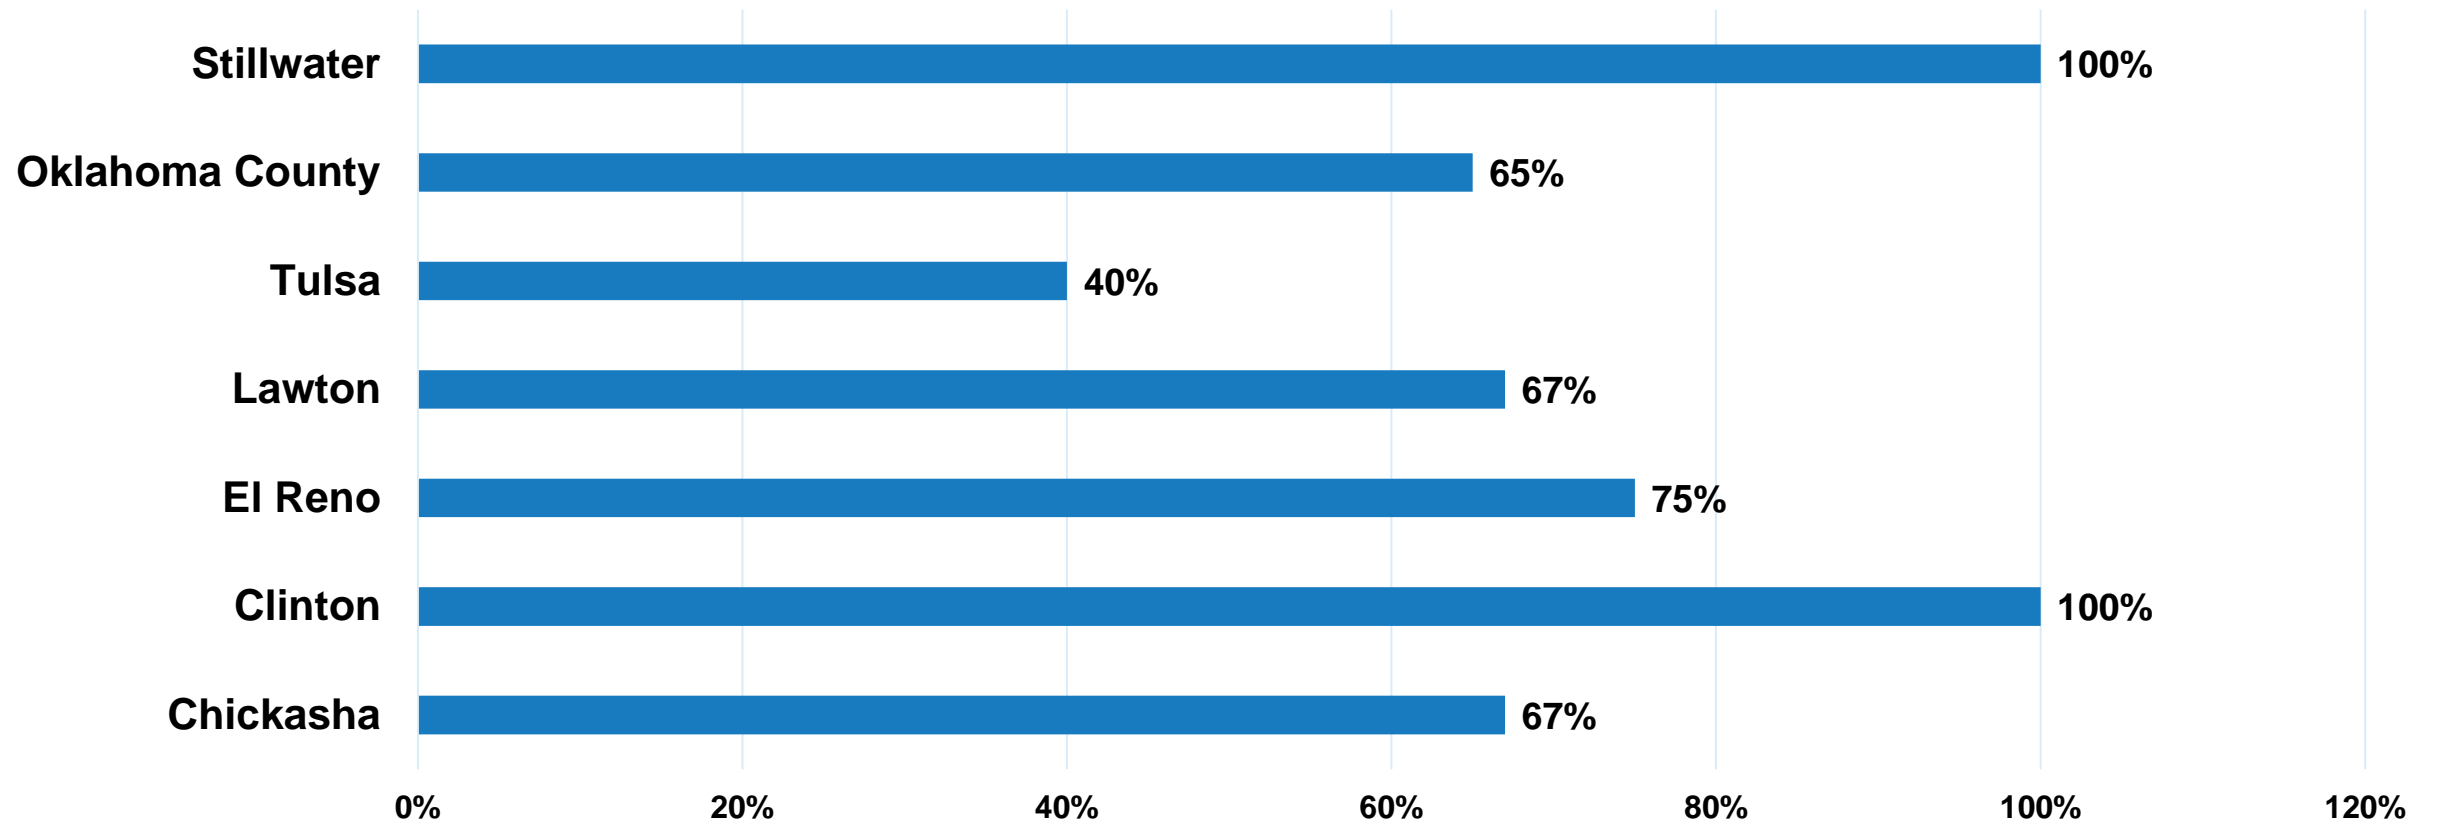

How would you feel if your site were selected to be a pilot?

# Q3: Pilot Site Leadership

I would be willing to serve on the leadership team if my site is chosen as a pilot site.

# NEXT STEPS: Selecting Pilot Sites

SSIP Leadership Team will:

- Review child assessment data, staff availability data and staff survey data of prospective pilot sites
- Select and notify pilot site staff
- Convene stakeholder meeting with pilot site staff for input on development of SSIP strategies

# Data Collection & SIMR Measurement Tool

Research supports the ability of the ASQ:SE-2 to discriminate between children with social-emotional delays and those who appear to be developing typically in social-emotional areas *and* to measure a child's growth over time.

# Benefits of the ASQ:SE-2

- Currently used by SoonerStart staff as a screening tool
- Easily administered and scored
- Flexibility of use with diverse families
- Measures progress over time
- Availability of training through OSDH
- Reasonable costs for screening materials
- Online scoring capability
- Availability of data management program
- Used by 38 Early Intervention programs nationwide

# NEXT STEPS: SIMR Measurement Tool

SSIP Leadership Team will:

- Order ASQ:SE-2 materials needed
- Schedule training for staff
- Develop protocols for collection of baseline data
- Update/Revise SoonerStart procedures for administration of the ASQ:SE-2

# Guiding Questions

- Purpose: to drive the evaluation plan and logic model
- Can define the focus areas for the project: what is most important?
- Reveal the critical concerns of stakeholders and leadership

# Example Questions

- Is the project being executed as designed?
- Is the state-level framework being implemented with fidelity?
- Are sites accessing and using the resources successfully?
- Are sites implementing evidence-based practices with fidelity?
- Are children being appropriately identified for tiered services?
- Are the site interventions improving child skills?

# Large Group Input

# SSIP Work Groups

Pyramid Model – Building Levels of Support

Data Collection and Evaluation

Measuring Practice Fidelity

Collaboration and Partnerships with External Agencies/Program

Professional Development

**Advisory Committee members have been notified of their assignments to SSIP work groups**

# TODAY: Work Group Discussions

Work Group participants will:

- Make introductions, discuss member backgrounds, strengths
- Review work group purpose and goals and member contributions
- Consider timelines and deadlines for group decisions
- Discuss questions for other groups, initial recommendations, etc.
