Medicaid Wave Warning

- Districts need to confirm they are sending the correct value
- If you have an approved app for “Free” it is ok to be in conflict with Direct Cert
- A warning means to check and see if what is showing in the Wave is what you expect to see
- Warnings do not prevent data from going to state reports
- Errors must be corrected as they will block students from state reports

Prepare for State Reporting

- Resolve all pending STN resolutions (STN Tool- SSO)
- Resolve all ownership conflicts (Ownership Wizard- SSO)
- Correct all errors in Data Validation (Data Validation-Wave)
