Oklahoma City, OK 73105

Version	Date	Modification
1.11	2/27/2019	• Removed version logging for 1.10, see version 1.10 or 1.09 for past logging. • All – Removed SIF Char column. • All - Added hyperlinks throughout document for ease of navigation. • All- Updated document formatting for ease of navigation. • All- Removal of Validations associated with objects throughout Section 6. • All – Updated referenced school years to reflect SchoolYear 2019 dates. • All – Updated instances of "refer to code table…" to include the name of code table • All – Corrected typos throughout the document • All – Updated inconsistent page numbering • Addition of MarkInfo object (6.8) • Addition of MarkValueInfo object (6.9) • Addition of SectionMarkInfo object (6.14) • Addition of StudentParticipation object (6.22) • Section 1 o 1.2 – Updated Contact Office title as well as redundant language in paragraph two. • Section 2 o 2.1 – Updated Contact Office title o 2.3 – Addition of Data and Information System Office as contact • Section 4 o Addition of Student Participation, MarkInfo, MarkValueInfo as required SIF_Event objects o 4.1 – ▪ Added language regarding New Year Reporting to clarify expectations surrounding school year rollovers • Section 5 o Updated language to clarify expectations surrounding SIF_Requests and SIF_Query • Section 6 o 6.1 (Address) – ▪ Added link to listing of country code ▪ Updated Attribute Type that previously incorrectly appeared as an Element o 6.2 (AttendanceCodeInfo) – ▪ Included requirement of "OSS" code due to changes in Oklahoma Administrative Code 210:10-1-5 ▪ Updated Attribute SchoolInfoRefId that previously appeared as an Element ▪ Updated Wave Business Rules related to AttendanceType to include clarification on absences related to IDEA or 504 services ▪ Updated Wave Business Rules related to AbsenceValue. ▪ Addition of 0.0 AbsenceValue for presents o 6.3 (CalendarDate) ▪ Updated Attributes Date, CalendarSummaryRefId, SchoolInfoRefId, and SchoolYear that previously appeared as an Element ▪ Updated Elements CalendarDateType/Code, CalendarDateType/OtherCodeList, StudentAttendance/CountsTowardAttendance, StudentAttendance/AttendanceValue, TeacherAttendance/CountsTowardAttendance, TeacherAttendance/AttendanceValue, AdministratorAttendance/CountsTowardAttendance and AdministratorAttendance/AttendanceValue that previously appeared as Attributes ▪ Updated Wave Business rule related to SIF_ExtendedElements/SIF_ExtendedElementName= "DailyInstructionalMinutes" to clarify that passing time is to be included. o 6.4 (CalendarSummary) ▪ Updated SchoolInfoRefId, SchoolYear Attributes that previously appeared as Elements

- Updated Wave Business Rule for RefId to include CalendarDate as a referenced object
- Re-wording of Description Element, removed redundant text
- Re-wording of Extended Element Business Rule for First Nine Weeks

o 6.5 (Demographics)
- Updated CountriesOfCitizenship/CountryOfCitizenship, CountriesOfResidency/CountryOfResidency, EnglishProficiency/Code, EnglishProficiency/OtherCodeList, LanguageList/Language, and LanguageList/Language/Code, LanguageList/Language/OtherCode List, LanguageList/Language/LanguageType, LanguageList/Language/Dialect, DwellingArrangement/Code, and DwellingArrangement/OtherCodeList Elements that previously appeared as Attributes

o 6.6 (DisciplineIncident)
- Updated RefId and SIF_RefObject Attributes that previously appeared as Elements
- Updated RelatedToList/RelatedTo, WeaponTypeList/WeaponType, IncidentCategory/Code, IncidentCategory/OtherCodeList, OffenderList/Offender, OffenderList/Offender/Name, OffenderList/Offender/SIF_RefId, OffenderList/Offender/Injury, OffenderList/Offender/ManifestationDetermination, OffenderList/Offender/ManifestationDetermination/MeetingHeld, OffenderList/Offender/ManifestationDetermination/MeetingDate, OffenderList/Offender/ManifestationDetermination/DueToDisability, OffenderList/Offender/ActionList, OffenderList/Offender/ActionList/Action, OffenderList/Offender/ActionList/Action/Code, OffenderList/Offender/ActionList/Action/OtherCodeList, OffenderList/Offender/ActionList/Action/StartDate, OffenderList/Offender/ActionList/Action/EndDate, OffenderList/Offender/ActionList/Action/Duration, OffenderList/Offender/ActionList/Action/ZeroTolerance, OffenderList/Offender/ActionList/Action/FullYearExpulsion, OffenderList/Offender/ActionList/Action/ShortenedExpulsion, OffenderList/Offender/ActionList/Action/PoliceNotification, OffenderList/Offender/ActionList/Action/Arrest, OffenderList/Offender/ActionList/Action/AlternativeEducation, VictimList/Victim, VictimList/Victim/Name, VictimList/Victim/SIF_RefId, and VictimList/Victim/Injury Elements that previously appeared as Attributes

o 6.7 (LEAInfo)
- Updated EducationAgencyType/Code, EducationAgencyType/OtherCodeList , LEAContactList/LEAContact, and all other LEAContactList/… Elements that previously appeared as Attributes

o 6.8 (MarkInfo)
- Updated Wave Business rule for RefId to include SectionMarkInfo and StudentSectionMarks as a referenced object

o 6.9 (MarkValueInfo)
- Updated Wave Business rule for RefId to include MarkInfo as a referenced object
- Updated Wave Business rule for SchoolInfoRefId to include clarification that this attribute references the SchoolInfo object

o 6.10 (RoomInfo)
- Updated RefId and SchoolInfoRefId Attributes that previously appeared as Elements

o 6.11 (SchoolCourseInfo)
- Updated SchoolInfoRefId, and SchoolYear Attributes that previously appeared as Elements

o 6.12 (SchoolInfo)
- Updated Wave Business rule for RefId to include MarkInfo, SectionMarkInfo, and MarkValueInfo as referenced objects

- Added clarification regarding Non-Accredited school sites
- Updated SchoolFocusList/SchoolFocus, PrincipalInfo/…, SchoolContactList/… Elements that previously appeared as Attributes
- o 6.13 (SectionInfo)
  - Updated RefId, SchoolCourseInfoRefId, and SchoolYear Attributes that previously appeared as Elements
  - Updated ScheduleInfoList/…, MediumOfInstruction/Code…, LanguageOfInstruction/… , LocationOfInstruction/…, SchoolCourseInfoOverride/… Elements that previously appeared as Attributes
  - Updated Wave business rule to include objects that reference SectionInfoRefID
- o 6.15 (StaffAssignment)
  - Updated RefId, SchoolInfoRefId, StaffPersonalRefId, SchoolYear Attributes that previously appeared as Elements
  - Updated JobFunction/…, TeachingAssignment/… Elements that previously appeared as Attributes
  - Updated Wave Business rule for StaffPersonalRefId to clarify StaffPersonal as the referenced object
  - Updated PrimaryAssignment business rule to reduce redundancy
- o 6.16 (StaffPersonal)
  - Updated RefId Attribute that previously appeared as an Element
  - Updated OtherIdList/… Elements that previously appeared as Attribute
- o 6.17 (StudentAcademicRecord)
  - Updated RefId, SIF_RefId, SIF_RefObject Attributes that previously appeared as an Element
  - Updated StudentSchoolEnrollmentData/…, SchoolAttendanceHistory/…, EnrollmentHistory/…, CurrentCourseActivity/…, CourseHistory/…, AcademicPerformanceHistory/…, AcademicPerformanceSummary/…, AssessmentPerformanceHistory/…, AdditionalGraduationRequirementPerformanceHistory/… ActivityAwardHistory/…, Elements that previously appeared as Attributes
  - Updated AdditionalGraduationRequirementPerformanceHistory/Requirement/StatusOS DEeterminationDate To AdditionalGraduationRequirementPerformanceHistory/Requirement/StatusDet erminationDate to align with SIF Specifications
- o 6.18 (StudentAttendanceSummary)
  - Removal of language directing districts to input data directly in *The Wave*.
  - Added clarification language what *The Wave* expects to receive when an object is requested
  - Updated examples in object description
  - Added clarification of Wave business rules
  - Updated StudentPersonalRefId, SchoolInfoRefId, SchoolYear Attributes that previously appeared as Elements
- o 6.19 (StudentContact)
  - Updated StudentPersonalRefId Attribute that previously appeared as an Element
  - Updated OtherIdList/OtherId, Type, ContactFlags/… Elements that previously appeared as Attributes
- o 6.20 (StudentDailyAttendance)
  - Added language clarifying what *The Wave* expects to happen when an Absence is changed to a Present, etc.
  - Updated StudentPersonalRefId, SchoolInfoRefId, Date, SchoolYear Attributes that previously appeared as an Elements
- o 6.23 (StudentPersonal)
  - Updated the intention of the object to match SIF Specifications.

- Removal of "Common Issues" section
- Updated AlertMessages/AlertMessage, OtherIdList/OtherId, Type, MostRecent/SchoolLocalId, Elements that previously appeared as Attributes
- Removed redundant text in the business rule under ProjectedGraduationYear
- Updated Wave Business Rule for SIF_ExtendedElements/SIF_ExtendedElementName="Bilingual" to account for new code
- Updated Wave Business Rule for SIF_ExtendedElements/SIF_ExtendedElementName="FreeReduced" to account for students that refused FreeReduced services
- Removed redundant text under HomelessPrimaryNightTimeResidence
  - o 6.24 (StudentSchoolEnrollment)
    - Updated "SSE" abbreviation to StudentSchoolEnrollment
    - Removed text referring to past business rules as more than 3 school years have passed since its original inclusion.
    - Updated StudentPersonalRefId, SchoolInfoRefId, MembershipType, TimeFrame, and SchoolYear Attributes that previously appeared as Elements
    - Updated EntryType/…, ExitType/… Elements that previously appeared as an Attributes
    - Added clarification in Wave Business rules for objects referenced in the SIF_RefObject attribute field
    - Added link to ResidencyStatus/Code table
  - o 6.25 (StudentSectionEnrollment)
    - Updated StudentPersonalRefId, SectionInfoRefId, and SchoolYear Attributes that previously appeared as Elements
    - Updated ScheduleInfoOverrideList/ScheduleInfoOverride, ScheduleInfoOverrideList/… , and CreditsAttempted Elements that previously appeared as Attributes
  - o 6.26 (StudentSectionMarks)
    - Updated StudentPersonalRefId, SectionInfoRefId, TermInfoRefId, and SchoolInfoRefId Attributes that previously appeared as Elements
    - Updated MarkList/… Elements that previously appeared as Attributes
    - Added reference in Wave Business rule that MarkInfoRefId references MarkInfo object
  - o 6.27 (TermInfo)
    - Updated RefId, SchoolInfoRefId, and SchoolYear Attributes that previously appeared as Elements
- Section 7
  - o All- Updated formatting
  - o All – Added links to return to referenced object for ease of navigation
  - o 7.15 (EnglishProficiency)
    - Added a new code "1637" in order to flag students that could be identified as ELL but are refusing services
    - Updated language around code "2349" for clarification purposes
  - o 7.18 (State Testing Proficiency Levels)
    - Updated Testing Proficiency levels to align with current descriptions
  - o 7.31 (Testing in the Lower Grades)
    - Removed "duplicate subsection"

1 Introduction

The Oklahoma State Department of Education (OSDE) developed and implemented a comprehensive statewide student record tracking and reporting system, branded *The Wave*, as a multi-year, phased project that revolutionized the manner in which district data are collected, managed, and analyzed by the state and local school districts. In accordance with 70 O.S. § 3-104, state law authorized the Oklahoma State Board of Education and the Oklahoma State Department of Education to collect data from schools necessary to perform required duties and functions.

Using *The Wave*, OSDE staff are able to manage data for decision making and statistical reporting at the state level, routinely provide pertinent information to school districts, and satisfy mandated state and federal reporting requirements improving the ability of the OSDE to address accountability issues, student mobility, longitudinal studies, emerging policy matters, federal reporting mandates, and other related items.

Legislation requires that student information and instructional management systems used within Oklahoma school districts, beginning with the 2005-2006 school year, comply with XML standards and SIF specifications. These requirements, when combined with state data collection and submission requirements, define the external requirements districts and schools must address when deciding how to best meet their needs.

This document outlines the collection of student information system (SIS) student demographic and enrollment data from districts. Collection of this data includes event-based reporting as well as scheduled (request-based) collections.

1.1 Purpose

The purpose of this document is to provide information necessary for the collection of required student demographic, enrollment, teacher and course data, within *The Wave*. This requirements document is for SIS vendors to use in mapping the elements necessary for data collection. **Oklahoma school district personnel must ensure their vendor is provided this documentation and is able to meet the defined data submission requirements.** Vendors may utilize this document as a vital starting point for SIF agent development as it clearly identifies Oklahoma's expectation in regards to the SIF 2.0r1 Implementation Specification. Data objects and elements identified in this document, to be collected through *The Wave*, fall under the same School Laws of Oklahoma as all reports required of school districts. All persons charged with the collection of data through *The Wave* shall maintain event and scheduled data collections with the highest degree of diligence, accuracy, and good faith in reflecting the truth.

1.2 How to Use this Document

This document provides the necessary requirements for the SIS to properly submit and receive SIF messages to/from *The Wave*. Subsequent sections identify SIF Objects and Elements, OSDE business rules, applicable Code tables, and data validation rules. To ensure success with *The Wave*, reference must be made to all four of the above mentioned aspects. If questions or uncertainty regarding specific aspects arise, please contact the OSDE Data & Information Systems Office at (405) 521-2030 for clarification.

This document is to be used in conjunction with the [SIF 2.0r1 Implementation Specification](#).

1.3 How this Document is Organized

This document is divided into seven sections, and two appendices designed to answer a wide range of questions about operational considerations and technical requirements for implementing the district's interface with *The Wave*.

Section 1: Introduction - provides information regarding the document itself.

Section 2: Configuration Components - provides information regarding the necessary components for successful connection to *The Wave* and to enable successful submission of required data.

Section 3: Student Testing Number Assignment - provides information regarding the assignment of Student Testing Numbers.

Section 4: SIF_Event Processing - provides information regarding event-based SIF objects/elements.

Section 5: SIF_Request Processing - provides information regarding request-based SIF objects/elements.

Section 6: SIF Object Mapping - provides information regarding the specific requirements for SIF objects/elements within *The Wave*.

Section 7: Code Tables - provides information regarding the acceptable code values for elements identified in Section 6.

Appendix A: Current Data Validations

Appendix B: New Data Validations

1.4 Definitions

This table lists a variety of terms and acronyms used within this document. Since these terms are understood by vendors developing student information packages, they have been listed here in summary as a point of reference.

Term	Brief Description
Event	A change to existing district level data that results in a SIF message being sent to the zone.
HTTPS	Hyper Text Transfer Protocol Secure
Initial Assignment	The one-time process of assigning state-provided student testing numbers to currently enrolled students within a district.
Initial Load	The submission of student data provided by districts for the initial assignment or revalidation of state- provided student testing numbers. The initial load will occur at the beginning of each school year.
OSDE	Oklahoma State Department of Education
SIF	Schools Interoperability Framework: SIF is an open standard specification to ensure K-12 instructional and administrative software applications share information quickly and efficiently. SIF is platform independent and vendor neutral.
SIF Application Agent	Refers to the part of a SIS or other application that sends/receives data in accordance with SIF specifications.
SIF XSD	Schools Interoperability Framework eXtensible Markup Language Schema Definition/Documentation. Refers to the specification standard that is used by ZIS/SIF Agents to validate data coming from another SIF Agent ensuring it has met the required standard.
SIS	Student Information System: A software program used by a school or district to collect and manage student information. Sometimes referred to as a Student Information Package (SIP).
SSL	Secure Socket Layer: A protocol for transmitting private documents via the Internet.
STN	Student Testing Number: A unique, state-provided number assigned to all students by *The Wave*.
The Wave	A customized and secure electronic statewide student information system established to benefit districts with federal and state reporting requirements.
XML	eXtensible Markup Language: A flexible way to create information formats and share both the format and the data on the World Wide Web, intranets, and elsewhere.
ZIS	Zone Integration Server: Middleware software designed to manage data routing, data security, and message delivery.

2 Configuration Components

The specific configuration of each district will involve three key components; Student Information Systems (SIS), the Schools Interoperability Framework (SIF) Agent, and District Zone registration.

2.1 Student Information Systems (SIS)

Student Information Systems (SIS) are applications at the district/site level that track data necessary for reporting and accountability purposes. There are numerous vendors, applications, and versions available to Oklahoma districts. The specific selection is determined by the individual needs of each district. These systems must meet three requirements in order to be considered "compliant" with *The Wave*. First, SIS applications must be certified to the identified SIF Implementation Specification, 2.0r1, and submit data in the 2.0r1format. Second, SIS applications must go through a pilot process for effective message verification with *The Wave*. Third, SIS applications must continue to maintain the standards outlined in this document throughout the school year.

Districts unsure about potential SIS vendors can contact the Data & Information Systems office or view the SIF Certification Register by visiting the SIF Web site. These three requirements apply to any SIS vendor desiring to do business with districts in Oklahoma. Once a vendor has met the first two steps (SIF Certification and Pilot Process) and has shown compliance throughout a single school year, there will not be a need to meet step two (Pilot Process) again. They must continue to renew their SIF Certification yearly and show continued compliance with the current Wave requirements document and any updates to the documentation.

2.2 Schools Interoperability Framework (SIF) Agent

In order for a district's SIS application to submit data to *The Wave,* there must be a working SIF agent connected to both the SIS application and the State zone integrated sever (ZIS). Many SIS vendors develop these agents for their application. For SIS applications that do not have a SIF Agent, developed, a third party vendor may need to be selected to provide the SIF agent. Regardless of the configuration, the application and the SIF Agent must comply with the current Wave Requirements documentation.

2.3 District Zone Registration

Once a district has a SIS and a working 2.0r1 SIF agent, meeting the requirements identified in 2.2, the district will be ready to register into a specific zone within *The Wave*. The zone information will be made available to district SIF agent vendors as they identify their readiness to connect to *The Wave*.

District SIF agents will register into a zone located at the state. The OSDE will provide a single monitored zone for each district. This single zone will be the channel for data transfer to and from *The Wave*. For Student Testing Number assignment, SIS/SIF vendors must be capable of receiving the StudentPersonal object change from the single district zone and populate the STN to the appropriate district or site level application.

For further information regarding this process, please contact the Data and Information System Office at (405) 521- 3020.

3 Student Testing Number Assignment

Districts enrolling a new student or a student new to their district will enter the STN assignment process based on four SIF objects. The objects utilized for STN assignment are StudentPersonal, StudentContact, SchoolInfo and StudentSchoolEnrollment. The SchoolInfo object should be received at the beginning of the school year. The remaining three objects will be sent to *The Wave* upon enrollment of the student within the district and will be utilized to determine whether the student record is unique or currently exists within the OSDE data warehouse. Upon assignment of a STN, *The Wave* will publish a change on the StudentPersonal object. The StudentPersonal/StateProvinceId element will contain the state assigned unique 10-digit identifier or STN that begins with "100". Student Information Systems (SIS) must be capable of receiving the StudentPersonal object change from the single district zone located at the state and populate the STN to the appropriate district or site level application.

4 SIF_Event Processing

The SIF 2.0r1 Implementation Specification identifies a SIF_Event as follows:

> When an application adds, changes or deletes data represented in one or more Zone Contexts, its Agent should publish the corresponding Add, Change or Delete SIF_Event to the Zone.

For the objects identified as being event-based, *The Wave* requires SIF_Event messages be published by the SIF Agent to the ZIS when adds, changes or deletes occur at a daily minimum even if there has been no SIF_Request made. These SIF_Event messages will then update *The Wave*.

Refer to the Schools Interoperability Framework Implementation Specification Version 2.0r1 for SIF_Event object information. Refer to section 6 – SIF Object Mapping of this document for specific *Wave* mapping information for each object.

The following SIF Objects are required to have SIF_Event reporting: AttendanceCodeInfo, CalendarDate, CalendarSummary, DisciplineIncident, LEAInfo, RoomInfo, SchoolCourseInfo, SchoolInfo , SectionInfo, StaffAssignment, StaffPersonal, StudentContact, StudentDailyAttendance, StudentPersonal, StudentParticipation, StudentSchoolEnrollment, StudentSectionEnrollment, StudentSectionMarks, MarkInfo, MarkValueInfo, and TermInfo.

For more information and mapping for these objects, refer to section 6 – SIF Object Mapping.

4.1 New Year Reporting (NYR)

In conjunction with a SIS New Year Rollover process, a SIF_Sleep message shall be sent to the assigned district zone prior to rollover to the following school year. A Push-mode Agent can send a SIF_Sleep message to the ZIS to change its state to "asleep," indicating that the ZIS should not send the Agent messages until it "wakes up" by sending a SIF_Wakeup message or re-registering with SIF_Register. A Pull-mode Agent can also changes it state to "sleeping," but this has no effect other than indicating to other Agents via SIF_ZoneStatus that it is "sleeping" and not processing messages in its queue. Sending a SIF_Wakeup or SIF_GetMessage will indicate that the Agent is "awake," as will re-registering with SIF_Register.

5 SIF_Request Processing

The Wave, for any of the identified objects, may issue [SIF_Requests](#) at any time. The SIS application agent must be able to respond to these requests. If [SIF_Query](#), is not used in the request, *The Wave* will expect to receive all data for the object requested for the current school fiscal year. If SIF_Query is used in the request, the agent must be able to respond to a multi conditional SIF_Query request.

Data for previous years may be sent as well, but at a minimum, the complete current school fiscal year data must be provided. The school fiscal year runs from July 1st to June 30th of the following year. For example, if *The Wave* requested all [StudentPersonal](#) and [StudentSchoolEnrollment](#) data, we would expect at minimum to receive data on all students who attended at any point during the fiscal school year. If the request was made in May 2019, students who began attending in August 2018 and exited prior to May 2019 would be in the response along with the students currently attending. Refer to the [Schools Interoperability Framework Implementation Specification Version 2.0r1](#) for SIF_Request information. Refer to [section 6](#) of this document for specific Wave mapping information for each object.

6 SIF_Request Processing

The table below identifies the columns being utilized for the SIF Object Mappings tables. Element, Attribute, Char, and SIF Description have been obtained directly from the [SIF 2.0r1 Implementation Specification](#) (with the exception of StudentAttendanceSummary) and are reprinted with permission from Schools Interoperability Framework Association. Printed by the State Department of Education as authorized by 70 O.S. § 3-104.

In addition to identifying the object, elements and *Wave* Business Rules, a section entitled "Common Issues" is provided for each object to identify areas where data is commonly invalid or fails to meet the standard for that element as required in the SIF 2.0r1 Specification. It may also contain some "best practices" to use when providing this object/element to the OSDE.

6.1 Address

(SIF specification 2.0r1 - 6.2.1)

This element represents an address. This element occurs within objects and elements such as StudentPersonal .

Common Issues:
- StateProvince – The StateProvince is required in the SIF Specification to be two upper case letters from the specified code list.
- Country – The Country is required in the SIF Specification to be two upper case letters or four uppercase letters for formerly used names of countries, review codes in the specific code list for SIF 2.0r1.
- PostalCode –Valid PostalCodes when the country is U.S. are five (5) or nine (9) numeric digits.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
Address				
	Type	**M**	Code that defines the location of the address. Note: A subset of specific valid values for each instance in a data object may be listed in that object.	Refer to code table 7.1 (AddressType)
Street		**M**	The street element is a complex element and is broken down into several parts below	
Street/Line1		**M**	Address line 1.	
Street/Line2		O	Address line 2.	
Street/Line3		O	Address line 3.	
Street/Complex		O	Name of the complex	
Street/StreetNumber		O	The address number assigned to the building	
Street/StreetPrefix		O	Street prefix like NE	
Street/StreetName		O	The name of the street	
Street/StreetType		O	The type of street. For example, Lane, Blvd., Ave., etc.

StateProvince		**M**	The state or province code.	
Country		**M**	The country code.	
PostalCode		**M**	The ZIP/postal code.	
GridLocation		N		

6.2 AttendanceCodeInfo Object

(SIF specification 2.0r1 - 6.14.1)

This object provides information about a particular attendance code, allows applications to synchronize each other's attendance code tables, or provides a dynamic list of attendance codes.

Note: Due to changes in Oklahoma Administrative Code 210:10-1-5, OSDE expects to receive the following fields/elements within the AttendanceCodeInfo object when a student is absent due to a suspension:

- AttendanceCode = "OSS"
- AttendanceType = "Absent"
- AttendanceStatus = "Excused"
- AttendanceValue = 0.5 or 1.0

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
AttendanceCodeInfo				
	RefID	**M**	The Id (GUID) that uniquely identifies this AttendanceCodeInfo entity.	**Objects that Reference AttendanceCodeInfoRefId**: StudentDailyAttendance StudentPeriodAttendance
	SchoolInfoRefId	**M**	The Id (GUID) that identifies the school where the attendance code is used.	This links the attendance code to the SchoolInfo object.
AttendanceCode		**M**	Locally defined code for attendance	
AttendanceType		**M**	Type of attendance code. Values: - Absent - Tardy - Early Departure - Partial - Present - Other	If the student is participating in a field trip, sporting events, etc. the AttendanceType should be Present and the absence value should be 0.0 if the student attends during the duration of the event. If the student is receiving a service in conjunction with an IEP or 504, the AttendanceType should be Present and the absence value should be 0.0.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
AttendanceStatus		**M**	Excused status of the attendance code **Valid Values**: • Excused • Unexcused • Unknown • NA	
Description		**M**	The text description of the attendance code	
AbsenceValue		**M**	The amount of absence represented by AttendanceCode, up to three decimal places	**All values not listed below will be excluded from state aid attendance calculations.** *The Wave* will need to receive one of the following values when "UsedForDailyAttendance" has a "Yes" value for the purposes of calculating state aid: • 0.0 • 1.0 • 0.5 1.0 indicates a full day of absence; 0.5 indicates a half day of absence; 0.0 indicates the student was present

2.X Wave Requirements

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
UsedForDailyAttendance		**M**	Is this attendance code used for daily attendance? **Valid Values**: • Yes • No	
UsedForPeriodAttendance		**M**	Is this attendance code used for period attendance? **Valid Values**: • Yes • No	

6.3 CalendarDate Object
(SIF specification 2.0r1 - 6.14.2)

This object defines information related to a school calendar day in a given school calendar year. If both CalendarDate and CalendarSummary objects are supported, there must be an instance of this object for each date between CalendarSummary StartDate and EndDate, inclusive.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
CalendarDate				
	Date	**M**	A specific school day that occurs within the school year.	
	CalendarSummary RefId	**M**	The Id (GUID) of the calendar summary in which this calendar date is.	This links to the CalendarSummary object.
	SchoolInfoRefId	**M**	The Id (GUID) of the school for which this calendar information is being reported.	This links to the SchoolInfo object.
	SchoolYear	**M**	School year for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., "2019" for the 2018-19 school year.)	
CalendarDateType		**M**	Calendar date type information.	
CalendarDateType/Code		**M**	Code indicating the type of school day.	Refer to code table 7.33 (CalendarDate Type Code)
CalendarDateType/OtherCodeList		**M**		A Codeset of "StateProvince" will be used here. One of the following values must be sent. **Valid Values**: NA, 01, 02 • NA = Not Applicable • 01 = Professional Day • 02 = Parent/Teacher Conference

2.X Wave Requirements

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
CalendarDateNumber		**M**	Order in which the calendar date falls within the school calendar.	
StudentAttendance		**M**	Information describing how the day relates to student attendance.	
StudentAttendance/CountsToward Attendance		**M**	Designates whether this date should be counted toward student attendance. **Valid Values**: - Yes - No	
StudentAttendance/CountsToward Attendance		**M**	Amount of the school day in which the student should be in attendance (Format is x.x; a student who should be in attendance a full day would be represented as 1.0) If CountsTowardAttendance equals "Yes" then StudentAttendanceValue must be greater than zero.	**Valid Values**: 0 0.5 1
TeacherAttendance		O	Information describing how the day relates to teacher attendance.	
TeacherAttendance/CountsToward Attendance		**M**	Designates whether this date should be counted toward teacher attendance	
TeacherAttendance/AttendanceValue		**M**	Amount of the school day in which the teacher should be in attendance (format is x.x; a teacher who should be in attendance a full day would be represented as 1.0).	**Valid Values**: 0 0.5 1
AdministratorAttendance		O	Information describing how the day relates to administrator attendance	
AdministratorAttendance/CountsToward Attendance		**M**	Designates whether this date should be counted toward administrator attendance.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
AdministratorAttendance/ AttendanceValue		**M**	Amount of the school day in which the administrator should be in attendance (format is x.x; an administrator who should be in attendance a full day would be represented as 1.0).	**Valid Values**: • 0 • 0.5 • 1
SIF_Metadata		O		
SIF_ExtendedElements	SIF_ExtendedElements/SIF_ ExtendedElementName= "DailyInstructionalMinutes"	**M**		This value will be a number without decimal places. Will show the number of instructional minutes for this specific date. **Instructional minutes do not include lunch. Instructional minutes do include passing time.** If this specific date does not represent an instructional day, the value "0" should be sent.

6.4 CalendarSummary Object
(SIF specification 2.0r1 - 6.14.3)

This object provides a summary of a school's calendar information for a given school year.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
CalendarSummary				
	RefId	**M**	The ID (GUID) of the calendar to which this information relates.	**Objects that Reference CalendarSummaryRefID:** CalendarDate StudentAttendanceSummary StudentSchoolEnrollment
	SchoolInfoRefId	**M**	The ID (GUID) of the school for which this calendar information is	This links the CalendarSummary to the SchoolInfo object.
	SchoolYear	**M**	School year for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g. "2019" for the 2018-19 school year).	
LocalId		**M**	The locally assigned identifier for this calendar.

6.6 DisciplineIncident Object
(SIF specification 2.0r1 - 6.14.4)

This object provides information on incidents involving violence, weapons, drugs, and other safety and discipline issues.

This object is used to populate the Annual Incident Report so the minimum reporting requirements are to report those incidents, which would normally be tracked to produce the data necessary to fill in this yearly report.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
DisciplineIncident			This object provides information on incidents involving violence, weapons, drugs, and other safety and discipline issues.	
	RefId	**M**	The unique identifier (GUID) of this discipline incident.	
SchoolYear		**M**	School year in which the incident occurred, and for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., "2019" for the 2019-20 school year).	
AgencyReporting		**M**	The ID (GUID) of the school or LEA reporting the incident, usually the school in which the incident occurred.	
	SIF_RefObject	**M**	The name of the SIF object to which the GUID relates.	Objects Referenced: SchoolInfo LEAInfo

2.X Wave Requirements

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
IncidentNumber		**M**	The locally-defined unique identifier (within the school or school district) to identify this specific incident or occurrence	
IncidentDate		**M**	The date when the incident occurred.	
IncidentTime		**M**	The time when the incident occurred.	
	Type	**M**	Identifies whether or not the incident occurred during school hours.	Refer to code table 7.22 (DisciplineIncident IncidentTime Type)
IncidentLocation		**M**	The locally defined identifier or description of the location where the incident occurred.	
	Type	**M**	Identifies where the incident occurred.	If the incident occurred in one location, but more than one code can describe the location, select the code that is most specific (e.g. 3011 – On Campus OR 3017 – Restroom. Select 3017 - Restroom). If the incident occurred in multiple locations, select the location where the incident began. Refer to code table 7.23 (DisciplineIncident IncidentLocationType)

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
IncidentLocationRefId		O	GUID of the SIF object that relates to the school or location where the incident occurred, if applicable.	
	SIF_RefObject	**M**	The name of the SIF object to which the GUID relates.	
IncidentCost		O	If the incident resulted in a quantifiable monetary loss for any entity involved, identify and record the value of that loss. Cost may be reported by specific monetary amount or range.	
IncidentReporter		**M**	Information regarding the individual who reported the incident.	
	Type	**M**	Identifies the type of individual who reported the incident	Refer to code table 7.24 (DisciplineIncident Description Type)
IncidentReporter/Name		O	The name of the individual reporting the incident	
IncidentReporter/SIF_RefId		O	GUID of the SIF object that relates to the person who reported the incident, if applicable.	
	SIF_RefObject	**M**	The name of the SIF object to which the GUID relates.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
RelatedToList		C	List of categories to which the incident is related.	Required if the incident is related to one of five categories (referenced in RealtedToList/RelatedTo). If the incident is not related to one of the five categories, then this particular element will not be sent.
RelatedToList/RelatedTo		**MR**	Identifies if incident was related to a specific category.	If this incident is related to one of the categories below, supply that code. It can be related to more than one. In that instance, multiple codes will be supplied. • 3066- Alcohol related • 3067 – Drug related • 3068 – Gang related • 3069 – Hate related • 3070 – Weapon related
WeaponTypeList		C	List of weapons involved in the incident. If the incident involves weapons, the element must have a value.	
WeaponTypeList/WeaponType		**MR**	Identifies the type of weapon used during an incident.	Refer to code table 7.25 (DisciplineIncident Weapon Type)
IncidentCategory		**M**	The category or description for this incident.	
IncidentCategory/Code		**M**	Identifies the type of incident being reported.	Refer to code table 7.26 (DisciplineIncident IncidentCategoryCode).

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
IncidentCategory/OtherCodeList		O	List of other codes or strings that crosswalk to or serve as translations of the Code element. If Code changes and OtherCode elements are supported, both Code and all associated OtherCode elements must be present.	
OfferderList		**M**	List of offenders.	
OffenderList/Offender		**MR**	Information regarding the offender(s)/perpetrator(s).	
	Type	**M**	Identifies the type of offender involved in the incident.	Refer to code table 7.23 (DisciplineIncident Description Type)
OffenderList/Offender/Name		**M**	The name of the offender.	
OffenderList/Offender/SIF_RefId		C	If the Offender Type attribute identifies the offender as a Student or Staff Member, then this element should contain the ID (GUID) of the student or staff to whom this information relates.	
SIF_RefObject		**M**	SIF Object to which the SIFRefId relates.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
OffenderList/Offender/Injury		**M**	Identifies whether or not this specific offender was physically injured, and if so, identifies whether the injury was major or minor.	Describes the injury of the offender. **Valid Codes:** • 3063 - Minor injury • 3064 - Major injury • 3065 - No injury • 3579 - Serious bodily injury **Definitions**: **Major Injury & Serious bodily injury** - Great bodily injury meaning bone fracture, protracted and obvious disfigurement, protracted loss or impairment of the function of a body part, organ, or mental faculty or substantial risk of death. **Minor Injury** - Injury not included above **No Injury** - No Injury
OffenderList/Offender/ManifestationDetermination		**M**	Information relating to a manifestation determination meeting.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
OffenderList/Offender/ManifestationDetermination/MeetingHeld		**M**	Was a manifestation determination meeting held for this student regarding this offense?	The default value sent will be "No" for all incidents. If a manifestation determination meeting was held, then the value would be "Yes" **Valid Values:** • Yes • No
OffenderList/Offender/ManifestationDetermination/MeetingDate		C	Date of the manifestation determination meeting, if applicable.	Required if a Manifestation Determination Meeting was held.
OffenderList/Offender/ManifestationDetermination/DueToDisability		C	Did the team determine that the offense was a manifestation of the student's disability?	Required if a Manifestation Determination Meeting was held. **Valid Values:** • Yes • No
OffenderList/Offender/ActionList		C	List of actions taken.	Required if action was taken.
OffenderList/Offender/ActionList/Action		**MR**	Information regarding the action(s) taken against the offender in response to the incident.	
OffenderList/Offender/ActionList/Action/Code		**M**	Specific action taken toward this offender.	Refer to code table 7.27 (DisciplineIncident Action Code)

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
OffenderList/Offender/ActionList/Action/OtherCodeList		O	List of other codes or strings that crosswalk to or serve as translations of the Code element. If Code changes and OtherCode elements are supported, both Code and all associated OtherCode elements must be present.	
OffenderList/Offender/ActionList/Action/StartDate		**M**	The date on which the disciplinary action begins.	
OffenderList/Offender/ActionList/Action/EndDate		**M**	The date through which the disciplinary action is in effect, inclusive.	
OffenderList/Offender/ActionList/Action/Duration		**M**	Identifies the length, in school days, of the disciplinary action. **Note**: decimal places may be used for fractions of school days.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
OffenderList/Offender/ActionList/Action/ZeroTolerance		**M**	Identifies whether or not this action taken against a student was imposed as a consequence of state or local zero tolerance policies.	**Valid Values:** • Yes • No
OffenderList/Offender/ActionList/Action/FullYearExpulsion		**M**	Identifies whether or not the action involved an expulsion with or without services for a period of one full year (i.e., 365 days).	For Oklahoma, redefine "expulsion" as "out of school suspension" in the SIF Description at the left. **Valid Values:** • Yes • No

	RefId	**M**	The ID (GUID) that uniquely identifies the school course.	**Object that Reference SchoolCourseInfoRefID:** SectionInfo
	SchoolInfoRefId	**M**	The ID (GUID) that identifies the school where the course is offered.	This links the SchoolCourseInfo to the SchoolInfo object.
	SchoolYear	**M**	School year for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., 2019 for the 2018-19 school year).	
CourseCode		**M**	School-defined local code for the course.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
StateCourseCode		**M**	State-defined standard course code used to report information about courses.	State-defined course codes are available by going to the Accreditation section of the OSDE's website and selecting a grade category under subject codes. College level courses must be associated with a valid high school subject code from the accreditation state course codes. The code used must correspond with the content of the course. For example, if a student is taking psychology at a local college or university, the state course code for psychology should be utilized with an instructional level code of 0576 (college level). If there is no equivalent high school code, use the closest available elective course code that is unique to the student's course history.
DistrictCourseCode		O	The corresponding district course code.	
SubjectAreaList		O	Subject matter areas.	
CourseTitle		**M**	Title of the course.

6.12 SchoolInfo Object
(SIF specification 2.0r1 - 6.14.9)

This object is used to generate the required GUID for the school.

Common Issues
- StateProvinceId – This must be the county/district/site code of a valid accredited district/site. Districts commonly track students in separate site databases for flexibility in tracking and data security. An example of this would be a district that has only two accredited sites (105, 705), but for tracking purposes, they have a "middle school" (site 505) where they track their 7th and 8th graders. This fictional site with real students must be reported to us with the correct accredited StateProvinceId of county/district/105.
  - For students enrolled in a non-accredited alternative education program districts must submit enrollment records in the following way in order to be accurately reported in *The Wave*. The SchoolInfoRefID must be associated with the Non-Accredited school site and the SIF_ExtendedElementName "SchoolOfMembership" must be associated with the Accredited School site.
- Ideally this will be done with a single SchoolInfo object for both the students in site 105 and the students in site 505, but if necessary, two SchoolInfo objects can be provided, both having the same StateProvinceId. RefId associations with StudentSchoolEnrollment and StudentPersonal would of course be in place to properly identify the SchoolInfo object.
- NCESId -- This is commonly not filled in by the district or filled in incorrectly. This information can be found by going to the following link and searching for the district/school.
- GradeLevels – Only the GradeLevel Codes identified in the SIF 2.0r1 Specification are accepted. Some SIS applications allow districts to create custom grade levels. SIS SIF Agents must ensure these custom grade levels are mapped to an appropriate SIF Code or the object will fail SIF XSD Validation.

6.15 StaffAssignment Object
(SIF Specification 2.0r1 - 6.14.11)

This object defines information related to a staff member's assignment(s); commonly, this will be a school assignment.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
StaffAssignment			This object defines information related to a staff member's assignment(s); commonly, this will be a school assignment.	More than one StaffAssignment is expected when a staff member, such as a teacher is assigned or has duties/responsibilities at more than one School site.
	RefId	**M**	The GUID that uniquely identifies a particular staff assignment.	
	SchoolInfoRefId	**M**	The ID (GUID) that identifies the school where the staff member is assigned.	This links the StaffAssignment to the SchoolInfo object. Vendors are free presently to take whatever approach best suits the needs of their districts or application with regard to "district only" staff. The use of this object for *The Wave* is primarily for identifying the StaffAssignment of teachers. *The Wave* recognizes that not all staff are teachers, but the inclusion of the SchoolInfoRefID mandates that each StaffPersonal be assigned to a particular school(s).
	SchoolYear	**M**	School year for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., 2019 for the 2018-19 school year).

Description		O	Short assignment description	
PrimaryAssignment		**M**	Is this the staff member's primary assignment? **Note**: There must be one and only one instance of the object with a Yes value in this element per school year.	*The Wave* recognizes there may be a short period of time while the end user is modifying the PrimaryAssignment. During that time period, a validation warning will be displayed for the end user to correct this as soon as possible. Once *The Wave* receives one PrimaryAssignment the warning should clear from our website.
JobStartDate		**M**	This is the date from which the staff assignment is valid (inclusive).	This is the start date for this particular staff member for the current fiscal year. As such, the date must fall within the current fiscal year. For contracted Staff, this will be the beginning of the contract date

6.17 StudentAcademicRecord
(SIF specification 2.0r1 - 6.15.3)

This object conveys a student's academic record data for student record exchange and transcript purposes.

This object is required for all students from PK through Grade 12. Certain elements of the object are conditional and only required for high school students who have completed at least one hour of high school credit. The main portion of this object needed for students in a grades lower than 9th is the AssessmentPerformanceHistory which will provide a means for school districts to transmit data regarding various assessments students have completed. For students in 9th through 12th grade, more information related to what would normally be found on a high school transcript is expected.

Due to the nature of the data collected in this object, it is required that a SIF_Response be provided for two fiscal years of StudentAcademicRecord data (i.e. the current fiscal year and the previous fiscal year). It is possible for a student to exit the school before all of the necessary data elements are supplied by the user. As an example, a student may graduate, but his/her final grades and all associated assessments were not entered until after the district rolled its Student Information System to the next school year. In that instance, *The Wave* will still be able to request StudentAcademicRecord data from the previous school year at the very least. More than two fiscal years may be available, but at a minimum the current year and previous school year StudentAcademicRecord data must be available for all students who attended the district during those timeframes.

Districts may send state assessment records; however, there will be no Wave business rules on how to send this information as OSDE receives these data directly from the test vendor.

6.18 StudentAttendanceSummary Object

(SIF specification 2.0r1 - 6.14.13)

This object provides a summary of a student's daily attendance and membership information for a given school during the time period between the StartDate and EndDate, inclusive. As such, there may be multiple instances of this object for a student in a school over the course of a school year.

Note: An additional SIF_ExtendedElement has been added to include the StudentSchoolEnrollmentRefId. This addition reflects the architecture of the SIF 2.4 Specification without requiring vendors to move to that specification. As such, the SIF Descriptions listed below are from the 2.4 Specification. *The Wave* will expect to receive the StudentAttendanceSummary object as a 2.0r1 object.

This object will be collected primarily two times a year but may be requested at any time. The first will be upon completion of the first nine-week reporting period; the second will be upon completion of the school year. SIF_Query will be used to submit the request during these two time periods. The SIF_Query request will typically utilize StartDate and EndDate and may also include a particular SchoolInfoRefId and/or StudentPersonalRefId.

OSDE expects to receive two records per request.
- One record must be related to the first day of instruction through to the end of the first nine weeks (FQSR) inclusive.

- One record will be related to the first day of instruction through to the end of the school year (ASR) inclusive.

Example 1 (FQSR Response WITH gap in Enrollment)
Student A has a StudentSchoolEnrollment_EntryDate of August 13, 2018. August 13, 2018 is a Day of Membership.

Student A has a StudentSchoolEnrollment_ExitDate of August 17, 2018. The week of August 13-17 contained five Instructional Days.

Student A was not eligible for transportation.

Student A has a StudentSchoolEnrollment_EntryDate of August 21, 2018. August 20, 2018 is a Day of Membership.

Student A has a StudentSchoolEnrollment_ExitDate of August 24, 2018. The week of August 21-25 contains five Instructional Days.

Student A was present on all days enrolled except for August 23, 2018. Student was eligible for transportation all days expect for August 23, 2018.

Example expected response when a request is issued for Student A's StudentAttendanceSummary.

Response 1 would contain the following:
- StartDate = August 13, 2018
- EndDate = August 17, 2018
- StartDay = 1
- EndDay = 5
- DaysAttended = 5
- DaysInMembership = 5
- UnexcusedAbsences = 0
- ExcusedAbsences = 0
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 13, 2018 and an ExitDate of August 18, 2018.
- "DaysTransportedEligibleStateAid" = 0
- Other required elements in the object

Response 2 would contain the following:
- StartDate = August 21, 2018
- EndDate = August 24, 2018
- StartDay = 7
- EndDay = 10
- DaysAttended = 3
- DaysInMembership = 4
- UnexcusedAbsences = 0
- ExcusedAbsences = 1
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 22, 2018 and an ExitDate of August 24, 2018.
- "DaysTransportedEligibleStateAid" = 4
- Other required elements in the object

OSDE expects to receive two records per request.
- One record must be related to the first day of instruction through to the end of the first nine weeks (FQSR) inclusive.
- One record will be related to the first day of instruction through to the end of the school year (ASR) inclusive.

Example 1a (ASR Response WITH gap in Enrollment)
Student A has a StudentSchoolEnrollment_EntryDate of August 21, 2018. August 20, 2018 is a Day of Membership.

Student A has a StudentSchoolEnrollment_ExitDate of August 24, 2018. The week of August 21-25 contains five Instructional Days.

Student A was present on all days enrolled except for August 23, 2018. Student was eligible for transportation all days expect for August 23, 2018.

Student A has a StudentSchoolEnrollment_EntryDate of September 3, 2018. Student A then finishes out the year.

Student A was present on all days enrolled except for 5 days.

Between September 3, 2018 and May 23, 2019 there were 18 days were instruction was not held. This student was eligible for transportation all days

Example expected response when a request is issued for Student A's StudentAttendanceSummary.

Response 1 would contain the following:
- StartDate = August 13, 2018
- EndDate = August 17, 2018
- StartDay = 1
- EndDay = 5
- DaysAttended = 5
- DaysInMembership = 5
- UnexcusedAbsences = 0
- ExcusedAbsences = 0
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 13, 2018 and an ExitDate of August 18, 2018.
- "DaysTransportedEligibleStateAid" = 5
- Other required elements in the object

Response 2 would contain the following:
- StartDate = September 3, 2018
- EndDate = May 23, 2019
- StartDay = 7
- EndDay = 174
- DaysAttended = 169
- DaysInMembership = 174
- UnexcusedAbsences = 2
- ExcusedAbsences = 3
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 22, 2018 and an ExitDate of May 23, 2019.
- "DaysTransportedEligibleStateAid" = 169
- Other required elements in the object

OSDE expects to receive two records per request.

- One record must be related to the first day of instruction through to the end of the first nine weeks (FQSR) inclusive.

- One record will be related to the first day of instruction through to the end of the school year (ASR) inclusive.

Example 2 (FQSR response WITHOUT Gap in Enrollment)
Student B has a StudentSchoolEnrollment_EntryDate of August 13, 2018. August 13, 2018 is a Day of Membership.

Student B does NOT have an ExitDate as the student is still currently enrolled.

There are 9 weeks in the first quarter, and the start date is August 13, 2018 and the end date is October 15, 2018. During that time there were 5 days were instruction was not held.

Student B was present on all days enrolled except for August 30, 2018. Student B was not eligible for transportation.

Example expected response when a request is issued for Student B's StudentAttendanceSummary.

Response 1 would contain the following:
- StartDate = August 13, 2018
- EndDate = October 15, 2018
- StartDay = 1
- EndDay = 41
- DaysAttended = 170
- DaysInMembership = 174
- UnexcusedAbsences = 0
- ExcusedAbsences = 4
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 13, 2018 through the end of the First Nine Weeks which was October 15, 2018 as noted in the Extended Element "FirstNineWeeks" for the CalendarSummary object.
- "DaysTransportedEligibleStateAid" = 0
- Other required elements in the object

OSDE expects to receive two records per request.

- One record must be related to the first day of instruction through to the end of the first nine weeks (FQSR) inclusive.

- One record will be related to the first day of instruction through to the end of the school year (ASR) inclusive.

Example 2a (ASR Response WITH gap in Enrollment)
Student B has a StudentSchoolEnrollment_EntryDate of August 13, 2018. August 13, 2018 is a Day of Membership.

Student B has a StudentSchoolEnrollment_ExitDate of May 23, 2019.

Student B was present on all days enrolled except for 4 days.

Between August 13, 2018 and May 23, 2019 there were 22 days were instruction was not held. This student was not eligible for transportation.

Example expected response when a request is issued for Student A's StudentAttendanceSummary.

Response 1 would contain the following:

- StartDate = August 13, 2018
- EndDate = May 23, 2018
- StartDay = 1
- EndDay = 174
- DaysAttended = 5
- DaysInMembership = 5
- UnexcusedAbsences = 0
- ExcusedAbsences = 0
- StudentSchoolEnrollmentRefId = the RefId where the student had an EntryDate of August 13, 2018 and an ExitDate of May 23, 2019.
- "DaysTransportedEligibleStateAid" = 0
- Other required elements in the object

6.19 StudentContact Object

(SIF specification 2.0r1 - 6.14.14)

This object is used to create the student contact information. It is also used to update the student contact information during data collection.

Common Issues

- Relationship – The Relationship code is required to be a four-digit numeric value as identified in the SIF 2.0r1 StudentContact Relationship table. The local code is commonly sent and will cause the object to fail SIF XSD validation. Ensuring that all codes are properly mapped or providing a drop down list of available codes in the SIS can help to correct this issue.

6.20 StudentDailyAttendance Object
(SIF specification 2.0r1 - 6.14.15)

This object provides daily attendance information for a particular student in a particular school on a particular date.

Multiple instances of this object can be sent for each student daily. As this is a large number of objects, vendors can elect to send only the instances where the AttendanceCodeInfoRefId represents an AttendanceType other than "Present." In these instances, the SIF_Event reporting will only reflect when a student is absent, tardy, etc. They will be assumed *Present* otherwise.

Note: If the SIF_ExtendedElement (InSchoolSuspension) associated with this object indicates a "Yes", the object MUST be sent regardless of what the AttendanceCodeInfoRefId represents. This will help to control the volume of SIF_Events locally for a district server. If desired, all SIF_Events, including "Present" can be sent as well.

Note: It is required that a SIF_Event "delete" be sent to *The Wave* in instances where an record was initially sent to *The Wave* as Absent and was subsequently changed to a Present in the local student information system unless the SIF_Agent has the ability to send presents. If Present can be sent to *The Wave*, a SIF_Event "change" should be sent updating the existing record AttendanceType from Absent to Present, Tardy, etc.

It is expected that this data can be retrieved via a SIF_Request from the state at any time and that the SIF_Response will be able to include all StudentDailyAttendance records for all students regardless of the AttendanceTypeCode referenced by the AttendanceCodeInfoRefId for the current school year at minimum. *The Wave* may make a request similar to this on a weekend day when district servers will not be as likely to have the workload a normal week would place on them.

6.22 StudentParticipation Object
(SIF specification 2.0r1 - 6.13.1)

This object contains information pertaining to student eligibility for and participation in an individualized special program such as special education, ESL, Section 504, etc.

OSDE will collect information specific to the following programs:
ELL, Economic Disadvantaged, FreeReduced

Multiple instances of this object may be transmitted for a particular student because the student may participate in multiple programs and because the details of a student's participation in a given program may change over time. A separate instance of this object must be generated for each program in which the student participates, and the ProgramType element is used to identify the particular program. In addition, each time the student's participation profile changes for a particular program, a new instance of this object must be generated with the appropriate value in the ProgramType element, the effective date of the new profile in StudentParticipationAsOfDate, and a new RefId.

ProjectedGraduationYear		**M**	Currently projected graduation year.	The year submitted should reflect the projected school year (fiscal year) graduation year for the student. Normally, this projected graduation year will not change from year to year if the student is on track to graduate on time. It is possible for this element to change if it becomes true the student will no longer graduate when previously expected. They may graduate earlier or later than previously determined. At the time it is determined the student's graduation year will be different, a SIF_Event "Change" would be expected when this year is modified in the SIS. **Examples:** 1. If the student will graduate in May, 2019, the projected graduation year should be 2019. 2. If the student will graduate in December, 2018 the projected graduation year should be 2018. 3. If the student will complete graduation requirements in July 2019, but for reporting purposes the graduation will be reported for the 2018- 2019 school year, the projected graduation year should be 2019.

6.24 StudentSchoolEnrollment Object
(SIF specification 2.0r1 - 6.14.18)

This object is used to assign ownership of the student record during the Student Testing Number (STN) assignment process. It is also used to update the existing student information in *The Wave* during data collection and reporting.

Multiple StudentSchoolEnrollment objects over the course of a school year are possible depending on certain factors.

Where "Requires New StudentSchoolEnrollment" is indicated in *The Wave* Business Rules column below, *The Wave* will expect to see a new StudentSchoolEnrollment object if that element/attribute changes. This would require an exit (StudentSchoolEnrollment change event with an ExitDate) and entry (StudentSchoolEnrollment add event with the new data and EntryDate = ExitDate from previous entry + 1 day) for the student. The EntryDate can NOT equal the ExitDate of the previous StudentSchoolEnrollment for the same student in the same district. The EntryDate must always be at least one calendar day later. The only exception to creating a new StudentSchoolEnrollment object on the fields indicated below with "Requires New StudentSchoolEnrollment" would be in the situation where invalid data is being corrected. Note: If an element is not indicated as requiring a new StudentSchoolEnrollment, but SIF specification require one, a new StudentSchoolEnrollment object should be created.

Common Issues

- EntryType/Code and ExitType/Code – These two elements are required to be four numerical digits identified in the SIF 2.0r1 specification. The local code utilized by the districts is commonly sent which will fail the SIF XSD validation.

StudentSchoolEnrollment			This object defines information related to a student's enrollment. Note there is only one current home enrollment at a time per student. Only one instance of the StudentSchoolEnrollment object must exist for a given student with MembershipType=Home and TimeFrame=Current for the time interval between EntryDate and ExitDate, inclusive. Effective in version 2.0, agents are required to republish a StudentSchoolEnrollment object Change event when the TimeFrame attribute changes, regardless of when the data entry is done. This is in addition to the pre-2.0 practice of publishing the object change event at the time the data changes in the corresponding application. When the object is republished, it must contain all the data in the object that is supported by the publisher. For more information, please refer to the supporting documentation in the SIF 2.0r1 Specification.

EntryType/OtherCodeList		**M**		Refer to code table 7.2 The BasisOfAdmission that was formerly a SIF_ExtendedElement has been moved to this location as a Basis of Admission is required each time a new StudentSchoolEnrollment is created and is also an element that if changed requires a new StudentSchoolEnrollment object. A codeset of "StateProvince" will be used. For each unique entry in a school site or district, it is possible for the BasisOfAdmission to be different. **Example**: A student could enter District A at the beginning of the school year with a BasisOfAdmission code of "OT" (Open Transfer). Halfway through the first semester, the student's family moves into the district. This student would then be exited and re-entered with a new BasisOfAdmission of "R" (Resident). This would indicate the time period the student was enrolled in the district as a student on an Open Transfer and the time period the student was enrolled in the district as a Resident (R).

	SIF_ExtendedElements/SIF_ExtendedElementName= "SchoolOfMembership"	**M**		**School of Membership** *Requires new StudentSchoolEnrollment* The County, District, Site code of the School who should receive the state aid funding for this particular enrollment period. Most of the time, this will be the same as the StateProvinceId of the SchoolInfo associated with this enrollment and consequently should be the default code provided. **Examples of when this code would differ from the SchoolInfo/StateProvinceId:** **1**. The student attending this school is on an IEP and this school is providing the services another district is paying for through a service agreement. The other school site's county/district/site code (e.g. 01C033105) should be provided here. Attendance and membership received from this enrollment can then be applied back to the resident district listed here. In this instance, the EntryType/OtherCode (Basis of Admission) for this enrollment should be one of the following (IEPSA, IEPSAVON, IEPSAVOFF). **2**. The school this enrollment is associated with is an alternative education facility set up to serve multiple students from multiple school sites in the district. The site code is therefore not an accredited site code but is used to track students in the alternative school site. This element should contain the county/district/site code of the school site for which membership and attendance will be reported for state aid purposes. **Note:** Concatenate County, District, and Site. Must be a valid county/district/site combination in *The Wave*. Must contain the county id, the district id, and the school site id. **Example** – Adair county/Bell Elementary School = 01C033105

	SectionInfoRefId	**M**	The Id (GUID) that uniquely identifies the SectionInfo object that this item refers to.	This links the StudentSectionMarks to the SectionInfo object.
	TermInfoRefId	**M**	The Id (GUID) that identifies the marking period that the following marks are recorded in.	This links the StudentSectionMarks to the TermInfo object.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
	SchoolInfoRefId	**M**	The Id (GUID) that uniquely identifies the School that these Mark Values apply to.	This links the StudentSectionMarks to the SchoolInfo object.
IsFinal		**M**	Indicates if the grades are "Final" from the perspective of the teacher or school. Does not mean that change events will not occur for this item.	
MarkList		**MR**	A list of marks received for this student in this section. For each Mark entry, at least one of the sub-elements must be specified.	
MarkList/Mark		**MR**	Outer wrapper for marks reported for this section, in this term.	
	MarkInfoRefId	**M**	The Id (GUID) that identifies a mark that was given for this student.	This links the StudentSectionMarks to the MarkInfo object.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
MarkList/Mark/Percentage		C	The percent score for this mark (0.00 - 100.00).	**Required if available.** **Note**: At least one of the four (Percentage, Numeric, Letter, Narrative) must be supplied. For the higher grades (7th– 12th, Percentage and Letter grades are expected where applicable).
MarkList/Mark/Numeric		C	The raw numeric score for this mark.	**Required if available.** **Note**: At least one of the four (Percentage, Numeric, Letter, Narrative) must be supplied. For the higher grades (7th– 12th, Percentage and Letter grades are expected where applicable).
MarkList/Mark/Letter		C	The letter grade for this mark.	**Required if available.** **Note**: At least one of the four (Percentage, Numeric, Letter, Narrative) must be supplied. For the higher grades (7th– 12th, Percentage and Letter grades are expected where applicable). The letter grade is used for inclusion in the Post-Secondary Opportunities Report.

	SIF_ExtendedElements/SIF_Extend edElementName= "TermGrade"	C		**Term Grade** Required if a Term Grade exists. Contained in this element will be the MarkInfoRefId that represents the relevant grade for the term associated with this particular object. Since the StudentSectionMarks contains a MarkList, it is possible for more than one grade to be assigned for this object for a particular term and it is possible for all of the grades contained in the list to be IsFinal = true. The relevant grade or "report card" grade for the term (TermInfoRefId) associated with this object should be identified by placing the MarkInfoRefId from the MarkList in this ExtendedElement. If a relevant grade does not exist, then the SIF_ExtendedElement does not have to be supplied. The format for the RefId should contain no spaces or hyphens. **Example**: F4AABF042EAD4781A9AA20BF64C4EDAC

6.27 TermInfo Object
(SIF specification 2.0r1 - 6.14.21)

This object provides information about a term.

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
TermInfo			This object provides information about a term; i.e., a reportable period of time.	
	RefId	**M**	The ID (GUID) that uniquely identifies this TermInfo entity.	**Objects that Reference TermInfoRefID:** SectionInfo StudentSectionEnrollment StudentSectionMarks
	SchoolInfoRefId	**M**	The ID (GUID) that identifies the school where the term is used.	This links the TermInfo to the SchoolInfo object.
	SchoolYear	**M**	School year for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., 2019 for the 2018-19 school year).	
StartDate		**M**	Starting date of the term.	
EndDate		**M**	Ending date of the term (CCYYMMDD).	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
Description		**M**	Text-based description of the term.	The locally defined description of the term. If the term set up is a block term, it is recommended the school include the word "Block" somewhere in the description of the term (e.g. Block 1, Block Two, 3rd quarter block, etc.). Otherwise, the Description can be anything determined by the school.
RelativeDuration		**O**	Portion of the school year represented by this term, expressed in decimal form precise to 4 decimal places (e.g., 0.1333).	
TermCode		**O**	Locally-defined code.	
Track		**O**	The name, description, or code of the track that contains this term. This is used when there are multiple tracks within a school. For instance, kindergarten commonly has a different set of terms than other grades within the school.	

Element	Attribute	Wave Element	SIF Description	Wave Business Rules
TermSpan		**M**	Code for session type.	An indication of the Session Type. A specific code indicating what this particular term being reported represents. **Valid Values:** • 0827 - Full School Year • 0828 - Semester • 0829 – Trimester • 0830 – Quarter • 0831 -Quinmester • 0832 - Mini-term • 0833 - Summer term • 0834 -Intersession • 0835 - Long session • 0837 - Twelve month • 9999 – Other **OSDE does not ever expect to receive code 9999 – Other.** This code is reserved for emergency legislative updates or mid-year policy changes and is not valid for any other reason. If you cannot find a code that fits a scenario, please call OSDE.

7 -Code Tables

This section identifies code tables showing how SIF Codes provided by your SIS SIF Agent will be mapped by *The Wave* to acceptable OSDE codes. It also provides the expected codes for an element that does not have a standard SIF code. Wherever applicable in the SIF Specification, always use the appropriate SIF code. For elements in Section 6 - SIF Object Mappings that did not include a reference to a table in this section the tables identified in the SIF specification are to be utilized.

This table identifies the columns being utilized for the Code Tables.

7.2 Basis of Admission (EntryType Code/OtherCode List)
Note: This element is to be supplied in the StudentSchoolEnrollment.EntryType.OtherCodeList with a Codeset = "StateProvince"

OSDE Code	OSDE Description
ACEPT	Part time. A student denied a standard diploma by the school district due to a lack of required credits in either College Preparatory/Work Ready Curriculum or Core Curriculum that reenrolls in that same school district on a part-time basis to meet the unfulfilled graduation requirements. This is in accordance with Senate Bill 1105 (70 O.S. § 11-103.6). Students can only enroll in courses or periods necessary to meet the graduation requirements. These students should **NOT** be included on your First Quarter Statistical (FQSR) or your Annual Statistical Report (ASR). They are reported through the Graduation Part-Time report.
BDR	This code should ONLY be used by the School for the Deaf or School for the Blind in their student information system for the purposes of reporting students to *The Wave*. This code should NOT be used by other public school districts.
BORDER	This student is a resident of a bordering state. The district will not receive any state aid for membership or attendance for this student and will not receive any state funded weights. This district may receive Federal funding where applicable for the services they provide to the students.
CHSP	Charter Sponsor. This student is being reported to *The Wave* by the school district that is the sponsor district for this student. The purpose of using this Basis of Admission is for tracking purposes only by the sponsoring district. The student is also being reported by the charter directly using a different basis of admission code. Note: This code will result in no conflict of ownership, but students reported with this code will not be counted on any report for funding or other state or federal reporting. The actual charter school should not use this code. Any student enrollment with this code will not be used for any report.
COOP	Co-op Student. (This student is NOT a virtual student as defined by law) Any student enrollment with this code will not be used for any report.
COOPVOFF	Co-op student who is attending a virtual online school OFF campus (This student IS a virtual student as defined by law) Any student enrollment with this code will not be used for any report.
COOPVON	Co-op student who is attending a virtual online school ON campus (This student IS a virtual student as defined by law) Any student enrollment with this code will not be used for any report.
ET01	Emergency Transfer, Destruction or partial destruction of a school building. (This student is NOT a virtual student as defined by law)
ET02	Emergency Transfer, Inability to offer the subject a pupil desires to pursue, if the pupil becomes a legal resident of a school district after February 1 of the school year immediately prior to the school year for which the pupil is seeking the transfer. (This student is NOT a virtual student as defined by law)
ET03	Emergency Transfer, Catastrophic medical problem of a student, meaning an acute or chronic serious illness, disease, disorder or injury which has a permanently detrimental effect on the body's system or renders the risk unusually hazardous. (This student is NOT a virtual student as defined by law)
ET04	Emergency Transfer, Total Failure of Transportation Facilities. (This student is NOT a virtual student as defined by law)
ET05	Emergency Transfer, Concurrence of both the sending and receiving school district. (This student is NOT a virtual student as defined by law)
ET06	Emergency Transfer, Unavailability of a specialized deaf education program for a student who is deaf or hearing impaired. (This student is NOT a virtual student as defined by law)

OSDE Code	OSDE Description
ET07	Emergency Transfer, Unavailability of remote on-site or Internet-based instruction by course title in the district of residence for a student identified as in need of drop-out recovery or alternative education services, provided such student was enrolled at any time in a public school in this state during the previous three (3) years [70 O.S. § 8-104]. (This student is NOT a virtual student as defined by law)
ET08	Emergency Transfer, when a student has been the victim of harassment, intimidation and bullying as defined in Title 70 O.S. § 24-100.3, upon verification by the Receiving District that the student has been the victim of harassment, intimidation or bullying, and that the Sending District was notified of the incident(s) prior to the filing of the application for transfer. (This student is NOT a virtual student as defined by law)
FOY	Finishing Out the Year. This student is no longer a resident of this school district, but was at one point a resident during this school year. This student is NOT on an Open or Emergency transfer. The student is finishing out the school year as authorized by 70 O.S. § 18-111 and Oklahoma Administrative Code 210:10-1-17The student is finishing out this school year as allowed by 70 OS 18-111 and written in the Accreditation of Oklahoma Schools 210:10-1-17 Student Residency.
FRGN	A foreign exchange student that is temporarily being educated in the United States and has plans to return to his/her home country.
IEPSA	IEP Service Agreement. Student who is on an IEP and is NOT the resident of this district, but there is instead an agreement to provide service in place between this district and the resident district of this student. Note: This would NOT be considered an Emergency Transfer. Any student enrollment with this code will not be used for any report.
IEPSAVOFF	IEP Service Agreement Virtual OFF campus. Student who is on an IEP and is NOT the resident of this district, but there is instead an agreement to provide service in place between this district and the resident district of this student and the student is attending a virtual online school OFF campus. Note: This would NOT be considered an Emergency Transfer. (This student IS a virtual student as defined by law) Any student enrollment with this code will not be used for any report.
IEPSAVON	IEP Service Agreement Virtual ON campus. Student who is on an IEP and is NOT the resident of this district, but there is instead an agreement to provide service in place between this district and the resident district of this student and the student is attending a virtual online school ON campus. Note: This would NOT be considered an Emergency Transfer. (This student IS a virtual student as defined by law) Any student enrollment with this code will not be used for any report.
LTSS	A student that is on a Long Term Suspension, but the district is still providing services. A long term suspension is defined as more than 10 days suspended.
NR	Non-Resident. The student is a Non-Resident and no other Basis of Admission code applies. Any student enrollment with this code will not be used for any report.
NRISP	A Non-Resident Student who is being served by a district of which the student is NOT a resident on an Individualized Service Plan (ISP). The district DOES NOT receive state aid membership, transportation, or attendance funding for this student (e.g. A student receiving speech services, who is a resident of another public school district, but attends a private school in this school district.)
OHP1	Out-of-home placement 1. The student is a resident by virtue of placement or address. Out-of-home placement for students who are not residents of the school district in which they are receiving educational services (1.5 Grade Weight)
OHP2	Out-of-home placement 2. The student is a resident by virtue of placement or address. Out-of-home placement in a ten (10) bed Juvenile Detention Facility (1.8 Grade Weight)

2.X Wave Requirements

OSDE Code	OSDE Description
OHP3	Out-of-home placement 3. The student is a resident by virtue of placement or address. Out-of-home placement in an eight (8) bed Juvenile Detention Facility (2.3 Grade Weight)
OHP4	Out-of-home placement 4. The student is a resident by virtue of placement or address. Out-of-home placement in a six (6) bed Juvenile Detention Facility (3.0 Grade Weight)
OT	Transfer - Open transfer. (This student is NOT a virtual student as defined by law)
OTH	Other. None of the other categories above apply for the reason why this student is attending or is being tracked with an enrollment in the local student information system. Note: This code will result in no conflict of ownership, but students reported with this code will not be counted on any report for funding or other state or federal reporting.

PK3	This code will be utilized for all students who are age 3 and are enrolled in a general education program and are not eligible under IDEA.
	
	AND
	
	Additionally, this code will be utilized as a **temporary** code for determining IDEA eligibility for students that are under the age of 5 when:
	    A. a general education program is not available
	    B. a LEA would not typically enroll the student using standard procedures.
	
	If the student is determined to be eligible for services, the basis of admission code must be changed to R or another appropriate code. Any student enrollment with this code will not be used for any report.

Pre-ISP	This code will be utilized as a **temporary** code while determining IDEA eligibility for a student who attends a private school in your district. **If the student is determined to be eligible for services, the basis of admission code must be changed to RISP or NRISP.** Any student enrollment with this code will not be used for any report.
R	Resident – legal. (This student is NOT a virtual student as defined by law)
RBD	This student attends the School For the Deaf or School for the Blind. This student boards at the School for the Deaf and School for the Blind during the week.
RBDTD	This student attends the School for the Deaf or School for the Blind. This student is transported daily to and from the School for the Deaf or School for the Blind. Only transportation and special education weights will be counted for this student.
RISP	Resident Student who is being served by the district on an Individualized Service Plan (ISP). The district DOES NOT receive state aid membership, transportation, or attendance funding for this student. (E.g. A student receiving speech services, but attends a private school.)
ROP	Resident other placement is a resident student who is placed in a state juvenile or full-time residential facility within their resident district. For students who not residents of that district, but are placed in a state juvenile or full-time residential facility, the appropriate OHP basis of admission code should be used.

2.X Wave Requirements

OSDE Code	OSDE Description
RVOFF	Resident student who is attending a virtual online school OFF campus (This student IS a virtual student as defined by law). This should be used by Virtual schools, not brick-and-mortar sites.
RVON	Resident student who is attending a virtual online school ON campus (This student IS a virtual student as defined by law)
STSS	A student that is on a short term (less than or equal to ten days) of suspension, but the district is still providing services.
TO	Transportation Only. This student is only tracked because the district will receive transportation only funding for this student. The student is not educated by this district, but they are transported by this district. This student would not appear on any report for this district with the exception of the First Quarter and Annual Statistical Report for the purpose of reporting Transportation only.
TU	Tuition student – The student is NOT a resident and is NOT on an Open or Emergency Transfer. The student is paying tuition to attend school here. This is NOT the code that would be used when a contract or "bill back" has been made with another district to provide services. (This student is NOT a virtual student as defined by law)
TUVOFF	Tuition student who is attending a virtual online school OFF campus (This student IS a virtual student as defined by law)
TUVON	Tuition student who is attending a virtual online school ON campus (This student IS a virtual student as defined by law)

7.2.1 Basis of Admission (EntryType Code/OtherCode List) Reporting Use

The following table provides an indication of how the state will interpret the Basis of Admission code being supplied on an enrollment for a student for the purposes of state reporting. The Basis of Admission code describes the involvement of the school reporting the code and indicates to the state system how to use the data supplied. In some instances, more than one district may send student data to the state on the same student. Some examples would include a student in a cooperative. The resident district will have the student enrolled with a Basis of Admission code of "R" while the cooperative will be tracking courses and period attendance for the student in their own system for the purpose of reporting it back to the resident district. The cooperative district could supply the student to *The Wave* as well with a Basis of Admission code of COOP. Another example would be two districts that have an IEP Service Agreement in place. The resident district would supply the student with a Basis of Admission code of "R" while the district serving the student may also send data to *The Wave* as well. The district serving the student on the IEP Service Agreement would supply a Basis of Admission code of IEPSA.

The table below will contain either a Yes or No indicating how *The Wave* will use the enrollment record for reporting purposes. If further explanation is needed beyond Yes or No, the column will contain the text "Explanation" followed by a number that will correspond to the explanation below the table

Explanation 1 (ACEPT – Membership/Attendance)
The Basis of Admission Code ACEPT indicates an ACE part time student denied a standard diploma by the school district that re-enrolls in that same school district on a part-time basis to meet the unfulfilled ACE graduation requirements. The district is NOT paid state aid for membership and attendance through the First Quarter Statistical Report (FQSR) or the Annual Statistical Report (ASR) for this student, but can receive funding for this student by completing the ACE Part Time Report indicating the total number of hours the student is enrolled and the length of time.

Explanation 2 (BORDER – October 1 Accreditation Count)
The Basis of Admission Code BORDER indicates a student who is a resident of a bordering state, but who attends school full time in a public district in the state of Oklahoma. This student cannot be funded with any state funding. This student WILL appear on the October 1 Consolidated report for the purpose of the overall enrollment count and for reporting in the following categories: EL (English Learner) and Immigrant. This student will NOT be reported for Gifted Talented or Bilingual Counts. Federal funding and reporting will apply where applicable for this student. The School District will NOT receive state aid weights for these students

Explanation 3 (BORDER – October 1 Special Education Child Count)
The Basis of Admission Code BORDER indicates a student who is a resident of a bordering state, but who attends school full time in a public district in the state of Oklahoma. This student cannot be funded with any state funding. This student WILL be reported on the Special Education Child Count report if the student is on an IEP and Oklahoma services the IEP. The School District will NOT receive state aid weights for this student.

Explanation 4 (LTTS & STSS – State Assessments)

The Basis of Admission Code LTSS or STSS indicates a student that has been suspended for a given amount of time but the districts are still providing educational services. It is at the districts discretion on whether they include this student for state testing. Some certain students on an Individualized Education Plan (IEP) may have a statement in their IEP to require state testing. These students will NOT be included in the pre-code of testing labels and should be added manually once data is transferred to the state assessment vendor's portal.

Explanation 5 (FRGN)

A student that is on being educated in an Oklahoma school district that is in the country on a J-1 Visa and has no tuition restrictions as long as the school district/site is certified through the Student and Exchange Visitor Information System (SEVIS) to count the student for attendance and membership. According to, *70 O.S. § 1-114.1* **Right to Accept or Reject Exchange Students or Sponsoring Organizations** *Unless otherwise prohibited by federal law, school districts may: Only have to accept exchange students on J-1 visas, issued pursuant to paragraph (a) (15) (J) of Section 1101 of Title 8 of the United States Code, which hold the sponsoring organization responsible*. If a J-1 Visa student is included in membership and attendance, the student is eligible to count in transportation if legally transported and lives 1.5 miles or further from the school.

Explanation 6 (ROP- Transportation)

ROP students can be used in transportation counts only if the district is providing transportation between the school and facility.

7.11 Entry and Exit Code Descriptions

Below are the Entry and Exit Codes *The Wave* will receive from your district Student Information System (SIS) whenever a student enters or exits your district and the district end user places the appropriate code. The codes available in your SIS may not be exactly the same as the SIF Code listed below, but the descriptions should be similar. Your SIS Vendor will translate your codes into the SIF Codes below when the data is transmitted to *The Wave*.

Be certain your SIS Vendor has at least 20 entry codes and 33 exit codes. This will ensure accurate entry and exit information is provided to *The Wave*. The shaded areas below represent some of the more common codes districts will utilize. It is important to read through the codes and select the most appropriate reason for the student entry or exit.

Entry Codes

SIF Code	SIF Description - Entry	OSDE Description - Entry
1821	Transfer from a public school in the same local education agency	Entry - Student is changing sites in the same district. This can occur during the school year. This code would also be utilized at the beginning of the school year if a student is changing sites (e.g. Student is changing from Junior High to High School).
1822	Transfer from a public school in a different local education agency in the same state	Entry - Student is entering the district, coming from another public district in Oklahoma.
1823	Transfer from a public school in a different state	Entry - Student is entering the district, coming from another public school in a different state.
1824	Transfer from a private, non-religiously- affiliated school in the same local education agency	Entry - Student is entering the district, coming from a non- religious private school located inside the public district's boundaries.
1825	Transfer from a private, non-religiously- affiliated school in a different local education agency in the same state	Entry - Student is entering the district, coming from a non- religious private school located outside of the public district's boundaries in the state of Oklahoma.
1826	Transfer from a private, non-religiously- affiliated school in a different state	Entry - Student is entering the district, coming from a non- religious private school located in a different state.
1827	Transfer from a private, religiously- affiliated school in the same local education agency	Entry - Student is entering the district, coming from a religiously- affiliated private school located inside the public district's boundaries.
1828	Transfer from a private, religiously- affiliated school in a different local education agency in the same state	Entry - Student is entering the district, coming from a religiously- affiliated private school located outside of the public district's boundaries in the state of Oklahoma.

SIF Code	SIF Description - Entry	OSDE Description - Entry
1829	Transfer from a private, religiously- affiliated school in a different state	Entry - Student is entering the district, coming from a religiously- affiliated private school located in a different state.
1830	Transfer from a school outside of the country	Entry - Student is entering the district, coming from a school outside of this country, but has been educated in the United States previously (Note: If the student has not received some form of education in the United States prior to this entry, the appropriate code would be either 1839 or 1840).
1831	Transfer from an institution	Entry - Student is entering the district having formerly been educated in an institution other than the following: Charter school, private school, home school, public school.
1832	Transfer from a charter school	Entry - Student is entering the district, coming from a charter school (Note: If the charter school is sponsored by the same district, utilize this code rather than 1821).
1833	Transfer from home schooling	Entry - Student is entering the district, coming from home schooling.
1835	Re-entry from the same school with no interruption of schooling	Entry - Student is re-entering the same district (Note: This is the code for rollover from one year to the next. This is also the code used if a student changes grade levels in the same district but does not change sites. This is also the default code to be used anytime a new entry date is created and none of the other entry reasons are applicable if the student is remaining in the same district and is not changing sites.)
1836	Re-entry after a voluntary withdrawal	Entry - Student is re-enrolled after exiting, but did not attend a different district, private school, charter school, or home schooling. For this entry code to be applicable, an interruption of schooling has to have taken place. Example: The parent/guardian indicates to the district they are leaving. The district drops the student from membership. Later the student returns, but was not schooled anywhere else. This code would be indicated on the enrollment.
1837	Re-entry after an involuntary withdrawal	Entry - Student is re-enrolled after a suspension from the same district. The previous exit code for this entry should be 1925.
1838	Original entry into a United States school	Entry - Student is being educated for the first time in the United States. Prior to this entry, the student has had no other form of education (charter school, private school, home school, institution) anywhere in the world. This would primarily be placed on Pre-Kindergarten or Kindergarten students.

SIF Code	SIF Description - Entry	OSDE Description - Entry
1839	Original entry into a United States school from a foreign country with no interruption in schooling	Entry - Student is being educated for the first time in the United States. Prior to this entry, the student has had no other form of education (charter school, private school, home school, institution) in the United States, but has been educated in another country. There has been no interruption of schooling for this student for any reason. This code is used for newly arrived Foreign Exchange Students. If the student is entering the country, but has been schooled in the US before, they would use 1830.
1840	Original entry into a United States school from a foreign country with an interruption in schooling	Entry - Student is being educated for the first time in the United States. Prior to this entry, the student has had no other form of education (charter school, private school, home school, institution) in the United States, but has been educated in another country. There has been an interruption of schooling for this student prior to this entry.
9999	Other	**OSDE does not ever expect to receive code 9999 – Other. This code is reserved for emergency legislative updates or mid-year policy changes and is not valid for any other reason. If you cannot find a code that fits a scenario, please call OSDE.**

Exit Codes

SIF Code	SIF Description - Exit	OSDE Description - Exit
1907	Student is in a different public school in the same local education agency	Exit - Student is changing sites in the same district (Note: If the student is changing sites from a regular site to a charter school site in the same district, utilize code 3508).
1908	Transferred to a public school in a different local education agency in the same state	Exit - Student is exiting the district, going to another public school district in Oklahoma.
1909	Transferred to a public school in a different state	Exit - Student is exiting the district, going to another public school district in a different state.
1910	Transferred to a private, non-religiously-affiliated school in the same local education agency	Exit - Student is exiting the district, going to a non-religious private school located inside the public school district boundaries.
1911	Transferred to a private, non-religiously-affiliated school in a different local education agency in the same state	Exit - Student is exiting the district, going to a non-religious private school located outside of the public school district's boundaries in the state of Oklahoma.
1912	Transferred to a private, non-religiously-affiliated school in a different state	Exit - Student is exiting the district, going to a non-religious private school located in a different state.
1913	Transferred to a private, religiously- affiliated school in the same local education agency	Exit - Student is exiting the district, going to a religiously- affiliated private school located inside the public school district boundaries.
1914	Transferred to a private, religiously- affiliated school in a different local education agency in the same state	Exit - Student is exiting the district, going to a religiously- affiliated private school located outside of the public school district's boundaries in the state of Oklahoma.
1915	Transferred to a private, religiously- affiliated school in a different state	Exit - Student is exiting the district, going to a religiously- affiliated private school located in a different state.
1916	Transferred to a school outside of the country	Exit - Student is exiting the district, going to a school in a different country. This exit code is used for Foreign Exchange students who are returning to their home country.
1917	Transferred to an institution	Exit - Student is exiting the district, going to an institution. (Note: This code is used if the student is going to an institution and will no longer be counted on the membership of any public school district. If the student will still be counted on the membership of a public school district, a different code will be utilized). In addition, this code should only be utilized if the institution the student is transferring to CANNOT offer a state certified diploma. If a diploma can be achieved by the student while attending this institution, a different exit code should be used.

SIF Code	SIF Description - Exit	OSDE Description - Exit
1918	Transferred to home schooling	Exit - Student is exiting the district, going to be home schooled.
1919	Transferred to a charter school	Exit - Student is exiting the district, going to be attending a charter school in a different district. (Note: If the student will be attending a charter school in the same district, utilize code 3508.)
1921	Graduated with regular, advanced, International Baccalaureate, or other type of diploma	Exit - Student is exiting the district. The student has graduated or received a diploma and is no longer going to be counted on membership or attendance. An Exit Type Other Code is expected with this code to indicate the number of years it took the student to graduate. Oklahoma currently offers a regular diploma only.
1922	Completed school with other credentials	Exit - The student has completed high school, but NOT by obtaining a diploma.
1923	Died or is permanently incapacitated	Exit - The student has died or is permanently incapacitated. Note: There should be an additional Exit Other Code associated with this determining whether the reason is "Died" or is "Permanently Incapacitated."
1924	Withdrawn due to illness	Exit - Student is exiting the district. The student has withdrawn due to illness and is no longer being counted on membership or attendance.
1925	Expelled or involuntarily withdrawn	Exit - The student has been suspended.
1926	Reached maximum age for services	Exit - Student is exiting the district. The student has reached the maximum age for services.
1927	Discontinued schooling	Exit - Student is exiting the district. The student is a drop out as defined by Oklahoma State Law.
1928	Completed grade 12, but did not meet all graduation requirements	Exit - Student is exiting the district. The student has left school having completed grade 12 but does not meet all of the requirements necessary to receive a diploma and graduate.
1930	Enrolled in a postsecondary early admission program, eligible to return	Exit - Student is exiting the district. The student is enrolled in a postsecondary early admission program, but is not receiving services from the district.
1931	Not enrolled, unknown status	Exit - Student is exiting the district. The student is not presently enrolled and the reason for the exit is not yet known. This code will commonly be used only for a short period of time. A student may have exited and the district is not yet aware of the reason. A request for records may not have been received. After the district is made aware of the reason for the exit, the exit code must be changed to reflect an accurate description of the reason for exit. Note: This is not a valid code for the end of the school year. **A student with this code will be flagged with a warning at the end of school requiring this exit code to be modified**

SIF Code	SIF Description - Exit	OSDE Description - Exit
3499	Student is in the same local education agency and receiving education services, but is not assigned to a particular school	Exit - The student is receiving education services from the district, but not from a specific accredited site. **Note: This is not presently valid in Oklahoma.**
3500	Enrolled in an adult education or training program	Exit - Student is exiting the district. The student has left the district and is now enrolled in an adult education or training program (Student is working toward a state approved GED program.)
3501	Completed a state-recognized vocational education program	Exit - The student is exiting the district by completing a state- recognized vocational education program.
3502	Not enrolled, eligible to return	Exit - The student is exiting the district, but is eligible to return. This code may be used temporarily but does not reflect accurately the movement of the student. A student with this code will be flagged with a warning at the end of school requiring this exit code to be modified to reflect an accurate description of the reason for the exit.
3503	Enrolled in a foreign exchange program, eligible to return	Exit - The student is exiting the district to participate in a foreign exchange program. Note: These are American students exiting the country for a foreign exchange program.
3504	Withdrawn from school, under the age for compulsory attendance; eligible to return	Exit - The student is exiting the district and is under the age for compulsory attendance (the student is age 5 or younger).
3505	Exited	Exit - This code is a general code to be used when modifying a student's record in the district. **Examples**: 1. The student is changing grade levels in the same site. This requires an exit and a new entry at the new grade level. The exit code will be 3505. The student was a Full Time Kindergarten student and is now a Part Time Kindergarten student in the same site. This requires an exit and a new entry. The exit code will be 3505.
3508	Student is in a charter school managed by the same local education agency	Exit - The student is exiting one site and is going to attend a charter school in the same district.
3509	Completed with a state-recognized equivalency certificate	Exit - The student is exiting the district having received a state- recognized equivalency certificate (Example. G.E.D.)

Note: Source of SIF codes is SIF 2.0r1 Specification [6.14.10]. Return to SectionInfo

SIF Code	SIF Description	OSDE Description
0603	Technology-based instruction in the classroom	The majority of the instruction time involves the student's use of electronic devices such as computers, smart boards or electronic tablets.
0604	Correspondence instruction	The student is being instructed via email, typed or hand- written correspondence. It is possible that face-to-face time or online study will take place, but the majority of the instruction or education is done via email, typed or hand- written work and instruction.
0605	Face-to-Face instruction	The student is being taught by a teacher located in the classroom with the student. The teacher is NOT using technology-based instruction the majority of class time to educate the students.
0608	Virtual/On-line Distance learning	Both of the following definitions qualify as Distance Learning: (1) students who receive Web-based instruction, which is the use of the World Wide Web as the primary medium of instruction, with a computer serving as the primary tool of instruction, may be synchronous (real time) or asynchronous (2) Two-way interactive video means synchronous interaction between student (s) and instructor by means of an electronic medium that provides for both audio (sound) and video (sight) signal.
0609	Center-based instruction	The majority of the classroom time is spent in directed study at various "centers" located in or out of the classroom. The mix between Independent study and Face-to-Face instruction is about 50/50. Students are directed to study various topics on their own or provided with instructions for accomplishing different tasks. If more than 50% of the time is spent in the student hands on with technology, the code of 0603 (Technology-based instruction in the classroom will be used instead of this code).
0610	Independent study	The education the student receives for this class is primarily the result of work conducted by the student alone. There may be a teacher directing the study, but the instruction received the majority of the time is done by the student instructing themselves, usually through reading and research.
0611	Internship	The education the student receives for this class is for the purpose of learning the trade or skill the instructor possesses. The education can be a mix of research and observation.
9999	Other	None of the above definitions apply

7.19.1 College and Career Ready Testing

The following Code table provides a way to standardize the Assessment/Name, the Assessment/SubtestCategory and the Assessment/TestScoreType for many of the common tests student will take. Some of these tests contain subtests and have an overall composite score; others may only contain a single type of test. If the Assessment/SubtestCategory is blank, the test either has a composite score which will be sent with no SubtestCategory or it's an all-inclusive test that does not require a subtest (e.g. ACT will have six rows; one for the overall test and five outlining the subtests). If certain types of tests cover a large group of subjects, the Assessment/Name will be the type of test and the SubtestCategory will describe the actual subtest matter (e.g. CLEP which does not contain a composite score of all CLEP tests, but does have a variety of subjects associated with it).

The table below describes how the Assessment/Name, the Assessment/SubtestCategory (if applicable) and the Assessment/TestScoreType should be supplied to maintain data integrity across the state in reporting this information. Other tests not listed here can be reported as determined by the school district and your local student information system vendor.

7.19.2 OSDE Approved Out-of-State Assessments

OSDE approved out-of-state assessments will be supplied to *The Wave* through the StudentAcademicRecord object (section 6.14) in the AssessmentPerformanceHistory section.

The code table below shows the appropriate way to report the way in which the test was fulfilled. It provides a description of the method and supplies the Assessment/Name, the Assessment/SubtestCategory and the Assessment/TestScoreType should be when reporting that particular fulfillment method.

Alternate Method	Description	Assessment/ Name	Assessment/SubtestCategory	Assessment/TestScore Type	Assessment/ TestScore
Out of State Test	The student has achieved a level of proficiency on an approved test from another state. Refer to the OSDE for approved out of state tests. Note: When supplying this code, another instance of the AssessmentPerformanceHistory should contain the test results used to fulfill the Out of State Test. Refer to section 7.19.1 for how to supply a test not standardized in this document. The Assessment Date should be the same as the date listed here for this result.		OOS	0500	Test Score = Pass
Other	Another method not described. The user will provide the SubtestCategory field and will select one of the codes describing the ACE EOI in the Name field.		(user input)	(user input)	(user input)

7.20 Assessment TestScoreType

Note: Source of SIF codes is SIF 2.0r1 Specification [6.15.3] Return to StudentAcademicRecord

SIF Code	SIF Name	SIF/NCES Description
0144	Letter grade/mark	A letter assigned to a corresponding qualitative value. (e.g., A=Excellent, B=Above Average, C=Average, D=Below Average, and F=Failing). Corresponding numerical ranges may vary for each letter grade.
0490	Age score	A derived score used to express a student's test performance in terms of the developmental-level characteristics of the average individual of a corresponding chronological age. This is used more frequently with intelligence and achievement tests for children of school age or below. Scores can be applied to determine a student's mental age (e.g., the average chronological age of students achieving a specific raw score) or education age (e.g., test performance according to the norm age on any given level).
0491	C-scaled scores	A score expressed in normalized standard score of eleven units.
0492	College Board examination scores	A score developed for use with the College Entrance Examination Board tests and those tests by the Educational Testing Service as the basis for reporting scores on many of its other special program tests. It is similar to other linear standard scores but has a mean of 500 and a standard deviation of 100.
0493	Grade equivalent or grade-level indicator	A derived score expressed as the grade placement of those students for whom a given score was average.
0494	ACT score	A score developed for use with the Iowa Tests of Educational Development, but which is now also used with the American College Testing Program and other tests. This score has a mean of 15 and a standard deviation of five, and scores are based on nationally-representative sample of tenth-and eleventh-grade students.
0497	Normal curve equivalent	A score expressed in a normalized standard score with a mean of 50 and a standard deviation of 21.06. Scores range from 1 through 99 and an equal unit is retained in the scale.
0498	Normalized standard score	A score that resembles standard scores (z-scores) but which is computed like percentile scores.
0499	Number score	A number assigned corresponding to the total assessed quality of student response (e.g., the number of answers a student provides that are correct) or the level of a score using a holistic scoring guide usually used in writing assessments.
0500	Pass-fail	A score used to indicate whether a student passes or fails the assessment.
0502	Percentile rank	A derived score presented in terms of the percentage of students I a specified group who fall below a given score point.
0503	Proficiency level	A standardized qualitative expression use to indicate a student's functional mastery of a specific skill (e.g., novice, apprentice, or master).
0504	Ranking	An expression used to indicate the position of a student relative to other students taking the same assessment (e.g., highest, second next highest, third, and so on). Since the total number of cases limits the rank, the two numbers are often reported together.

SIF Code	SIF Name	SIF/NCES Description
0505	Ratio IQ's	A score based on the ration of mental age to chronological age. The ratio or deviation IQ has a common standard deviation for all ages covered by the test.
0506	Standard age score	A score used in connection with certain Riverside Press tests where the standard age score has mean of 1000 and a standard deviation of 16.
0508	Stanine score	A score expressed in normalized standard of nine units (i.e., 1-9). In a normal distribution, stanines have a mean of 5.0 and a standard deviation of 1.96.
0509	Sten score	A score expressed in a normalized five units on either side of the mean. In a normal distribution, sten scores have a mean of 5.5 and a standard deviation of 2.0.
0510	T-score	A standard score expressed with a mean of 50 and a standard deviation of 10.
0511	Z-score	A basic standard score expressed with mean of 0 and a standard deviation of 1.0.
0512	Achievement/proficiency level	A score that indicates the student's proficiency in a particular subject matter. Performance is usually described in achievement levels (e.g., a range from "basic" to "advanced".
0513	Mastery level	A score that indicates a student's mastery of a particular subject matter. Performance is usually categorized as "Mastered" or "Not Mastered."
3473	Graduation score	Graduation score
3474	Growth/value-added/indexing	Growth/value-added/indexing
3475	International Baccalaureate score	International Baccalaureate score

7.28 Financial Literacy Reporting

The Financial Literacy information for a student will be reported using the StudentAcademicRecord object through the AdditionalGraduationRequirementPerformanceHistory elements.

7.28.1 Reporting All Fourteen Areas Separately

Below is the standard for reporting the "Name" and "Method" of the fourteen financial literacy elements when reporting them separately.

Personal Financial Literacy Area of Instruction	Requirement/Name	Requirement/Method (Select One)
Earning an Income	PFL01	There are three ways to report the method individually. Supplying the State Course Code is the preferred standard methodology.
State and Federal Income Taxes	PFL02	
Banking and Financial Services	PFL03	1. **State Course Code:** Provide the four-digit state course code in which this area of personal financial literacy was taught.
Balancing a Checkbook	PFL04	2. **Course Name – Not Online:** If a state course code cannot be
Savings and Investing	PFL05	determined for the way in which the student fulfilled this particular
Planning for Retirement	PFL06	level of financial literacy, supply the name of the course the student
Borrowing Money	PFL07	took to fulfill the requirement with the prefix "Course-" Example:
Interest, Credit Cards, and Online Commerce	PFL08	Course-Math Skills
Identity Fraud and Theft	PFL09	3. **CourseName – Online:** If a state course code cannot be determined and if the course was taken online, supply the name of the course the
Renting/Buying a Home	PFL10	student took to fulfill the requirement with the
Understanding Insurance	PFL11	prefix "Online-" Example: Online-Math Skills
Impact & Consequences of Gambling	PFL12	
Bankruptcy	PFL13	
Charitable Giving	PFL14	

7.28.2 Reporting a Single Financial Literacy Course

Below is the standard when reporting the student has met all fourteen requirements of financial literacy by taking a single Financial Literacy course.

Personal Financial Literacy	Requirement/Name	Requirement/Method (Select One)
Personal Financial Literacy	PFL00	1451

7.29 ContactInfo PositionTitle

Note: This element is the ContactInfo/PositionTitle and is supplied in the LEAInfo/LEAContactList and the SchoolInfo/SchoolContactList. This Codeset is NOT a list of the only PositionTitle's that may be sent. This list seeks to represent the standard format for certain position titles. As such, the user should be allowed to enter other Position Titles for other contacts as they choose. When a directory is created using this contact information, this list below will represent the only acceptable PositionTitle codes the OSDE will use to represent the key contacts listed below. Example: PositionTitle = Superintendent. This title will represent the District Superintendent for the District. A school district providing a PositionTitle with the text "District Superintendent" and NOT providing a PositionTitle of "Superintendent" will NOT have a superintendent listed in their directory information and will receive a warning that the PositionTitle of "Superintendent" was not provided.

Return to LEAInfo, SchoolInfo

Object	Position Title	OSDE Description
LEAInfo	Superintendent	The District Superintendent. Note: Only one Superintendent Contact should be supplied.
LEAInfo	Assistant Superintendent	The Assistant Superintendent. Note: More than one of these may be supplied.
LEAInfo	Interim Superintendent	The Interim Superintendent. Note: Only one Interim Superintendent Contact should be supplied and only if the Superintendent and Acting Superintendent is NOT supplied.
LEAInfo	Acting Superintendent	The Acting Superintendent. Note: Only one Acting Superintendent Contact should be supplied and only if the Superintendent and Interim Superintendent is NOT supplied.
LEAInfo	Board President	The President of the School Board. Note: Only one Board President Contact should be supplied.
LEAInfo	Acting Board President	The Acting President of the School Board. Note: Only one Acting Board President Contact should be supplied and only if the Board President and Interim Board President is NOT supplied.
LEAInfo	Interim Board President	The Interim President of the School Board. Note: Only one Interim Board President Contact should be supplied and only if the Board President and Acting Board President is NOT supplied.
SchoolInfo	Principal	The Principal of the School. Note: Only one Principal Contact should be supplied per SchoolInfo object.
SchoolInfo	Acting Principal	The Acting Principal of the School. Note: Only one Acting Principal Contact should be supplied and only if the Principal and Interim Principal is NOT supplied.
SchoolInfo	Interim Principal	The Interim Principal of the School. Note only one Interim Principal Contact should be supplied and only if the Principal and Acting Principal is NOT supplied.
SchoolInfo	Assistant Principal	The Assistant Principal. Note: More than one of these may be supplied.

7.30 Lunch Eligibility Determination
Note: This is an Oklahoma SIF_ExtendedElement. Use State Department of Education Codes.
This element answers the question, "How was this student identified as Free or Reduced?"

OSDE Code	OSDE Description
01	Identified through Direct Certification - SNAP Only
02	Identified as foster child (not subject to verification) – Foster Child who was directly certified.
03	Identified as foster child (categorically eligible) – Foster Child who was NOT directly certified.
04	Identified through homeless/migrant/runaway liaison list – Directly Certified
05	Identified through income-eligible Head Start
06	Identified through Even Start
07	Identified as residential students in RCCIs
08	Identified as non-applicants approved by local officials
09	Identified based on SNAP/TANF/FDPIR case number submitted on an application (categorically eligible)
10	Identified based on income/household size information submitted on an application (Do not include foster children).
12	Identified through Direct Certification – TANF Only
13	Identified through Direct Certification – FDPIR Only
14	Identified as Homeless, Migrant, Runaway based on Application (not directly certified)
15	Identified as Directly Certified Other (Do not include these categories: SNAP, TANF, FDPIR, Foster, Homeless, Migrant, Runaway, Head Start, Even Start)
OT	Identified in some other way other than listed above. **OSDE does not ever expect to receive code OT for Lunch Eligibility Determination. This code is reserved for emergency legislative updates or mid-year policy changes and is not valid for any other reason.**
NA	The student is NOT eligible for Free or Reduced lunch

7.31 Testing in the Lower Grades

Students in PK through 8th grade will take assessments common in the state and nationally. The results of these assessments can be provided through the AssessmentPerformanceHistory object and will allow the State Department of Education and the school district to see a holistic view of the progress and needs of a student. This will especially help to serve the highly mobile students in the state and will allow school districts to see formative and criterion based assessment results on students the day they enter their school district through *The Wave*.

The following Code table provides a way to standardize the Assessment/Name, the Assessment/SubtestCategory and the Assessment/TestScoreType for many of the common tests student will take. Some of these tests contain subtests and have an overall composite score; others may only contain a single type of test. If the Assessment/SubtestCategory is blank, the test either has a composite score which will be sent with no SubtestCategory or it's an all-inclusive test that does not require a subtest. If certain types of tests cover a large group of subjects, the Assessment/Name will be the type of test and the SubtestCategory will describe the actual subtest matter.

The table below describes how the Assessment/Name, the Assessment/SubtestCategory (if applicable) and the Assessment/TestScoreType should be supplied to maintain data integrity across the state in reporting this information. Other tests not listed here can be reported as determined by the school district and your local student information system vendor.

7.31.1 Reporting Oklahoma School Testing Program (OSTP) Scores

The standard method for reporting Oklahoma School Testing Program (OSTP). Scores is listed below. *The Wave* contains this information already, but where a match could not be made to a student by using their name and date of birth information, this provides another means for reporting that information to *The Wave*. If a school district chooses to store OSTP test score information in their Student Information System and make it available to *The Wave* through the AssessmentPerformanceHistory object, this is the standard format for sending that information up to *The Wave*.

Assessment/Name – This should always be the code "OSTP"

Assessment/SubtestCategory – This will be one of the following subjects listed below with the grade level of the student. Example: "READ3" would be the third grade reading assessment.

HIST
MATH
READ
SCIE

Assessment/TestScoreType and Assessment/TestScore – This will identify the type of test score being sent for the test in question along with the score.

1. Performance Level – sent as the Assessment/TestScore (codes of 1, 2, 3, or 4 which correspond to the proficiency levels described in section 7.18. When the Performance Level is sent, it will be sent with an Assessment/TestScoreType of 0512 (Achievement/Proficiency Level) – refer to section 7.20 for all of the Assessment/TestScoreType codes.

2. Scale Score – sent as the Assessment/TestScore. This will be the actual scale score achieved by the student on this particular OSTP. This will be sent with an Assessment/TestScoreType of 3479 (Scale Score) – refer to section 7.20 for all of the Assessment/TestScoreType codes.

7.32 Instructional Level

This code answers the question: "What is the general nature and difficulty of the instruction being provided?" If a class can be defined as more than one code (e.g. An Advanced Placement class set up specifically for English Learner students) a hierarchy of the choice to select is listed below. If the general nature and difficulty of the instruction is not listed below, either code selection will work.

1. College Level
2. Advanced Placement
3. Honors Level
4. International Baccalaureate

0568	Remedial	The content of this course is used primarily for remediation and is designed for that specific purpose.
0569	Special Education Course	The content of this course is used primarily for special education students and is designed for that specific purpose. If this course will have special education students in it, but the purpose of the course is not specifically for providing instruction at a level designed for special education students, this code will NOT be used.
0570	Basic	Not utilized by OSDE.
0571	General	The content of this course is designed specifically for the general population of students. This code can be used as the default for most classes the average student will take.
0572	Honors Level	This is an Honors Level course, but is NOT specifically an Advanced Placement or International Baccalaureate program. This would include a Pre-AP course.
0573	Gifted and talented level	The content of this course is used primarily for instructing Gifted and talented students and is designed for that purpose. If this course will have Gifted and Talented students in it, but the purpose of the course is not specifically for providing Gifted and Talented instruction, this code would NOT be used.
0574	International Baccalaureate program	This course is specifically part of an International Baccalaureate program. It should only be used with recognized IB course codes.
0575	Advanced placement	This course is an Advanced Placement course. It should only be used with recognized AP course codes.
0576	College level	This course is being taught at a college or university. **Note**: This code should NOT be used for Career Tech courses.

SIF Code	SIF Description	OSDE Description
0577	Untracked	**Do not use this code.**
0578	English Language Learner (ELL)	The content of this specific course is used primarily for instructing English Language Learner (EL) students and is designed specifically for that purpose. If this course will have English Learners in it, but the purpose of the course is not specifically for EL instruction, this code would NOT be used.
0579	Accepted as a high school equivalent	The course being tracked in the student information system was not taught by the high school specifically, but rather by a different school, educational institution, or by other means and is considered by the school district to be instruction equivalent to what would be found in a general high school course. This code could be used for Career Tech courses unless another code listed in this code list will apply.
9999	Other	None of the other codes apply to the general nature or instructional level of this course. (Note: This may be used if a course must be set up as a schedule filler such as "recess" or "lunch")

7.33 CalendarDateType Code

This code indicates the type of school day. A unique code is supplied with each individual day of a school's calendar year including weekends, holidays, non-school days, etc.

SIF Code	SIF Description	OSDE Description
INST	Instructional School Day	This is a day of instruction for students. This day DOES count toward membership and attendance and is included in Full Academic Year calculations.
MKUP	Instructional day that is scheduled solely to make up for emergency days or early dismissal days.	This is a day of instruction for students. This day DOES count toward membership and attendance and is included in Full Academic Year calculations.
0845	Teacher only day - Any planned, non-instructional, whole day(s) when students are not present, for example, in-service, workshops, planning days, parent conferences, etc. and including teacher only days that occur on weekends and those prior to the first day of class or after the last day of class for the school session.	If this code is received, the system will check the CalendarDateType OtherCode provided (see section 6.3 for more information). -If the CalendarDateType OtherCode = NA, this day DOES NOT count toward membership or attendance and is NOT included in Full Academic Year calculations. -If the CalendarDateType OtherCode = 01 (Professional Day), this day DOES NOT count toward membership or attendance and is NOT included in Full Academic Year calculations. -If the CalendarDateType OtherCode = 02 (Parent/Teacher Conference), this day DOES count toward membership and attendance and is included in Full Academic Year calculations.
0846	Holiday - The scheduled absence of both students and staff for any whole weekday within the school session, which is not due to emergency closure of the school/facility.	Holiday. This day DOES NOT count toward membership or attendance and is excluded from Full Academic Year calculations.
0848	Student late arrival/early dismissal - Any part-day of instruction (whether planned or unplanned/emergency) which occurs on a weekday during the school session, and can include the first and/or last days of class (if less than full days).	This is a day of instruction for students. This day DOES count toward membership and attendance and is included in Full Academic Year calculations.

SIF Code	SIF Description	OSDE Description
0849	Emergency day - Any whole weekday(s) on which the facility/school was closed due to emergency (e.g., tornado, snow, excessive illnesses). Emergency days may be any weekday(s) between, but not including, the last and first days of class for the school session.	This is NOT a day of instruction for students. This day DOES NOT count toward membership or attendance and is NOT included in Full Academic Year calculations.
3421	Strike	This day does NOT count toward membership or attendance and is excluded from Full Academic Year calculations.
9999	Other	The above codes do not apply. This day DOES NOT count toward membership or attendance and is NOT included in Full Academic Year calculations. **This code should only be utilized for weekends, which includes schools with 4 day weeks, or for dates outside of the first and last days of instruction.**

Appendix A: Current Data Validations

Error Number	Object	Category	Error Short Description	Validation Level	Friendly Error Description
900210002	AttendanceCodeInfo	Override	The CourseTitle or name of the course was not provided. Please provide a course name in your local student information system.	Normal	The AttendanceCodeInfo object is a reference that supplies information related to students being present or absent during a school day. Another object called the StudentDailyAttendance provides a date to *The Wave* and with it provides a link to the appropriate AttendanceCodeInfo allowing *The Wave* to know if that day counts as a day of attendance for the student or not. For this particular AttendanceCodeInfo object, your system has indicated this reference applies to daily attendance and that it applies to absences, but the Absence Value supplied does not equal 1.0 or 0.5. There are only two possible absence values in Oklahoma. The student can either be absent for half a day (0.5) or the student can be absent for the entire day (1.0). You can see the value sent by your local system by clicking the "View SIF XML" link and looking at the invalid AbsenceValue.
900710017	AttendanceCodeInfo	Override	AttendanceStatus does not align with AttendanceType.	Normal	The AttendanceStatus and AttendanceType do not align. The AttendanceType possibilities are 'Absent', 'Tardy', 'Early Departure', 'Partial', 'Present' and 'Other'. The AttendanceStatus possibilities are 'Excused', 'Unexcused', 'Unknown' or 'NA'. Your system supplied an AttendanceType of 'Present' and an AttendanceStatus of either 'Excused', 'Unexcused', or 'Unknown' which would not apply to 'Present'. This can be corrected where your attendance codes are set up in your local system.

900710027	AttendanceCodeInfo	Override	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.	Normal	The AttendanceCodeInfo object is a reference that supplies information related to students being present or absent during a school day. Another object called the StudentDailyAttendance provides a date to *The Wave* and with it provides a link to the appropriate AttendanceCodeInfo allowing *The Wave* to know if that day counts as a day of attendance for the student or not. For this particular AttendanceCodeInfo object, your system has indicated this reference applies to daily attendance and that it applies to absences, but it did not supply the Absence Value which informs *The Wave* as to whether or not this would be a full day (1.0) absence or a half day (0.5) absence. All AttendanceCodeInfo references related to daily attendance and absences have to have a value of either 1.0 or 0.5. In this instance, nothing was supplied.
900210003	CalendarDate	Override	CalendarDateType_Other_Code was not provided.	Normal	Your local system has calendars set up for each school. The days in the calendars are defined as Instructional Day, Holiday, etc. The CalendarDateType_OtherCode informs *The Wave* as to whether or not a particular day is a Professional Day, or a Parent/Teacher Conference Day or if neither of those are applicable to the day. By default, all CalendarDate objects received by *The Wave* which define each day in the calendar should have a CalendarDateType_OtherCode of "NA" (Not Applicable). You are seeing this warning message because your system has not supplied a CalendarDateType_OtherCode for this date. Work with your local student information system vendor to determine how to send this data to *The Wave*.

900210004	CalendarDate	Override	The CalendarDateType_OtherCode is invalid.	Normal	Your local system has calendars set up for each school. The days in the calendars are defined as Instructional Day, Holiday, etc. The CalendarDateType_OtherCode informs *The Wave* as to whether or not a particular day is a Professional Day, a Parent/Teacher Conference Day, or if neither of those are applicable to the day. You are seeing this warning message because either the code supplied is not a valid code (01, 02, NA) or because the code is valid, but has been applied incorrectly. You can see the code supplied by your system by clicking the "View SIF xml" Link. If the code is valid (01, 02, NA), the reason for this warning is because it does not apply to the CalendarDateType Code you supplied. If the CalendarDateType_Code supplied is 9999 (Other), 3421 (Strike), 0849 (Emergency Day), or 0846 (Holiday), the codes of 01 (Professional Day) and 02 (Parent/Teacher Conference) cannot be supplied, only NA would apply.

900210005	CalendarDate	Override	StudentAttendance_CountsToward Attendance was not provided.	Normal	Each of your schools contains one or more calendars that have a first day and last day of instruction. For each day in that calendar *The Wave* system receives an individual date which describes the day. The day may be a day of instruction, a holiday, a parent/teacher conference day, etc. For each day provided, there is a yes/no indicator informing *The Wave* as to whether or not this day should count as a day of attendance for the student. You are receiving this warning message because for this particular day, no indication was provided. In your local system, where you set up your calendar, there should be a location to indicate whether or not this day counts as a day of attendance.
900210006	CalendarDate	Override	The CalendarDate provided does not have an associated CalendarSummary.	Normal	Each of your schools contains one or more calendars for the school year. The CalendarSummary provides an overview of the school year containing start and end dates. The CalendarDate provides *The Wave* each individual date of the calendar and what type of day it is (instructional, holiday, parent/teacher conference, etc.). You are seeing this warning message because your system has sent *The Wave* a CalendarDate object, but did not send *The Wave* a CalendarSummary object associated with it. Make sure that all of the calendar information is complete inside your local student information system for this calendar.

900210007	CalendarDate	Override	SIF_ExtendedElement DailyInstructionalMinutes was not provided.	Normal	Each of your schools contains one or more calendars that have a first day and last day of instruction. For each day in that calendar *The Wave* system receives an individual date which describes the day. The day may be a day of instruction, a holiday, a parent/teacher conference day, etc. Also included for that date is an element called Daily Instructional Minutes which provides the total number of instructional minutes for that specific day. You are seeing this warning message because the Daily Instructional Minutes element was not provided to *The Wave*. In your local system, locate this field and fill in the appropriate amount.
900310001	CalendarDate	Override	SIF_ExtendedElement DailyInstructionalMinutes is invalid.	Normal	The Daily Instructional Minutes indicates to *The Wave* the total number of minutes of instruction for this particular day. Since the total number of instructional minutes can vary from day to day, this value represents the total minutes for a specific day. You are seeing this warning message for several possible reasons: 1. The number is not in the valid format or is too high. It must be a whole number, containing no decimals and non-negative numbers from 0 to 720. 2. If the day is a day of instruction, it must be greater than 0. 3. If the day is NOT a day of instruction, it must be 0. You can see the value supplied by looking at the "view Sif xml" link. This validation looks not only at that number, but also at the CalendarDateType_Code supplied. This code and what it represents can be found in section 7.33 (CalendarDateType Code) in the 2.x Wave Requirements Document.

900310002	CalendarSummary	Override	DaysInSession is out of range.	Low	Days In Session describes the total number of school days for this calendar. This warning is because the total number of days provided is either: 1. Larger or smaller than is expected for the total number of school days, or 2. The total days listed here will not fit inside of the FirstInstructionDate and LastInstructionDate. Please correct the DaysInSession to be the total school days for this calendar OR correct the First and Last Instruction Dates to increase the range.
900310003	CalendarSummary	Override	DaysInSession was not provided.	Low	The DaysInSession describes the total number of school days for this calendar. Please provide the DaysInSession by entering this information on the calendar in your local student information system.
900310004	CalendarSummary	Override	EndDate is out of range.	Low	This warning is because an end date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this end date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the End Date falls outside of that fiscal year range for the school year supplied. Check the Calendar and make sure that the Start and End Dates fall inside the fiscal year.

900310005	CalendarSummary	Override	EndDate was not provided.	Low	The End Date for this calendar was not provided. The Calendar contains two "ending" dates. The End Date and the Last Instruction Date. The End Date typically falls after the last day of instruction to account for other days that may exist in the calendar after school actually ends, such as professional days. Any day you would keep track of on the Calendar would fall between the Start and End date of the calendar. In this particular instance, the End Date was not provided. Please provide an End Date for this calendar in your local student information system. This is not a common error. You may want to work with your local student information system vendor to see why this element is not being sent or how to properly correct this issue.
900310006	CalendarSummary	Override	FirstInstructionDate is out of range.	Low	This warning is because the first day of instruction date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this first instruction date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the First Instruction Date falls outside of that fiscal year range for the school year supplied. Check the Calendar and make sure that the First Instruction and Last Instruction Dates fall inside the fiscal year.
900310007	CalendarSummary	Override	FirstInstructionDate was not provided.	Low	The First Instruction Date is the first day of school. This element was not provided. Please make sure the First Day of Instruction is on the calendar in your local student information system.

900310008	CalendarSummary	Override	GradeLevels is invalid.	Normal	GradeLevels are the collection of grade levels applicable to this Calendar. The GradeLevel was invalid. Please refer to table 7.5 in *The Wave* requirements document.
900310009	CalendarSummary	Override	GradeLevels was not provided.	Normal	The Grade Levels associated with this Calendar were not provided. This is not a common warning. Please work with your local student information system vendor to determine why the grade levels associated with this calendar are not being sent.
900310010	CalendarSummary	Override	GraduationDate is out of range.	Normal	GraduationDate is out of range.
900310011	CalendarSummary	Override	InstructionalMinutes is invalid.	Low	The Instructional Minutes is the total number of instructional minutes for this calendar for the entire school year. As an example, if you were in session for 300 instructional minutes each day for 180 days, your Instructional Minutes value would be 54000 (300 x 180 = 54000). This is commonly keyed in as the instructional minutes for one day rather than the instructional minutes for the entire school year. Please correct the Instructional Minutes for this calendar in your local student information system.
900310012	CalendarSummary	Override	InstructionalMinutes was not provided.	Low	The Instructional Minutes is the total number of instructional minutes for this calendar for the entire school year. As an example, if you were in session for 300 instructional minutes each day for 180 days, your Instructional Minutes value would be 54000 (300 x 180 = 54000). This element has not been provided. Please enter the Instructional Minutes for this calendar in your local student information system.

900310013	CalendarSummary	Override	LastInstructionDate is out of range.	Low	This warning is because the last day of instruction date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this last instruction date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Last Instruction Date falls outside of that fiscal year range for the school year supplied. Check the Calendar and make sure that the First Instruction and Last Instruction Dates fall inside the fiscal year.
900310014	CalendarSummary	Override	LastInstructionDate was not provided.	Low	The Last Instruction Date is the last day of school. This element was not provided. Please make sure the Last Day of Instruction is on the calendar in your local student information system.
900310015	CalendarSummary	Override	LocalId was not provided.	Normal	LocalId is the locally assigned identifier for the calendar. The LocalId was not provided.
900310016	CalendarSummary	Override	MinutesPerDay is invalid.	Low	The Minutes Per Day is the number of minutes in the day in which the school is normally in session. The Minutes Per Day must be at least 150 which is typical for a Pre-Kindergarten Half Day Calendar, but is normally higher than that for an average school day. You are receiving this warning because your minutes per day is lower than 150. Please correct by entering the correct minutes per day for this calendar in your local student information system.

900310017	CalendarSummary	Override	MinutesPerDay was not provided.	Low	The Minutes Per Day is the number of minutes in the day in which the school is normally in session. The Minutes Per Day must be at least 150 which is typical for a Pre-Kindergarten Half Day Calendar, but is normally higher than that for an average school day. You are receiving this warning because your minutes per day for this Calendar has not been provided. Please enter the correct minutes per day for this calendar in your local student information system.
900310018	CalendarSummary	Override	SchoolYear is invalid.	Normal	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.
900310019	CalendarSummary	Override	SchoolYear was not provided.	Low	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear was not provided.
900310020	CalendarSummary	Override	SIF_ExtendedElement (LunchMinutes) was not provided.	Low	This warning refers to the Lunch Minutes. This is the number of minutes designated for lunch for this calendar. Please provide the lunch minutes by entering that data into your local student information system for this calendar.
900310021	CalendarSummary	Override	StartDate is out of range.	Low	This warning is because a start date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this start date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Start Date falls outside the fiscal year range for the school year supplied.

| 900310021 | CalendarSummary | Override | StartDate is out of range. | Low | This warning is because a start date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this start date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Start Date falls outside the fiscal year range for the school year supplied. Check the Calendar and make sure that the Start and End Dates fall within the fiscal year. |
| 900310022 | CalendarSummary | Override | StartDate was not provided. | Low | The Start Date for this calendar was not provided. The Calendar contains two "beginning" dates: the Start Date and the First Instruction Date. The Start Date typically falls earlier than the first day of instruction to account for other days that may exist in the calendar before school actually begins such as professional days. Any day you would keep track of on the Calendar would f all between the Start and End date of the calendar. In this particular instance, the Start Date was not provided. Please provide a start date for this calendar in your local student information system. This is not a common error. You may want to work with your local student information system vendor to see why this element is not being sent or how to properly correct this issue. |

900310023	CalendarSummary	Override	SIF_ExtendedElement FirstNineWeeks date was not provided.	Normal	The SIF_ExtendedElement FirstNineWeeks was not provided to *The Wave* by your local Student Information System (SIS). The SIF_ExtendedElement FirstNineWeeks is a date provided by your Student Information System for this calendar. This date informs *The Wave* of when your first nine weeks will end. This date should be the last day of the first nine weeks. This will be used to calculate your First Quarter Statistical Report. *The Wave* will utilize the first day of instruction and this date to determine the range of the first quarter for this calendar. It is possible for more than one calendar to exist for a school so the data may vary for each calendars if they do not start/end on the same day of the year. Determine the location in your SIS for where to indicate the end of the first nine weeks and record that in your local SIS.
900310024	CalendarSummary	Override	SIF_ExtendedElement FirstNineWeeks date is invalid.	Normal	The SIF_ExtendedElement FirstNineWeeks is a date provided by your Student Information System for this calendar. This date informs *The Wave* of when your first nine weeks will end. This date should include the last day of the first nine weeks. This will be used to calculate your First Quarter Statistical Report. The date you are providing is invalid. There are a few reasons why it may be invalid. 1. It does not fall within this calendar year. 2. It is too far into the future to be a legitimate end of the first nine weeks date. 3. It is too early to be the end of the first nine weeks. Note: We use the FirstDayOfInstruction that is also provided to help us determine the validity of this date. It is possible the FirstNineWeeks date may be correct, but your FirstDayOfInstruction is incorrect. To review the dates provided, click the "View SIF XML" link to the right of the error to see the dates provided.

| 900510007 | CalendarSummary | Override | CalendarDate objects have not been supplied for this CalendarSummary. | Normal | The CalendarSummary provides information about the calendar or calendars for a particular school. When a student is enrolled, that enrollment is associated with a calendar. This calendar information informs your system and *The Wave* system regarding the first day of instruction, when the end of the first nine weeks occurs, which days are holidays or instructional days, etc. The CalendarSummary provides just summary information. There is another object called CalendarDate which provides each individual date in the calendar from the first day to the last day. Each day is specifically recorded as a holiday, an instructional day, a parent teacher conference day, etc. You are receiving this warning message because *The Wave* received the CalendarSummary information giving the Start and End Date's, but did not receive any CalendarDate objects related to this summary. The specific details of each individual day are missing. Work with your Student Information System provider to make sure the CalendarDate object is being sent and/or to see how to set up each individual day in a Calendar. |
| 900510022 | LEAInfo | Override | GradeLevels is invalid. | Normal | GradeLevels are the grade levels offered in your district (LEA). The GradeLevel code provided invalid. |

900510024	LEAInfo	Override	County/DistrictCode/ZoneTag mismatch.	Normal	The County/District Code you provided for your District (LEA) does not match the accredited County/District Code assigned to your LEA. **Example**: Oklahoma City should have a StateProvinceId of 55I089. The County = 55, The District = I089. In your local student information system, find the location where you input the County/District code for your district and correct it to the county/district code assigned by the OSDE Accreditation Office. This code should not contain any spaces or special characters.
900710017	LEAInfo	Override	StateProvinceId is invalid.	Normal	The StateProvinceId for LEAInfo is the concatenation of the County Code and the District Code (e.g. 55I089; County = 55, District = I089). This is not a common issue. Please work with your student information system vendor to send this element correctly to the state. It is possible it was keyed in incorrectly in your local system. Your vendor will be able to assist you in how to correct this element.
900710025	SchoolCourseInfo	Override	SchoolYear is invalid.	Normal	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.
900710027	SchoolCourseInfo	Override	CoreAcademicCourse was not provided.	Normal	The CoreAcademicCourse indicator describes whether or not this course meets the state definition of a core academic course. Please enter this in your local student information system for this course.

900710028	SchoolCourseInfo	Override	CourseTitle was not provided.	Normal	The CourseTitle or name of the course was not provided. Please provide a course name in your local student information system.
900710029	SchoolCourseInfo	Override	StateCourseCode is invalid.	Normal	The State Course Code (Oklahoma Cost Accounting System (OCAS) Code or Career Tech code) supplied for this course is not a valid OCAS or Career Tech Code. Please provide a valid OCAS or Career Tech code in your local student information system. If this course is a schedule filler such as "Planning Period" or "Lunch", make sure that credits are equal to zero and provide a state course code of four zeros "0000", and *The Wave* validation system will ignore it. The list of course codes can be found on *The Wave* Web site by going to "Documents" located under "Resources."
900710030	SchoolCourseInfo	Override	StateCourseCode was not provided.	Normal	The State Course Code (Oklahoma Cost Accounting System (OCAS) Code or Career Tech code) was not provided for this course. Please provide a valid OCAS or Career Tech code in your local student information system. If this course is a schedule filler such as "Planning Period" or "Lunch", make sure that credits are equal to zero and provide a state course code of four zeros "0000", and *The Wave* validation system will ignore it. The list of course codes can be found on *The Wave* Web site by going to "Documents" located under "Resources."

900810030	SchoolCourseInfo	Override	InstructionalLevel Code was not provided.	Normal	The Instructional Level Code informs *The Wave* about the rigor of instruction provided for this course. The Instructional Level is required for any course where course credits have a value greater than zero. You are seeing this warning because the course supplied has a course credit value greater than zero; however, an instructional level code was not supplied. In your local system, indicate the instructional level for this course.
900810031	SchoolInfo	Override	GradeLevels is invalid.	Normal	GradeLevels are the collection of grade levels applicable to this Calendar. The GradeLevel was invalid. Please refer to table 7.5 in *The Wave* requirements document.
900810032	SchoolInfo	Override	GradeLevel_Code field was not provided.	Normal	The Grade Levels (e.g. PK, KG, 01, 02, etc.) were not provided for this school. Please make sure the Grade Levels offered by this school are entered in your local student information system. This is not a common warning. You may need to work with your local student information system vendor to see why grade levels are not be sent to *The Wave*.
900810033	SchoolInfo	Override	GradeLevel_Codes were not provided.	Normal	The attribute record for Grade Levels (e.g. PK, KG, 01, 02, etc.) was not provided for this school. Please make sure the Grade Levels offered by this school are entered in your local student information system. This is not a common warning. You may need to work with your local student information system vendor to see why grade levels are not be sent to *The Wave*.

900810035	SchoolInfo	Override	LEAInfoRefId field was not provided.	Normal	The LEAInfoRefId is the link from this school to the District record. This is not a common issue and is almost always a vendor related issue. Please work with your student information system vendor to have this set up properly. This is NOT something you can key in to correct.
900810036	SchoolInfo	Override	OperationalStatus field is invalid.	Normal	OperationalStatus field is invalid.
900810038	SchoolInfo	Override	SchoolName field was not provided.	Normal	SchoolName field was not provided.
900810039	SchoolInfo	Override	StateProvinceId field is invalid.	Critical	The StateProvinceId field on the SchoolInfo object is the concatenation of the county, district, and site code (e.g. 55I089105 would refer to County (55), Oklahoma City Public Schools (I089), Elementary School (105)). This is not a common error. Students are sent to *The Wave* and are associated to the proper accredited site using this element. If this element is not the code of an accredited school, the students associated with this school will not appear on any report. Here are some of the common reasons why an Invalid StateProvinceId would be sent: 1. The information was keyed in incorrectly. Please make certain the information was typed in correctly in your system. 2. This particular school is an alternative education school where alt ed students are tracked separate of other students. That is not a problem, but the way in which they are being reported to *The Wave* is an issue. There are multiple ways this can be corrected, but each way is specific to how your student information system vendor handles reporting this element to *The Wave*. It may be as simple as changing the code to the correct code for this school. It may be that you have to map or bold this site to its accredited site or there may be another method for reporting this correctly. In this instance, the best solution would be to determine which students are attending this school and which accredited site they should be reported through. Contact your student information system vendor to see how this can be done correctly.

900810040	SchoolInfo	Override	StateProvinceId field was not provided.	Critical	The StateProvinceId field on the SchoolInfo object is the concatenation of the county, district, and site code (e.g. 55I089105 would refer to County (55), Oklahoma City Public Schools (I089), Elementary School (105)). This is not a common error. Please work with your student information system vendor to make sure you have your district and schools set up properly. Without this element, it is impossible to know which school to associate students to for reporting purposes. Any student attending this school will NOT appear on any report until this StateProvinceId is filled in and sent to *The Wave*.
900910014	SchoolInfo	Override	Title1Status field was not provided.	Normal	The Title I Status for the School was not provided. The Title I Status of the school can be one of three values: 1. Targeted - Certain students enrolled in the school are eligible for Title I programs. 2. SchoolWide - All students in the school are eligible for Title I programs. 3. NA - Not applicable, the school is not eligible for Title I programs. Please make sure the Title I Status for this school is reported in your local student information system.
900910017	SectionInfo	Override	LocalId was not provided.	Normal	LocalId is the locally assigned identifier for this course. You are receiving this error because this element was not provided.
900910041	SectionInfo	Override	SchoolYear is invalid.	Normal	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.

900910042	SectionInfo	Override	LocationOfInstruction_Code was not provided.	Normal	The Location of Instruction describes where this course section meets or is taught. The location types include: In School, Home, Hospital, Community facility, Business, as well as other types of instruction. Please make sure a location of instruction is provided in your local student information system for this course section. Acceptable codes for location of instruction can be found in the 2.X Wave Requirements document.
900910043	SectionInfo	Override	MediumOfInstruction_Code was not provided.	Normal	The Medium of Instruction describes the type of instruction provided in or out of the classroom for this particular course section. This includes face-to-face instruction, virtual/on-line distance learning, technology-based instruction in the classroom, as well as additional types of instruction. The complete list, along with descriptions, can be found in section 7.17 of the 2.x Wave Requirements document. Please make sure a medium of instruction is provided in your local student information system for this course section.
900910044	SectionInfo	Override	ScheduleInfo was not provided.	Normal	The scheduling information for this particular course section was not provided. The scheduling information includes elements such as the day it meets, the period it meets, the room it meets in, and the teacher assigned to that course section. Please make sure this information is entered in your local student information system for this course section.
900910045	SectionInfo	Override	StaffPersonalRefId was not provided.	Normal	The teacher associated with this particular course section was not provided. Please make sure a teacher is associated with this course section in your local student information system.

900910046	SectionInfo	Override	StateCourseCode Override is invalid.	Normal	StateCourseCodeOverride is invalid.
900910047	SectionInfo	Override	SummerSchool was not provided.	Normal	SummerSchool was not provided.
901010014	SectionInfo	Override	TermInfoRefId was not provided.	Normal	TermInfoRefId was not provided.
900110003	StaffPersonal	Override	FirstName is invalid.	High	The First Name entered for this staff member is invalid. This can be resolved by correcting the name in your local student information system. Reasons why the First Name may be invalid: **1**. It only contains a single character. **2**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.) used at appropriate times. **3**. It contains two names separated by more than one space. **4**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) **5**. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
901010048	StaffPersonal	Override	LocalId was not provided.	Normal	LocalId is the locally assigned identifier for this staff member. The LocalId was not provided.
901010049	StaffPersonal	Override	First Name invalid for this certificate.	High	*The Wave* system compares the First Name, Last Name, and Teaching Certificate Number supplied by your local student information system against the same fields in the Oklahoma Educators Credentialing System (OECS). In this case, the First Name supplied from your local system does not match the First Name in the OECS system for that teaching certificate number. This can be corrected in one of three ways. **1**. Check that the certificate number you have entered is correct for this teacher. **2**. Correct the first name in your local system to match the first name in the OECS system. **3**. Have the teacher log in to the OECS system and correct his/her first name to match what is in the local student information system at your district (Note: If the teacher elects to change his/her name in the OECS system, he/she is NOT required to purchase a new teaching certificate).

901010050	StaffPersonal	Override	FirstName was not provided.	High	The First Name of this staff member was not provided. Please provide the first name by keying it into your local student information system. Note: If this "staff member" is a filler such as "College Teacher", it can be set to be ignored by our validation by giving this "staff member" a teaching certificate number of six nines (999999). This should only be used in instances where the "staff member" is not a teacher.
901010051	StaffPersonal	Override	LastName is invalid.	High	The Last Name entered for this staff member is invalid. This can be resolved by correcting the name in your local student information system. Reasons why the Last Name may be invalid: **1**. It only contains a single character. **2**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.). **3**. It contains two names separated by more than one space. **4**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) **5**. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
901010052	StaffPersonal	Override	Teacher Certificate Number is invalid.	High	The Teaching Certificate Number provided on this record is not a valid number in the Oklahoma Educators Credentialing (OECS) system. Please correct the number for this staff member. Note: If this staff member is not a teacher, please enter the Teaching Certificate Number as 999999. This record will then be ignored by *The Wave* validation process.
901010053	StaffPersonal	Override	Teacher Certificate Number was not provided.	High	The Teaching Certificate Number has not been provided. In *The Wave* this is the StaffPersonal/StateProvinceId. In your system it may have a different name. Please provide the teaching certificate number for this staff member by keying it into your local student information system. Note: If this staff member is not a teacher, please enter the Teaching Certificate Number as 999999. This record will then be ignored by *The Wave* validation process.
901310003	StudentAttendance Summary	Override	EndDate is out of range.	High	You are receiving this warning because an end date for this student attendance summary falls outside the normal fiscal year. The fiscal year runs from July 1 to June 30. The year supplied causes this end date to be out of the range of the fiscal year. There is another element supplied with the StudentAttendanceSummary that shows the School Year. When you receive this warning, the school year is the current school year, but the End Date falls outside of that fiscal year's range for the school year supplied. You will need to work with your student information system vendor to resolve this issue as the dates are a calculation created in their system.

901310017	StudentAttendanceSummary	Override	SchoolYear is invalid.	Normal	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.
901310018	StudentAttendanceSummary	Override	SchoolYear was not provided.	High	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). SchoolYear was not provided.
901310020	StudentAttendanceSummary	Override	StartDate is out of range.	High	You are receiving this warning because a start date for this student attendance summary falls outside of the normal fiscal year. The fiscal year runs from July 1 to June 30. The year supplied causes this start date to be out of the range of the fiscal year. There is another element supplied with the StudentAttendanceSummary that shows the School Year. When you receive this warning, the school year is the current school year, but the Start Date falls outside of that fiscal year's range for the school year supplied. You will need to work with your student information system vendor to resolve this issue as the dates are a calculation created in their system.

901310054	StudentAttendanceSummary	Override	CalendarSummaryRefId was not provided.	High	The CalendarSummaryRefID is a link between the Enrollment of this student, the Calendar they are on and the Attendance object. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.
901310055	StudentAttendanceSummary	Override	DaysAttended was not provided.	High	Days Attended is the number of days the student attended school at your site during the session's StartDate and EndDate, inclusive. You are receiving this warning because DaysAttended was not provided.
901310056	StudentAttendanceSummary	Override	DaysInMembership was not provided.	High	Days in membership is the number of days the student was present plus the number of days the student was absent at your site during the session's StartDate and EndDate, inclusive. You are receiving this warning because DaysInMembership was not provided.
901310057	StudentAttendanceSummary	Override	DaysTransportedEligibleState Aid was not provided.	High	This is the total number of days the student was transported where he/she was eligible for state aid for this particular attendance period. This element was not provided. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.

901310058	StudentAttendanceSummary	Override	EndDay was not provided.	High	EndDay is the number of the last school day. The number of school days will reflect the actual instructional days and exclude professional days and holidays. You are receiving this warning because EndDay was not provided.
901310059	StudentAttendanceSummary	Override	ExcusedAbsences was not provided.	Low	ExcusedAbsences is the number of days the student was absent from school with a valid excuse between the StartDate and EndDate when school was in session. You are receiving this message because ExcusedAbsences was not provided.
901310060	StudentAttendanceSummary	Override	FTE is invalid.	Normal	FTE is invalid.
901310061	StudentAttendanceSummary	Override	Resident was not provided.	Low	Resident indicates whether or not the student's legal residence was within the boundaries of the school between the StartDate and EndDate. You are receiving this warning because Resident was not provided.
901310062	StudentAttendanceSummary	Override	StartDay was not provided.	High	StartDay is the number of the first school day. The number of school days will reflect the actual instructional days and exclude professional days and holidays. You are receiving this warning because StartDay was not provided.
901310063	StudentAttendanceSummary	Override	StudentSchoolEnrollment RefId was not provided.	High	The StudentSchoolEnrollmentRefId is a link between this attendance summary, the student, and the school the student attends. This element was not provided. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.

901310064	StudentAttendanceSummary	Override	UnexcusedAbsences was not provided.	Low	UnexcusedAbsences is the number of days the student was absent from school without a valid excuse between the StartDate and EndDate when school was in session. You are receiving this message because UnexcusedAbsences was not provided.
901410050	StudentContact	Override	Student Contact FirstName was not provided.	Normal	A contact associated with this student is missing a First Name. You can view information about the contact by clicking the "SIF XML" link. To correct, enter the First Name of the contact in your local student information system.
901410065	StudentContact	Override	Student Contact FirstName is invalid.	Normal	A contact associated with this Student has a First Name that was entered incorrectly in your local student information system. You can view the name of the Contact by clicking the "SIF XML" link on the record. To correct this, go to your local Student Information System, find this contact and correct the First Name. Reasons why it may be invalid: **1**. It only contains a single character. **2**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.). **3**. It contains two names separated by more than one space. **4**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) **5**. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")

901410066	StudentContact	Override	Student Contact LastName is invalid.	Normal	A contact associated with this Student has a Last Name that was entered incorrectly into your local student information system. You can view the name of the Contact by clicking the "SIF XML" link on the record. To correct this, go to your local Student Information System, find this contact and correct the Last Name. Reasons why it may be invalid: **1**. It only contains a single character. **2**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.). **3**. It contains two names separated by more than one space. **4**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) **5**. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
901410067	StudentContact	Override	Student Contact LastName was not provided.	Normal	A contact associated with this student is missing a Last Name. You can view information about the contact by clicking the "SIF XML" link. To correct, enter the Last Name of the contact in your local student information system.

901410068	StudentContact	Override	Student Contact MiddleName is invalid.	Normal	A contact associated with this Student has a Middle Name that was entered incorrectly into your local student information system. You can view the name of the Contact by clicking the "SIF XML" link on the record. To correct this, go to your local Student Information System, find this contact and correct the Middle Name. Reasons why it may be invalid: **1**. It only contains a single character. **2**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.). **3**. It contains two names separated by more than one space. **4**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) **5**. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
901410069	StudentContact	Override	Name_Type was not provided.	Normal	A contact associated with this student does not have a Name Type. The Name_Type is an indication of the type of name being sent such as (legal name, alias name, etc.). This code should be supplied by your student information system vendor to *The Wave* with any name that is provided. If you have an option to select the type of name in your system, indicate that for this contact. If you do not have an option to indicate the type of name, you will need to contact your local student information system vendor to let them know the name type is not being supplied with this record. To view the specific contact in question, click the "SIF XML" link.

901410070	StudentContact	Override	Relationship_Code was not provided.	Normal	A contact associated with this student does not have the relationship code provided. The relationship code shows the relation between the contact and the student (e.g. 1734 = Mother, natural/adoptive). To correct, enter a relationship for this contact in your local student information system. To view information about the specific contact in question, click the "SIF XML" link.
901410071	StudentContact	Override	Suffix is invalid.	Normal	A contact associated with this student has an invalid suffix. Expected values would be similar to (Jr, Jr., Sr., I, II, III, etc.). To view the value sent, click on the "SIF XML" link and find the "Suffix." To correct, modify the suffix in your local student information system for this contact.
901510001	StudentDailyAttendance	Override	The StudentDailyAttendance provided does not have an associated School.	Normal	StudentDailyAttendance provides information related to a student's individual attendance for a particular day. You are receiving this warning message because the School Information provided with this Daily Attendance information does not match with any schools within your district. This is not a common error. Contact your Student Information System vendor and provide them with the data contained inside of the "View SIF XML" Link so they can determine why *The Wave* system has not received an associated School or why the Student Daily Attendance object is sending a value that does not match your current list of schools.

901510002	StudentDailyAttendance	Override	StudentDailyAttendance Date is invalid.	Normal	The StudentDailyAttendance provides information related to a student's individual attendance for a particular day. You are receiving this warning message for one of two reasons: **1**. The date falls outside of the normal range for this fiscal year which runs from July 1 to June 30. **2**. The date provided falls outside of the Calendar Summary range for the Start and End dates provided. You can see the date provided in the "View SIF XML" link. If the date appears to be in the current calendar year, check the start and end date from the Calendar for this student to make sure that information has been entered correctly.
901510003	StudentDailyAttendance	Override	The StudentDailyAttendance does not have an associated Attendance Code Info object.	Normal	The StudentDailyAttendance provides information related to a student's individual attendance for a particular day. You are receiving this warning message because a link to Attendance Code information is missing. The AttendanceCodeInfo object informs *The Wave* of whether or not this instance of daily attendance is an absent or a present value and the amount of that absence or presence (half day or full day). Without this link, absent or present cannot be determined. In your local Student Information System, make sure that all attendance information has been filled out correctly and work with your Student Information System vendor to be sure that the "AttendanceCodeInfo" object is being supplied to *The Wave*. Supply the contents of the "View SIF XML" link to your vendor, which shows the value that links to the missing AttendanceCodeInfo object.

901510010	StudentDailyAttendance	Override	SIF_ExtendedElement InSchoolSuspension was not provided.	Normal	The InSchoolSuspension value is required for every StudentDailyAttendance object. The default value should be "No" for all objects. A value of "Yes" should only be supplied if the day represents a day when the student was receiving in school suspension. You are seeing this warning message because InSchoolSuspension was not provided. Check your local student information system to see if a location for this exists. If it is not filled in, provide that information. If it is filled in or does not exist, work with your Student Information System vendor to see why this is not being provided to *The Wave*.
901510011	StudentDailyAttendance	Override	SIF_ExtendedElement InSchoolSuspension is invalid.	Normal	The InSchoolSuspension value is required for every StudentDailyAttendance object. The default value should be "No" for all objects. A value of "Yes" should only be supplied if the day represents a day when the student was receiving in school suspension. You are seeing this warning message because a value other than "Yes" or "No" was supplied to *The Wave*. You can see the erroneous value by looking at the "View SIF XML" link and finding "InSchoolSuspension". Work with your Student Information System vendor to correct the codes so that only a value of "Yes" or "No" will be supplied.
901510012	StudentDailyAttendance	Override	SIF_ExtendedElement TransportedEligibleStateAid was not provided.	Normal	TransportedEligibleStateAid is an indicator received by *The Wave* for each day of attendance for a student. This indicator informs *The Wave* if this particular day should count as a day of transportation for this student for state aid purposes. You are seeing this warning message because the TransportedEligibleStateAid has not been provided to *The Wave*. Check your local system to see if there is a location to fill this information in. Work with your Student Information System vendor to see how to correctly report this information or to see why it is not being sent to *The Wave*.

901510013	StudentDailyAttendance	Override	SIF_ExtendedElement TransportedEligibleStateAid is invalid.	Normal	TransportedEligibleStateAid is an indicator received by *The Wave* for each day of attendance for a student. This indicator informs *The Wave* if this particular day should count as a day of transportation for this student for state aid purposes. You are seeing this warning message because a value other than "Yes" or "No" has been supplied by your system to *The Wave*. The only valid values are either "Yes" or "No". You can see the value supplied by clicking on the "View SIF XML" link and finding "TransportedEligibleStateAid". Work with your Student Information System vendor to correct the values so that only "Yes" or "No" is supplied for this element.

901610067	StudentPersonal	Override	LastName was not provided.	Critical	The Last Name of this student was not provided. This can be resolved by entering the legal Last Name of the student in your local student information system. Note: Some systems have two locations for the name. One is for the Legal Name, the other is for the name the student goes by. Be sure the Legal Name section is filled out.
901610069	StudentPersonal	Override	NameType was not provided.	Normal	The NameType is an indication of the type of name being sent such as legal name, alias name, etc. This code should be supplied by your student information system vendor to *The Wave* with any name that is provided. If you have an option to select the type of name in your system, indicate that for this record. If you do not have an option to indicate the type of name, you will need to contact your local student information system vendor to let them know the name type is not being supplied with this record.

901610071	StudentPersonal	Override	Suffix is invalid.	Normal	The Suffix supplied for this student is not a valid suffix. Expected values would be similar to Jr, Jr., Sr., I, II, III, etc. To view the value sent, click on the "SIF XML" link and find the "Suffix." To correct, modify the suffix in your local student information system.
901610072	StudentPersonal	Override	Address City was not provided.	Normal	The Address provided for this student does NOT contain a City. In your local student information system, find the address for the student and input the city. Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a city.
901610073	StudentPersonal	Override	Address Country was not provided.	Normal	The Address provided for this student does NOT contain a Country. In your local student information system, find the address for the student and input the Country. Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a Country. Note: Sometimes Student Information Systems default the Country as US. If you cannot find the location for the Country in your SIS or if you are seeing this Warning for all of your students, you will want to contact your local Student Information System provider to correct this issue.
901610073	StudentPersonal	Override	Address Country was not provided.	Normal	The Address provided for this student does NOT contain a Country. In your local student information system, find the address for the student and input the Country. Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a Country. Note: Sometimes Student Information Systems default the Country as US. If you cannot find the location for the Country in your SIS or if you are seeing this Warning for all of your students, you will want to contact your local Student Information System provider to correct this issue.

901610074	StudentPersonal	Override	Address Line1 was not provided.	Normal	The Address provided for this student does NOT contain "Line1" (Street Number/Street Name or PO BOX). In your local student information system, find the address for the student and input "Line1." Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a "Line1."
901610075	StudentPersonal	Override	Address PostalCode is invalid.	Normal	The Postal Code provided for this address is invalid. If the state for the address is Oklahoma, the Postal Code is checked against known valid Postal Codes for Oklahoma. If the state was not provided or it is not Oklahoma, the Postal Code either does not have enough numbers or it has other letters or symbols contained inside of it. You can see the invalid Postal Code supplied by clicking the "View SIF XML" link.

901610081	StudentPersonal	Override	Country of birth was not provided.	Normal	The Country of Birth for this student was not provided. In your local student information system, find the location for country of birth and input the student's birth country.
901610082	StudentPersonal	Override	DOB is less than 1 day old.	Critical	The Date of Birth supplied for this student was keyed in incorrectly. To view the Date of Birth supplied, click the "SIF XML" link. Based on the BirthDate supplied, the student is less than 1 years old. To correct, find the birthdate of the student in your local student information system and key in the correct birth date.
901610083	StudentPersonal	Override	DOB Not Less Than 26.	Critical	The date of birth supplied for this student would make the age of the student greater than 26 years old. If the student is not over the age of 26, go to your local school Student Information System and update the BirthDate for this student to the correct date of birth. If this is the correct birthdate, the student is over the age of 26 and is enrolled currently in your school, please contact the Help Desk as we will need additional information from you to determine why a student over the age of 26 is being educated by your district.
901610085	StudentPersonal	Override	EconomicDisadvantage indicator is invalid.	High	The EconomicDisadvantage indicator is invalid. Your Student Information System supplied a code of "Unknown" to *The Wave* for Economic Disadvantage. All students must have an Economic Disadvantage status of "Yes" or "No" supplied to *The Wave*. In your local system, indicate the Economic Disadvantage status of the student.

901610086	StudentPersonal	Override	EconomicDisadvantage indicator was not provided.	High	The EconomicDisadvantage indicator was not provided for this student. This element is required for all students. The possible values are either Yes (The student is economically disadvantaged) or No (The student is not economically disadvantaged). All students who are individually eligible for free or reduced price lunch, regardless of whether or not they have access to a meal and regardless of whether or not they pay for their meal, are economically disadvantaged.
901610087	StudentPersonal	Override	ELL indicator is invalid.	High	The indicator supplied for ELL (English Language Learner/Limited English Proficient) is not valid The only valid codes for ELL are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate whether or not this student is ELL in your local student information system.
901610088	StudentPersonal	Override	ELL indicator was not provided.	High	The ELL (English Language Learner/Limited English Proficient) indicator for this student has not been supplied. In your local student information system indicate whether or not this student is ELL.
901610089	StudentPersonal	Override	EnglishProficiency/Other Code is invalid.	High	The English Proficiency and English Proficiency Other Code identifies information about students who are both ELL (English Language Learners/Limited English Proficient) and Bilingual or who are Native English Speakers. The warning you are receiving indicates the English Proficiency Other Code is invalid for this student. There are two possibilities for this warning: **1**. The Code provided doesn't align with the English Proficiency Code provided. For instance, if you supply an English Proficiency Code of 1636 (Redisgnated as fluent English Proficient), a code of 01, 02, 03, 04, 05, or 06 should be supplied as the English Proficiency Other Code. If the English Proficiency Other Code supplied was "NA," it would be flagged as invalid. To view the Codes supplied, click the "SIF XML" link. To view a complete list of codes and descriptions, review tables 7.15 and 7.16. **2**. The code supplied is not a valid code. If you have the ability to hand key enter the codes in your local student information system, correct the codes using the document above. If you do not have the ability to enter the codes and an invalid code was sent, you will need to contact your local student information system vendor to have the codes sent correctly.

901610090	StudentPersonal	Override	EnglishProficiency_Code is invalid.	High	The English Proficiency Code supplied for this student is invalid. It is invalid because it does not align with the ELL (English Language Learner/Limited English Proficient) indicator supplied for this student. Example: If the ELL supplied = Yes, the EnglishProficiency Code should be 2349 (Limited English Proficient/English Language Learner). If the ELL supplied = No, the English Proficiency Code should NOT be 2349. To correct, input the correct English Proficiency Code for this student or correct the ELL indicator supplied in your local student information system. To view the codes supplied, click the "SIF XML" link and find "ELL" and EnglishProficiency Code."
901610091	StudentPersonal	Override	EnglishProficiency_Code was not provided.	High	A code indicating the EnglishProficiency of a student was not provided for this student. To correct this, enter the EnglishProficiency in your local student information system. To view a complete list of codes and descriptions, review tables 7.15 and 7.16 in the
901610092	StudentPersonal	Override	Gender is invalid.	Critical	The Gender provided for this student is invalid. A valid gender will indicate either Male (M) or Female (F). To view the code sent for this student, click the "SIF XML" link. Usually this warning is caused by a gender of "U" (Unknown) being sent. This can be resolved by correcting the gender in your local student information system.
901610093	StudentPersonal	Override	Gender was not provided.	Critical	The Gender was not provided for this student. This can be resolved by entering the student's gender in your local student information system.
901610094	StudentPersonal	Override	GiftedTalented indicator is invalid.	High	The indicator supplied for GiftedTalented is not valid. The only valid codes for GiftedTalented are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is GiftedTalented.
901610095	StudentPersonal	Override	GiftedTalented indicator was not provided.	High	The GiftedTalented indicator for this student has not been supplied. In your local student information system indicate whether or not this student is GiftedTalented.

901610096	StudentPersonal	Override	GraduationDate is invalid.	Normal	The GraduationDate supplied is invalid. There are several factors weighed when determining whether or not the graduation date is valid and whether or not the school should be supplying the graduation date. Reasons why GraduationDate would be invalid include: **1**. The ProjectedGraduationYear supplied is in the future. If the student is projected to graduate in a future year, they should not have a graduation date for the current year. **2**. The student has exited your district and the exit code supplied does not indicate graduated or suspension. If the student is suspended, they could still receive services and graduate. If the exit code indicates graduated, then this would not be an issue. The exit code supplied by your system, however, indicates the student has left your school to attend another district or other form of education. This would indicate they could not graduate from your school making the graduation date invalid. **3**. The Graduation Date supplied is in too far into the future. It is predictive rather than a certainty. (Example: A student with a graduation date of May four years into the future). The GraduationDate should only be supplied when the student has met all of the graduation requirements and will be receiving a diploma from your school district. To review the Graduation Date supplied for this student click the "SIF XML" link and find "GraduationDate."
901610097	StudentPersonal	Override	GraduationDate was not provided.	Normal	The ProjectedGraduationYear supplied for this student indicates they will graduate during this Fiscal School Year. As a result, we are expecting to see the GraduationDate for this student. If the date of graduation is known, input that date in your local student information system. If the date is not yet know, this warning can remain temporarily while determining the graduation date and whether or not the student has met the graduation requirements. If the student will NOT be graduating during this Fiscal Year, change the ProjectedGraduationYear for this student.
901610098	StudentPersonal	Override	HispanicLatino was not provided.	Critical	An indication of whether or not this student is of Hispanic or Latino origin has not been supplied. This can be resolved by indicating this in your local student information system.

901610099	StudentPersonal	Override	Homeless indicator is invalid.	Low	The indicator supplied for Homeless is not valid. The only valid codes for Homeless are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate whether or not this student is Homeless in your local student information system.
901610100	StudentPersonal	Override	Homeless indicator was not provided.	Low	The Homeless indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Homeless.
901610104	StudentPersonal	Override	Immigrant indicator is invalid.	High	The indicator supplied for Immigrant is not correct. The only valid codes for Immigrant are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate whether or not this student is Immigrant in your local student information system.
901610105	StudentPersonal	Override	Immigrant indicator was not provided.	High	The Immigrant indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Immigrant.
901610106	StudentPersonal	Override	Language_Code record was not provided.	Low	No Language Code was received for this student. The Language Code indicates the language or languages spoken by the student. To correct, enter the language spoken by the student in your local student information system.
901610107	StudentPersonal	Override	Language_NAI_Other Code record was not provided.	Low	In your local student information system, this student is identified as speaking a Native American Indian language, but the specific Native American Indian language code has not been provided. In your local system, indicate the specific Native American Indian language spoken.
901610108	StudentPersonal	Override	MiddleName is invalid.	Critical	The Middle Name supplied for this student is invalid. Reasons why the Middle Name may be invalid: **1**. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen (-), an apostrophe ('), and periods (.) used at appropriate times. **2**. It contains two names separated by more than one space. **3**. It contains three of the same characters in a row (e.g. Mattthew which contains the letter "t" three times) 4. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr."). To resolve, correct the middle name in your local student information system. If the student does not have a middle name, this field should be left blank.

901610110	StudentPersonal	Override	Migrant indicator was not provided.	Normal	The Migrant indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Migrant.
901610111	StudentPersonal	Override	NeglectedDelinquent indicator is invalid.	High	The indicator supplied for NeglectedDelinquent is not valid. The only valid codes for NeglectedDelinquent are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is NeglectedDelinquent.
901610112	StudentPersonal	Override	NeglectedDelinquent indicator was not provided.	High	The NeglectedDelinquent indicator for this student has not been provided. In your local student information system indicate whether or not this student is NeglectedDelinquent.
901610113	StudentPersonal	Override	OnTimeGraduationYear is invalid.	Normal	The OnTimeGraduationYear supplied for this student is not valid. Below are some of the reasons why this indicator would be considered invalid: **1**. The year is too far into the future. **2**. The year is too far into the past for the age of the student. To correct, determine the on time graduation year for the student and enter that year into your local student information system. To view the On Time Graduation Year supplied, click the "SIF XML" link and find "OnTimeGraduationYear."
901610114	StudentPersonal	Override	OnTimeGraduationYear was not provided.	Normal	The OnTimeGraduationYear was not supplied. This is the year the student would graduate if graduating on time. This year should be established the first time student enters ninth grade and should not change after that. In your local student information system, provide the OnTimeGraduationYear for this student.

901610115	StudentPersonal	Override	ProjectedGraduationYear is invalid.	Normal	The ProjectedGraduationYear supplied for this student is invalid. There are a number of reasons why this year is invalid: **1**. The year is in the past and the student is currently enrolled at your site. The projected graduation year should be the currently projected graduation year. If the student has not graduated, the year cannot be historical. **2**. The ProjectedGraduationYear is too far into the future. If the projected graduation year is greater than what would be considered normal for a student of that age to graduate (e.g. 50 years into the future), the warning is given. To correct, determine when the student is expected to graduate, and enter that year into your local student information system. To view the Projected Graduation Year supplied, click the "SIF XML" link and find "ProjectedGraduationYear."
901610116	StudentPersonal	Override	ProjectedGraduationYear was not provided.	Normal	The ProjectedGraduationYear for this student has not been supplied. In your local student information system, input the year this student is projected to graduate.
901610116	StudentPersonal	Override	ProjectedGraduationYear was not provided.	Normal	The ProjectedGraduationYear for this student has not been supplied. In your local student information system, input the year this student is projected to graduate.
901610117	StudentPersonal	Override	Race_Code record was not provided.	Critical	The Race code or codes for this student have not been supplied. In your local student information system indicate the Race of the student.
901610133	StudentPersonal	Override	State of birth is invalid.	Normal	The State of Birth provided for this student is either not one of the valid State Codes or it is not two uppercase letters. To view the State of Birth, click the "SIF XML" link. To correct this, modify the Birth State in your local student information system for this student.

901610134	StudentPersonal	Override	State of birth was not provided.	Normal	The State of Birth for this student was not provided. To correct this, provide a state of birth in your local student information system for this student. If the student was not born in the United States, you will need to modify the Country of Birth. The reason this warning is appearing is because the Country of Birth being supplied is US and no state has been supplied with it.
901610135	StudentPersonal	Override	StateProvinceId does not match AssignedSTN.	High	The STN stored inside of your local system for this student does not match what we have in place for the same student. Please contact the Help Desk and ask that the STN we have be republished to overwrite your local STN. If you have already contacted the Help Desk to have that completed and the warning still exists, your local system is not accepting the STN we are attempting to provide back to you. You will need to contact your student information system vendor for assistance to determine why the STN is not being written into your local system.
901610135	StudentPersonal	Override	StateProvinceId does not match AssignedSTN. 901610136	StudentPersonal	Override	StudentPersonal Language_NAI_OtherCode OtherCode is invalid.	Low	For this student, you have indicated they speak a Native American Indian language; however, the code your system provided for the specific Native American Indian language he/she speaks is not a valid code. This code must be two upper case letters and must be a valid code. To see the code sent, click the "SIF XML" link and find the Language_OtherCode. Refer to table 7.9 of the 2.X Wave Requirements document for appropriate codes. This document can be found by clicking on the Documents link located under the Resources tab of *The Wave* Web site.
901610137	StudentPersonal	Override	Title1 indicator is invalid.	Low	The indicator supplied for Title1 is not correct. The only valid code for Title1 is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate whether or not this student is Title1 in your local student information system.
901610138	StudentPersonal	Override	Title1 indicator was not provided.	Low	The Title1 indicator for this student has not been supplied. In your local student information system indicate whether or not this student is in a Title1 program.
901610139	StudentPersonal	Override	VocationalConcentrator indicator is invalid.	Normal	The indicator supplied for VocationalConcentrator is not correct. The only valid codes for VocationalConcentrator are either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate whether or not this student is VocationalConcentrator in your local student information system.
901610140	StudentPersonal	Override	VocationalConcentrator indicator was not provided.	Normal	The VocationalConcentrator indicator for this student has not been supplied. In your local student information system indicate whether or not this student is a Vocational Concentrator.

901610141	StudentPersonal	Override	Year of birth is invalid.	Critical	The Year of Birth supplied for this student is not valid. To view the Year provided, click the "SIF XML" link and find the "BirthDate." To resolve this issue, correct the student's birthdate in your local student information system.
901610160	StudentPersonal	Override	Migrant indicator is invalid for this district.	Normal	The student's District does not currently have any students approved for Migrant Status. Please contact the Migrant Student Office if you believe you have received this message in error.
901610161	StudentPersonal	Override	Student not found in migrant database.	Normal	This student does not match any students currently approved as Migrant. Please verify that student's name is spelled correctly and the date of birth is correct. If you have verified that the name and date of birth are correct and believe this student is migrant eligible, please contact the Migrant Student Office.
901610162	StudentPersonal	Override	Student's migrant eligibility has expired.	Normal	The student's Last Qualifying Move was more than 3 years ago. The student is no longer eligible for Migrant status. Please contact the Migrant Student Office if you believe you are receiving this message in error.

901610163	StudentPersonal	Override	The EconomicDisadvantage and LunchEligibilityDetermination indicators do not align.	Normal	The EconomicDisadvantage and LunchEligibilityDetermination indicators do not align. The LunchEligibilityDetermination indicator provides a code to indicate how a student is determined to be eligible for Free or Reduced price lunch or if that student is eligible at all. The Economic Disadvantage code you supplied indicated the student is NOT economically disadvantaged, but the code Lunch Eligibility Indicator code you supplied indicates the student is eligible for Free or Reduced lunch. In your local student information system, correct either the Economic Disadvantage indicator or the Lunch Eligibility Determination indicator. Note: "Eligibility" is still determined for a student even if they do not have access to a meal for the purpose of determining the Economic Disadvantage status of a student. If you have a direct certification student, who pays for his/her lunch, the Lunch Eligibility Determination indicator should be "NA." If your site is a Provision or Community Eligible school, but the student does not individually qualify for free lunch, the LunchEligibilityDetermination indicator should be "NA."

901610164	StudentPersonal	Override	The EconomicDisadvantage indicator and Direct Certification report do not align.	Normal	The EconomicDisadvantage indicator and Direct Certification report do not align. Your Student Information System supplied the value of "No" for Economic Disadvantage indicating this student is NOT economically disadvantaged. *The Wave*, however, has identified this student is on the Child Nutrition Direct Certification Report which indicates this student IS economically disadvantaged. Check the Direct Certification report to verify and modify this students Economic Disadvantage status to "Yes" in your local system if you find the student on the Direct Certification report.
901610165	StudentPersonal	Override	The EconomicDisadvantage and FreeReduced indicators do not align.	Normal	The FreeReduced and EconomicDisadvantage indicators do not align. If FreeReduced is equal to "Free" or "Reduced" then the EconomicDisadvantage indicator must be "Yes." You are seeing this warning because your EconomicDisadvantage indicator equals "No." In your local system, change the EconomicDisadvantage indicator to "Yes" or correct the students FreeReduced indicator.
901610166	StudentPersonal	Override	StudentPersonal Language MIS OtherCode is invalid.	Low	For this student, you have indicated they speak a language that is considered a miscellaneous language; however, the code your system has provided is not a valid code. This code must be three uppercase letters and must be a valid code. To see the code sent, click the "SIF XML" link and find the Language_OtherCode. Refer to table 7.9.1 of the 2.X Wave requirements for the appropriate codes. This document can be found by clicking on the Documents link located under the Resources tab of *The Wave* Web Site. For new mis language codes to be added, they must be approved by the OSDE EL Office, please contact the OSDE Service Desk 405-521-3301 and speak with the EL Office about adding a new language to the list.

901610167	StudentPersonal	Override	Language_Code is invalid.	Normal	The Language Code Error indicates that you have a student that is marked as ELL "Yes," but a language code other than "eng" (English) or "und" (Undetermined) has not been provided. It is required for all ELL students that a language other than English or Undetermined is provided. Another issue may be that you are supplying a language that is not on the approved language list. Please review *The Wave* requirements document to determine the approved language. If a language needs to be added to the list please contact the OSDE EL Office at 405-521-3301.
901610168	StudentPersonal	Override	LanguageType was not provided.	Normal	*The Wave* requires that at least one language other than English be supplied for all students who are indicated as ELL/LEP. And at least one of those languages must have a LanguageType of 1036 (Dominant Language), 1037 (Home Language), or 1038 (Native Language). You are seeing this warning because your student was sent to *The Wave* with ELL=Yes and a LangaugeType of 1036 (Dominant Language), 1037 (Home Language), or 1038 (Native Language) has not been supplied to *The Wave*. In your local system, check the language provided for this student and make sure that at least one non-English language is indicated as the "Dominant Language", "Home Language", or "Native Language".

901610169	StudentPersonal	Override	StudentDailyAttendance has not been provided for this student.	Normal	The StudentDailyAttendance provides *The Wave* with information related the student's attendance for each day of the year. You are seeing this warning message because we have not received any daily attendance records for this student. 1. Check to make sure attendance information has been entered. 2. Work with your Student Information System Vendor to make sure the "StudentDailyAttendance object" is being sent to *The Wave*.

Normal	HomelessMcKinneyVento is a value that answers the question "Was this student served by McKinney-Vento sub grants during this current school year?" The values provided should be "Yes" or "No". For all students, a default value of "No" should be provided. If the answer to the question is "Yes", then a code of "Yes" would be sent for that student instead of the default value of "No". You are seeing this warning message because nothing has been sent from your system regarding Homeless McKinney Vento. Verify this information has been filled out in your local student information system and/or work with your local Student Information System provider to make sure this element is being sent to *The Wave*.

901610172	StudentPersonal	Override	SIF_ExtendedElement HomelessMcKinneyVento is invalid.	Normal	HomelessMcKinneyVento is a value that answers the question "Was this student served by McKinney-Vento sub grants during this current school year?" The values provided should be "Yes" or "No". For all students, a default value of "No" should be provided. If the answer to the question is "Yes", then a code of "Yes" would be sent for that student instead of the default value of "No". You are seeing this warning message because a value other than "Yes" or "No" was provided by your system. You can see the invalid value by clicking on the "View SIF XML" link and finding "HomelessMcKinneyVento". Work with your Student Information System vendor to ensure the correct code values will be sent.
901610191	StudentPersonal	Override	EnglishProficiency/OtherCode was not provided.	Normal	The English Proficiency and English Proficiency Other Code identifies information about students who are both ELL (English Language Learners/Limited English Proficient) and Bilingual or who are Native English Speakers. The warning you are receiving indicates the English Proficiency Other Code was not provided for this student. To view a complete list of codes and descriptions, review tables 7.15 and 7.16

901710007	StudentSchoolEnrollment	Override	GradeLevel_Code is invalid.	High	A grade level code has been supplied for this student that is not valid. The only valid codes are: PK, KG, 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, and 12. Commonly, we receive a grade level code of UN for students who are 3 years old and enrolled. The appropriate grade level for these students is "PK". Students who are 3 years old, on an IEP, and enrolled are considered PK for reporting purposes. To view the Grade Level sent for this student, click the "SIF XML" link and find "GradeLevel Code." To correct, indicate the appropriate grade level in your local student information system.
901710008	StudentSchoolEnrollment	Override	GradeLevel_Code was not provided.	High	The Grade Level for this student has not been supplied. In your local student information system indicate the grade in which the student is currently enrolled.
901710009	StudentSchoolEnrollment	Override	GradeLevel_Code is invalid for district.	High	This student appears to be enrolled in a grade that is not accredited by this district. Please verify the grade level for this student. If your school does serve this grade, please contact the Accreditation Office to change your accreditation status. To view the Grade Level sent for this student, click the "SIF XML" link and find "GradeLevel Code." To correct, indicate the appropriate grade level in your local student information system.
901710017	StudentSchoolEnrollment	Override	SchoolYear is invalid.	Normal	SchoolYear is expressed as a four-digit year in which the school year ends. The SchoolYear provided should be for the current academic year (e.g. 2019 for the 2018-19 school year). The SchoolYear provided is invalid.

901710054	StudentSchoolEnrollment	Override	CalendarSummaryRefId was not provided.	Low	The CalendarSummaryRefId is a link between the Enrollment of this student and the Calendar associated with this student. Most often, the student will be on the Calendar associated with the school, and the school will only have one calendar. However, some student information system vendors allow for a school to have more than one calendar (e.g. an Alternative Education calendar). All Enrollments should come with a CalendarSummaryRefId that links the Enrollment to the appropriate Calendar. To resolve, inform your student information system vendor that the CalendarSummaryRefId is not being supplied with the student. They will have to correct this issue.
901710055	StudentSchoolEnrollment	Override	This StudentSchoolEnrollment object does not have an associated CalendarSummary object.	Normal	The StudentSchoolEnrollment object provides *The Wave* system with information related to the Entry and Exit of a student. The CalendarSummary object provides *The Wave* with information related to the start and end of school and links to CalendarDate information related to each individual day. These two pieces of data link together through an Identifier that is provided in each object. You are seeing this warning message because the identifier provided in your StudentSchoolEnrollment object does not link with any provided CalendarSummary object. Work with your Student Information System vendor to correct this problem. You can provide them with the data contained in the "View SIF XML" link which will give them the " CalendarSummaryRefId " that does not have an associated CalendarSummary.

901710142	StudentSchoolEnrollment	Override	EntryDate is out of range.	High	The Entry Date supplied for one of the enrollments associated with this student is out of range. This means the Entry Date does not fall within the fiscal year supplied in the enrollment. Example: If the SchoolYear is FY2019, the Entry Date must be between July 1, 2018 and June 30, 2019. If it is less than July 1, 2018 or greater than June 30, 2019 it does not fall within the appropriate year. The enrollment itself indicates the year. To view what was sent, click the "SIF XML" link and find "EntryDate" and "SchoolYear." To correct, enter a date that falls within the fiscal year for this enrollment.
901710143	StudentSchoolEnrollment	Override	EntryType/OtherCode is invalid.	High	The Entry Type Other Code is the Basis of Admission. This indicates the reason why your school is reporting this student to the state. This code must be valid for reporting purposes. To view a list of valid codes, refer to table 7.2 of the 2.X Wave Requirements document located on *The Wave* Web site under "Resources" and "Documents." To view the code sent, click the "SIF XML" link and Find "EntryType Other Code."
901710144	StudentSchoolEnrollment	Override	EntryType/OtherCode was not provided.	High	The Entry Type Other Code is the Basis of Admission. This indicates the reason why your school is reporting this student to the state. This code must be sent for reporting purposes. To view a list of valid codes, refer to section 7 of the 2.X Wave Requirements document located on *The Wave* Web site under "Resources" and "Documents."
901710145	StudentSchoolEnrollment	Override	EntryType_Code was not provided.	Low	The Entry Type Code indicates where this student came from before he/she entered your school. This code was not provided. To correct, enter the Entry Code in your local student information system. Code in your local student information system.

901710146	StudentSchoolEnrollment	Override	EntryType_OtherCode record was not provided.	High	The attribute record Entry Type Other Code is the Basis of Admission. This record was not provided. This indicates the reason why your school is reporting this student to the state. This code must be sent for reporting purposes. To view a list of valid codes, refer to section 7 of the 2.X Wave Requirements document located on *The Wave* Web site under "Resources" and "Documents."
901710147	StudentSchoolEnrollment	Override	ExitDate is out of range.	High	The Exit Date supplied for one of the enrollments associated with this student is out of range. This means the Exit Date does not fall within the fiscal year supplied in the enrollment. Example: If the SchoolYear is FY2019, the Exit Date must be between July 1, 2018 and June 30, 2019. If it is less than July 1, 2018 or greater than June 30, 2019 it does not fall within the appropriate year. The enrollment itself indicates the year. To view what was sent, click the "SIF XML" link and find "ExitDate" and "SchoolYear." To correct, enter a date that falls within the fiscal year for this enrollment.

901710148	StudentSchoolEnrollment	Override	ExitType/OtherCode is invalid.	Normal	The ExitType/OtherCode further describes the exit of a student. Typically, this code will be NA (Not Applicable) for almost all students which can be the default code for any exit. There are times when other possible codes will apply. These are graduated students, end of school year exits, and if the student dies or is permanently incapacitated. If your student exits and the reason for the exit is graduated, we must receive a code (HS2, HS3, HS4, HS5, HS6) indicating the number of years it took for the student to complete High School. HS2 refers to 2 or less years. HS6 refers to 6 or more years. If your system supplies an exit code of 1923 indicating a student who has died or who is permanently incapacitated, an additional code is required to differentiate between the two. The ExitType_OtherCode in this situation must be either 1923D indicating the student has died or 1923P indicating the student is permanently incapacitated. If your system supplies an ExitType_OtherCode of ESY (end of school year), then the Exit Code supplied with that must be 3505 (Exited).
901710149	StudentSchoolEnrollment	Override	ExitType/OtherCode was not provided.	Normal	The ExitType/OtherCode describes the exit of a graduating student in further detail or the exit at the end of the school year. Typically, this code will be NA (Not Applicable) for almost all students. The only exceptions would be if the exit is the result of the student graduating. At that point this code should reference the amount of time it took the student to graduate. Or the exit refers to end of the school year. Refer to Section 7.14 in the 2.x Wave Requirements document for the full list of codes and descriptions. Since this code is listed as "not provided", it is likely you will need to contact your student information system vendor for assistance in correcting how this code is being sent.

901710150	StudentSchoolEnrollment	Override	ExitType_Code was not provided.	Low	*The Wave* has received an Exit Date for this student, but the reason why the student exited, which refers mainly to where the student went, has not been provided. Please provide the Exit Code for this enrollment. Section 7.11 in the 2.x Wave Requirements Document provides a list of acceptable Exit Codes and their descriptions.
901710151	StudentSchoolEnrollment	Override	ExitType_OtherCode record was not provided.	Normal	The attribute record ExitType/OtherCode was not provided. The ExitType/OtherCode describes the exit of a graduating student in further detail or the exit at the end of the school year. Typically, this code will be NA (Not Applicable) for almost all students. The only exceptions would be if the exit is the result of the student graduating. At that point this code should reference the amount of time it took the student to graduate. Or the exit refers to end of the school year. Refer to Section 7.14 in the 2.x Wave Requirements document for the full list of codes and descriptions. Since this code is listed as "not provided", it is likely you will need to contact your student information system vendor for assistance in correcting how this code is being sent.
901710152	StudentSchoolEnrollment	Override	FTPT Status was not provided.	High	The FTPT Status (Full Time Part Time Status) indicates whether or not a Pre-Kindergarten or a Kindergarten student is Full Day or Half Day for reporting purposes. For this student, the FTPT status has not been supplied. To correct, locate the place in your student information system where Full Day and Half Day is indicated and mark appropriately.

901710153	StudentSchoolEnrollment	Override	EntryDate was not provided.	Critical	The Student School Enrollment describes a student's enrollment in a particular school. The date the student entered was not provided for this enrollment. In your local student information system, please ensure that an entry date exists for each of the enrollments you have for this student.
901710154	StudentSchoolEnrollment	Override	ExitDate before EntryDate.	Normal	According to the data received, the day the student exited this school took place before the student enrolled at this school. This is not possible.
901710159	StudentSchoolEnrollment	Override	SchoolOfMembership code is invalid.	Normal	The SchoolOfMembership code is the concatenation of the county, district, and site code where this student's membership should be recorded for funding purposes. This warning indicates that the SchoolOfMembership code being supplied does not reference a valid accredited county/district/site code. Almost all students are reported to *The Wave* associated with their accredited school. The school the student is enrolled in is the accredited school the student will be reported through. As such, for most students, this "School of Membership" code will be exactly the same as the school the student is enrolled. The exception occurs when a student is attending a school, but that school is not the one that will claim their membership and attendance. In that instance, the School of Membership Code would reference another school in the district or possibly another school in another district allowing *The Wave* to appropriately apply the membership and attendance to the other school.

					Here is an example of how this code is utilized: A special education student being served through an IEP service agreement. District A is responsible for the Student and receives the membership and attendance state aid for this student. District B is the school that is educating the student. The student is located inside of District B's student information system. It is completely acceptable for both District A and District B to report this student to *The Wave* through their local student information student as long as the EntryType/Other Code (Basis of Admission) codes are correct. In this instance, District A would have a Basis of Admission code of R-Resident. District B would have a Basis of Admission code of IEPSA - IEP Service Agreement. If District A does not have the student recorded in their local student information system and only District B is reporting the student to *The Wave*, *The Wave* would see the Basis of Admission code of IEPSA and would know that the membership and attendance reported does not belong to District B, but would not know which district to apply that membership and attendance to. The School Of Membership code would provide that resource. District B would supply District A/School A in the School Of Membership Code. *The Wave* would apply that membership and attendance to District A providing the opportunity for them to review and accept that membership and attendance as accurate

902010022	TermInfo	Override	TermSpan_Code is invalid.	Normal	You are receiving this warning because the TermSpan provided is invalid. The TermSpan Code is a code that indicates the type of term. 0827 – Full School Year, 0828, Semester, 0829 – Trimester, 0830 – Quarter, 0831 – Quinmester, 0832 – Mini-Term, 0833 – Summer term, 0834 – Intersession, 0835 – Long session, 0837 – Twelve month, 9999 – Other. Your system may not contain these exact codes, but should have a location for you to indicate the type of term. This is NOT the same as a description of the term such as "S1" or "Semester 1." Correct by indicating the type of term. If you do not have a location to indicate this information in your local system, contact your Student Information System vendor for help.

902010024	TermInfo	Override	TermInfo Description was not provided.	Normal	The TermInfo Description is a locally defined description of the term you have created. For example, you may have set up a one semester term at the beginning of the year and you have decided to call that term "Semester 1" or "S1". The term description is required to be supplied as *The Wave* will use that information on various reports to display term information back to you in a way you will understand since it is locally defined. In your local system, find the place where you set up your terms (semester, quarter, trimester, etc.) and fill in the "name" or "description" of the term. **Note**: If you are on block scheduling, be sure the word "block" appears somewhere inside of your description.
902010025	TermInfo	Override	MarkingTerm was not provided.	Normal	The TermInfo object provides information related to the various terms a school has for grades, schedules, and attendance. It provides information about the start and end dates of semesters, quarters, trimesters, etc. It also contains three indicators (MarkingTerm, SchedulingTerm, and AttendanceTerm) which define whether or not this Term is applicable to grades, schedules and/or attendance. All three are required to be indicated with either a "Yes" or a "No". You are receiving this warning because the indicator "MarkingTerm" was not provided for this Term. There is no way to define whether it is a Marking (grades) Term or not. Verify that information related to Terms is set up correctly in your local Student Information System and/or work with your Student Information System vendor to ensure this element is being sent to *The Wave*.

900710031	SchoolCourseInfo	Warning	InstructionalLevel is invalid	Normal	The InstructionalLevel supplied for this course is invalid. It is invalid because the code being sent for this course record does not align with the acceptable course codes for that level of instruction. For example, if you are sending an InstructionalLevel code of 0575 (Advanced Placement), but the StateCourseCode being sent is not an AP course then this warning will appear. Below are the valid list of codes: 2535, 2536, 2815, 2816, 2838, 2839, 3055, 3115, 3125, 3135, 3165, 3167, 3180, 3190, 3191, 4010, 4057, 4615, 4616, 4760, 5035, 5055, 5121, 5215, 5216, 5217, 5415, 5525, 5526, 5545, 5546, 5645, 5735, 5736, 5790, 5213, 5214, 5560, 5561 *The codes above may vary from year to year.
901710010	StudentSchoolEnrollment	Warning	GradeLevel does not align. Changed for clarity: GradeLevel_Code does not align for site.	Normal	The GradeLevel does not align. The GradeLevel must be supplied and it must be a valid grade span for the accredited site where the student is enrolled
901710024	StudentSchoolEnrollment	Warning	ExitDate was not provided	Normal	The last day of instruction for your site has passed and an ExitDate has not been provided for the student. A student with this error will not populate the Annual Statistical Report (ASR) for State Aid.
901710162	StudentSchoolEnrollment	Warning	ExitType/Code is invalid	Normal	One week has passed since the last day of instruction for your site and a valid ExitType/Code has not been provided for the student. "1931" and "3502" are temporary exit codes and should not be used to indicate the final exit of a student. A student with this error will not populate the Annual Statistical Report for State Aid.

901710163	StudentSchoolEnrollment	Warning	ExitType/Code was not provided	Normal	It has been one week since the last day of instruction for your site has passed and an ExitType/Code has not been provided for the student. A student with this error will not populate in the Annual Statistical Report (ASR) for State Aid.
901610194	StudentPersonal	Warning	ELL and Bilingual do not align.	Normal	The two fields ELL and SIF Extended Element_Bilingual must match. The valid values are either "yes" or "no." For example, if a student is ELL and is marked in your student information system as "yes", then the Bilingual SIFExtendedElement must also be "yes."
901610195	StudentPersonal	Warning	Bilingual does not align with EnglishProficiency/Code and EnglishProficiency/OtherCode List.	Normal	The possibilities for the SIF Extended Element_Bilingual are either "yes" or "no." The possibilities for EnglishProficiency/Code are "1633", "1634", "1636", "2349", and "9997". The possibilities for EnglishProficiency/OtherCode are "01", "02", "03", "04", "05", "06", and "NA". If a value of "yes" was provided for the student's Bilingual indicator, you are receiving this warning message for a few possible reasons. 1. An EnglishProficiency/Code other than "1634", "2349", or "1636" was provided. 2. An EnglishProficiency/Code of "1636" was provided, but the EnglishProficiency OtherCode received was not "01", "02", or "05". These values must align. Please make the corrections in your student information system.

901610192	StudentPersonal	Warning	GraduationDate does not align with ExitType/Code.	Normal	A GraduationDate was supplied for your student, but the ExitType/Code provided does not indicate that the student has graduated. If a graduation date was provided or the student has graduated, then the exit code should be "1921". If the student has not graduated, please delete the graduation date from your system.
901610198	StudentPersonal	Warning	Homeless and HomelessMcKinneyVento do not align.	Normal	The two fields Homeless and HomelessMcKinneyVento must match. You must indicate either "yes" or "no." For example if a "no" was supplied for a student's Homeless indicator then a "no" must be supplied for the student's HomelessMcKinneyVento indicator
901610172	StudentPersonal	Warning	HomelessMcKinneyVento does not align.	Normal	A yes was supplied for a student's HomelessMcKinneyVento indicator but according to the Office of Federal Programs, your district did not receive a McKinney Vento sub-grant. Without this grant, no student in your district should have HomelessMcKinneyVento marked as "yes." The HomelessMcKinneyVento indicator for this student should be changed to "No."
901610125	StudentPersonal	Warning	Homeless and HomelessPrimaryNightTime Residence do not align.	Normal	The valid values for Homeless are either "yes" or "no." The valid values for HomelessPrimaryNightTimeResidence are "SHL", "DBL", "UNS", "HTL", or "NIH". If your system supplied a value of "yes" for the homeless indicator and "NIH" for the HomelessPrimaryNightTimeResidence then these values do not align. If Homeless is "Yes", then a HomelessPrimaryNightTimeResidence code of "SHL", "DBL", "UNS", or "HTL" should be supplied. This can be corrected in your student information system.

901610126	StudentPersonal	Warning	HomelessPrimaryNightTime Residence was not provided.	Normal	If a yes was supplied for a student's Homeless indicator then you are receiving this error because the HomelessPrimaryNightTimeResidence was not provided. Verify that the student should be marked as homeless. If yes, modify the HomelessPrimaryNightTimeResidence indicator in your student information system. The valid values for HomelessPrimaryNightTimeResidence are "SHL", "DBL", "UNS", "HTL", or "NIH".
901610174	StudentPersonal	Warning	Homeless does not align with HomelessUnaccompaniedYouth .	Normal	If a yes was supplied for a student's HomelessUnaccompaniedYouth indicator then you are receiving this error because the Homeless indicator was marked "no". Verify that the student should be marked as homeless unaccompanied youth. If yes, modify the homeless indicator to "yes" in your Student Information System.
