

2015 Joint Federal Programs Summit

OKLAHOMA
STATE DEPARTMENT *of* EDUCATION

Nkemjika Ofodile

Education Program Specialist, U.S. Department of Education

Our keynote speaker today is Nkemjika Ofodile, Education Program Specialist with the U.S. Department of Education. Currently, Ofodile works directly with two states to support their implementation of multiple education programs. She works to develop knowledge of each state's education reform agenda, key actors, political context, state education agency capacity and past and current performance. Gaining an understanding of the goals and requirements of each federally funded program and participating in conversations with not only the state staff and other external groups helps to be able to analyze state implementation plans and provide technical assistance to support implementation.

Ofodile has thirteen years of creating and maintaining successful and communicative stakeholder relationships in education. As a professional teacher leader, she has helped students attain scholastic achievement through direct student led, instruction founded upon standards-based content. Her passion for equitable education manifests itself within her dissertation, which is focused around the topic of culturally relevant curricula and instruction.

Ofodile earned her BA in Communication and Media Studies from the University of Pittsburgh, MSA in Educational Leadership and Administration from Trinity University-Washington, and will receive her Doctorate of Education from Howard University in Education Policy this year.
