# Transfers

- Districts can extend existing transfers. The process began on May 1<sup>st</sup>.
- Any transfers in your transfer queue that have not been finalized by June 30<sup>th</sup> will be deleted from the transfer system and the parents will have to reapply.
- Districts will need to report capacity numbers between 15 days prior to any quarter and 15 days after the start of the quarter.

# Virtual District Transfers

- All virtual districts entries must have a virtual transfer started on them.
- This ensures that OSDE can meet statutory requirements to ensure student mobility in and out of virtual charters is no more than 2 transfers into virtual charters per school year.
- This new transfer statute has been in effect since July 1, 2021.

# P-EBT

- Accountability Reporting data is available to review for SY 2021 and 2022.
- Reviewing and correcting the data for FY 2022 will save a lot of time later.
- The DVR process is coming soon for SY20-21. Once that has been completed, we will work with others within the agency to determine when the SY21-22 DVR will be available for data correction.
- It would be in the best interest of each district to review FY22 data and make any corrections that are needed, now. Corrections for FY22 data can be made in your SIS.

# Rollover to 2022/2023

- The Wave will be down from July 11<sup>th</sup> to July 22<sup>nd</sup>.
- Rollover should be completed and back up on July 25<sup>th</sup>.
- Prior to doing a SIF agent rollover put your zone to sleep. If you are having issues putting your zone to sleep you can reach out to your vendor or contact [studentdatainfo@sde.ok.gov](mailto:studentdatainfo@sde.ok.gov) for assistance.

# Medium of Instruction 2022/2023

- Each section in your system should identify and include the students based on the type of instruction they are currently receiving.
- This means each section should have a virtual class and a brick-and-mortar class, when applicable.
