

# Presenter Sound Check

You should be hearing me talk right now. If not, check the speakers on your computer. Make sure they are turned up and not muted. If they are fine, look at the top of your screen for the “Communicate” link. Click that and select to enable integrated voice conference. If that still doesn't work, leave the WebEx and then sign back in.

Be sure to select "yes" to connect by computer.

If that does not work, you should be able to use the telephone connection.
