

A – F REPORT CARD PREVIEW

February 3, 2014

Timeline For A – F (Tentative)

- Due Dates
 - Historical Cohort (May 28)
 - Attendance (June 11)
 - Advanced Coursework (July 3)
 - Post-code correction (July 3)
 - OAAP correction (July 14)
- Report Card released to districts on Aug. 18

A – F Documentation

- A – F technical guide is now available on the website (<http://ok.gov/sde/f-grading-system>)
- More documents will be released in the near future
 - A – F guide for Educators, Parents, and Stakeholders
 - A – F Programmer's Calculation Guide
- Further in the future
 - Revised AMO and designation guides

Major Changes from Last Year

- NFAY
 - Definition has changed from “within the first 10 days” to “Oct. 1”
 - Status will be calculated by SDE and available for verification during the post-code correction window
- Second Time Tests
 - SDE will automatically mark any ones that we can identify
 - You will still need to mark some (e.g., transfers, any we could not match to previous records)

Major Changes from Last Year

- No More OMAAPs
 - Students who took OMAAP in 2013 will not be included in Student Growth
 - No more 2% OMAAP cap
- Social Studies and 8th Grade History will return to the Performance Component.

Major Changes from Last Year

- 8th Grade EOIs
 - Middle school students enrolled in Algebra I, Geometry, and Algebra II will take the proper EOI but not the Math OCCT.
 - Middle school students in high school History, English, or Biology will still have to take both the EOI and OCCT.
- How does this affect the growth component?
 - For reading, we will still use OCCT to OCCT (current grade to previous)
 - For math, we will pair the Algebra I EOI to the previous year's grade level OCCT.

Additional Changes

- Districts will not receive bonus points
- Ties for the bottom 25% will be broken by including students who qualify over students who do not.
- The year-to-year growth bonus point will be calculated.

- Future A – F webinars will provide more details about the A – F Report Card.
- Questions???
