NAME OF WAIVER

A. Reason for the waiver/deregulation request (be specific).

Erick Public Schools had a Library Media Specialist resign at the conclusion of the 2020-2021 school year. Erick Public Schools has advertised the opening on the OSSBA job board, discussed the possibility of any current employees who would want to be the library Media Specialist and called school districts across the state in search of a Library Media Specialist. The district has not been able to locate a certified Library Media Specialist for the 2022-2023 school year. The district currently has less than 221 students enrolled for the 2022-2023 school year.

B. list alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

The district has two full time para professionals who have worked for the district for 6 plus years in both of the districts libraries. Both of the library para professionals have been trained by the former Library Specialist. There is a full time library para professional in the junior high/ high school library and a full time library para professional at the elementary school. The libraries on both campuses will follow the procedures that were established by the former Library Media Specialist. The former Library Media Specialist has agreed to consult with the para professionals throughout the 2022-2023 school year.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

With the library procedures that have been established and will be followed during the 2022-2023 school year there is not an expectation that there will be negative educational impacts for students.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions.

A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

The elementary and junior high/high school libraries will be operated from 7:45 a.m. through 3:05 p.m. Monday - Friday.

The elementary library will be supervised and instructionally operated by Cara Allen.

The junior high/high school library will be supervised and instructionally operated by Randi Leach.

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

The district will not experience a negative impact regarding the waiver/deregulation period. We will save money in salaries which in turn may be invested back into our libraries. In addition, planning for library improvements will be made easier with a 3 year deregulation.

F. Describe method of assessment or evaluation of effectiveness of the plan.

The principals at both the elementary and high school will monitor the library and ensure that all established procedures will be followed for SY23, SY24, and SY25. The libraries will be evaluated throughout the year by the school administrator.

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

The district is requesting the deregulation for staffing of Library Services at the five school sites. As district librarians have retired, we have had no staff members pursue Library Media Specialist credentials. The district still employs two full-time librarians and one full-time library aide at each of the five sites. In addition to the scarcity of available library media specialists, we have determined that the need for a full-time librarian at each site is not only cost-prohibit, but is also not the best use of our resources that will best serve our students and their educational needs.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Each of the five libraries have a full-time library assistant that hold highly qualified paraprofessional status. Three of the five also hold college degrees. The district will also utilize the two full-time librarians - housed in 1-3 building and the 4-5 building - to oversee the five libraries. The two librarians will assist with scheduling, assist with necessary resource purchases, and to teach the library media classes determined to be essential and appropriate for students at each of the sites. All five sites will continue to have full-day access for both students and staff. The scheduling in the libraries includes the classroom teachers working collaboratively with the library assistants and librarians to work on projects, locate resources and materials, and to assist students in class assignments.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Student and school performance levels will continue to be held accountable to meet any and all state standards associated with library media skills. With the implementation of Literacy across the curriculum being utilized across the district, an emphasis will continue to be placed on integrating literacy into all of the content areas. The collaboration of personnel will help to ensure that all standards are met throughout the grade levels.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

August 11, 2022 to May 18, 2023

All District Libraries open to all students and staff

Daily Hours of Operation at all five sites will be from 7:30 a.m. -3:15 p.m.

Weekly collaborative meetings with library assistants, librarians, and principals at all five sites will ensure full use of the media centers and resources.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The financial impact to the district will only be reflected in the absence of the retiring library media specialist salaries. The district will continue to utilize general fund monies to continue to provide up to date resources and computer and internet access at all five libraries.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The staff at all five sites and at the district level will continue to monitor student progress on common assessments, district benchmark assessments, and OSTP required assessments to ensure that the program remains effective for all students enrolled at the five sites. Students are expected to score proficient on the assessments as they relate to all state standards.

Ms. Barr,

Anadarko Public Schools is submitting a request for deregulation of Library Services: OAC210:35-5-71, OAC210-35-7-61, and OAC210:3509-71. The deregulation request is for Sunset Elementary, Site 115; East Elementary, Site 105; Mission Elementary, Site 120; Anadarko Middle School, Site 510; and Anadarko High School, Site 705.

The district still employs two full-time certified librarians. Each of the five site's libraries also has a full-time library assistant that holds highly qualified paraprofessional status. The district will also utilize the two full-time certified librarians - housed at the 1st - 3rd building and the 4th - 5th building - to oversee the five libraries. The two librarians will assist with scheduling, assist with necessary resource purchases, and will teach the library media classes determined to be essential and appropriate for students at each of the sites. All five sites will continue to have full-day access for both students and staff. The scheduling in the libraries includes the classroom teachers working collaboratively with the library assistants and librarians to work on projects, locate resources and materials, and to assist students in class assignments.

In addition to the scarcity of available library media specialists, we have determined that the need for a full-time librarian at each site is not only cost-prohibitive among the recurring budget cuts, but is also not the best use of our resources that will best serve our students and their educational needs at this time.

Thank you for your consideration. Please contact me if there are any questions.

Respectfully,

Jerry McCormick,

We staffed the library that serves our district with a support staff member upon retirement of our Library Media Specialist. We again advertised the vacancy of this position for the 2022-2023 school year, but we have had no applicants. As a district, we understand the benefits of a Library Media Specialist.

If our deregulation request is denied our district will need to change the assignment of a current classroom teacher to begin alternative certification for the area of Library Media Specialist. This will result in larger class sizes for the affected students.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

In our alternative plan, the library that serves our Pre-K through 12th grade students will be staffed with a full-time library assistant who had experience working in our library. Classroom teachers will also accompany students while in the library. Elementary school self-contained classrooms will have scheduled visits to the library once per week with students also allowed to visit the library as needed. Middle school and high school students will visit the library during reading or language arts classes. We will continue our successful reading incentives program, which will be managed by classroom teachers with assistance from the library assistant.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, our district received this deregulation last year. No negative impact has been observed. We have been focused on making gains in the area of reading, and we have seen positive results in our formative assessments and in our state testing program results.

Student research will continue in the library. Students will continue to check-out books, read for enjoyment, and be allowed to study in the library. Elementary classes will follow the same schedule as in the past, and we will have weekly visits when the library assistant will read aloud to them. The library will continue to be available for Accelerated Reader testing and quizzes, although most of this is done on electronic devices in the classroom.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Beginning the first day of school, the assistant will be assigned to the library on a full-time basis. The library will be open from 8:00 AM to 3:30 PM. The staffing of the library will be evaluated at the end of the school year.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

By staffing the library with an assistant rather than a certified library media specialist, our school district will save approximately \$24,600.

The difference in costs will be used to purchase library books, pay subscription fees for digital book access for students, fund our reading incentive program, and pay for online reading assessment, reading remediation, and reading enrichment programs.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

At the end of the 2022-2023 school year, teachers and students will be surveyed to assist in determining the effectiveness of having an assistant in the library instead of a certified library media specialist, and to identify possible improvements in library operations. We will also compare our state testing program reading scores and Accelerated Reading reports to those of previous years to identify areas, especially reading and language arts, that could be impacted by the absence of a Library Media Specialist.

To the Oklahoma State Board of Education:

Hydro-Eakly Public Schools (08-I011) requests deregulation from Oklahoma Administrative Code 210:35-5-71, OAC 210:35-7-61, and OAC 210:35-9-71 (Library Media Services) for the elementary, middle school, and high school sites, respectively, which are all served by the same library.

We advertised our Library Media Specialist position this year, but had no response. We understand the educational importance of a library program managed by a certified librarian. However, we plan to staff the library with a full-time library assistant who will work closely with classroom teachers and administrators to continue an effective library program. We have purchased an online library subscription for each of our Pre-K through 8th Grade students.

Thank you for considering this request.

Sincerely,

Jeremy Bussey, Superintendent

NAME OF WAIVER Services

*Original signatures are required. The attached questionnaire must be answered to process.**

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Due to the quality of candidates that applied for the MS or HS Library Media Specialist (LMS) position, Noble HS and Curtis Inge MS are requesting to share a full-time librarian. To assist with this, both schools will employ a full-time library assistant. At the time of the hiring of the MS/HS LMS, we only had 3 submitted applications for the MS, and 6 submitted for the HS. Of the 3 at the MS, only the one that we hired had credentials for the position. Of the 6 at the HS, only the one that we hired had credentials for the position. The LMS that we hired has 20 years experience working for public libraries, holds a masters in Library and Information Studies, and has applied for the alternative certification program.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Our goal is to continue to provide our students and teachers with access to the library resource program. We plan to hire a full-time library assistant for both school sites that will allow the library to always be available to students and teachers. We will also continue to post future positions for a Library Media Specialist with hope of finding quality candidates. The negative impact if this waiver is denied is putting an unqualified person to oversee an integral part of the school such as the library. We do not want to lose traction or students' interest in the library due to an unqualified person.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

In 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021, Noble HS and Curtis Inge MS were awarded this deregulation. During that time span, there were no negative educational impact on the students, as both libraries were operational with a shared librarian, and two librarian assistants. For the 2021-2022 School Year, Noble HS and Curtis Inge MS both hired two certified librarians. One retired and the other moved to another position within the district. For the 2022-2023 School Year, Noble HS and Curtis Inge MS are both requesting the deregulation due to lack of qualified candidates and the prior years lack of negative educational impact.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

The continued sharing of a librarian will not affect the school calendar or class schedules since both sites will employ full-time library assistants.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The district will continue to save funding through the employment of a shared librarian. This will continue to operate in our most financially responsible position at this time.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The district will constantly evaluate the use of the library and the effect of a shared librarian between the two schools. We do not expect a loss in the use of the library, nor in any academie assessed areas due to the shared librarian.

RE: Deregulation for OAC 210:35-7-61

To Whom It May Concern,

I am writing to request a deregulation for OAC 210:35-7-61. This request is necessary due to the quality of candidates that applied for the MS or HS Library Media Specialist (LMS) position. At the time of the hiring of the MS/HS LMS, we only had 3 submitted applications for the MS, and 6 submitted for the HS. Of the 3 at the MS, only the one that we hired had credentials for the position. Of the 6 at the HS, only the one that we hired had credentials for the position. The LMS that we hired has 20 years experience working for public libraries, holds a master's in Library and Information Studies, and has applied for the OKSDE Alternative Certification Program. From 2016 through 2021, the district has been sharing a full-time librarian across Curtis Inge Middle School and Noble High School. For the 2021-2022 school year, Noble had hired a full-time librarian for Curtis Inge Middle School and one for Noble High School. Due to one retiring and the other moving to a different position within district, we had posted with the goal of hiring for both school sites. To help offset the time of a shared full-time librarian, we will be hiring full-time library assistants for both school sites. This decision will allow us to offer more high-quality library media services and programs to our students and teachers, without placing an unqualified person to oversee one of the libraries. Upon conclusion of the 2022-2023 school year, library services will be evaluated to determine the need for this request for subsequent school years. Thank you for your time and consideration.

Respectfully,

Frank Solomon

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Tupelo Public Schools request a Library deregulation wavier for the 2022-2023 school year. We do not current have a certified librarian on staff. With a total K-12 enrollment of 242 students, we feel our resources will be better served supporting other programs in our school. With the small enrollment, we feel we can serve our students above and beyond with a full-time library aide instead of paying over \$50,000 for a certified librarian.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Tupelo school will employ a full-time library aide that will serve the library on a full-time basis. This will ensure the library is available to all students K-12 throughout the entire school day. Mrs. Dana Johnson is once again our library aide and she has served in that capacity for many years now. She has a passion for reading and for coming up with creative ways to get students involved in reading and checking out books. She has also installed an online check out system for our students to check out books 24 hours a day 7 days a week on their electronic devices. Mrs. Johnson only serves our district as the library aide during school hours, meaning she does not wear other hats that would keep her from dedicating her full attention to the Tupelo library.

If this regulation were denied it would cost the district around \$50,000.00 to staff the library.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, this deregulation has been awarded before. The educational impact on the district has been positive as the library aide Mrs. Jonson and the teachers work hand in hand at making the library a daily part of our academic instruction. We feel that our library contributes to our students academic enhancement and reading improves their reading grade equivalent. Because we are such a small district, total 242 students K-12, we feel there has been no negative impact on either of our school sites. I expect our library to continue to serve our students just a well with Mrs. Dana Johnson in charge of our Library as it would if we had employed a certified librarian.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Class Schedules calendars Attached:

1st hour 8:00-8:50 Library Open

2nd hour 8:54-9:44 Library Open

3rd hour 9:48 -10:38 Library Open

4th hour 10:42 to 11:32 Library Open

5th hour 11:36 to 12:25 Library Open Lunch 12:25-1:00 Library Closed

6th hour 1:05-1:55 Library Open

7th hour 1:59-2:49 Library Open

AVID time: 2:53 to 3:05 Library closed

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The financial impact if approved would be positive because we will use the money not having to pay a certified librarian to pay for online programs used in the library, Follett shelf Open E-Books, IXL, Accelerated Reading, and Edmentum. We will also use state allocated funds to purchase and maintain items that will continue to keep our library up to date with the most current materials needed for a library conducive to improve reading scores and expanding student knowledge of all subjects.

Of course, the negative impact would be not being able to pay for additional resources and having to pay \$50,000.00 to a certified librarian.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Principals will monitor teachers and check with Mrs. Johnson, the library aide, to make certain the library is being utilized as it is intended to improve and expand reading skills and knowledge. Accelerated Reading, RSA, IXL, Edmentum and STAR testing, and state mandated achievement test scores will be used to assess that student progress is being monitored, evaluated and adjusted to meet district reading goals. As well as ensuring that student progress is being maintained at the highest possible level.

** You will be contacted if more information is needed to process this request.

NAME OF WAIVER

A. Reason for the waiver/deregulation request (be specific).

AB Public School is requesting a waiver of our single site Library Media Services for school year 22-23(OAC 210 35-5-71 OAC 210 359-71). We currently have a waiver on file and the library is staffed for a full day with an experienced paraprofessional. We have found no suitable applicant to fit our needs.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

The library will be staffed all day with a qualified paraprofessional that has been in the library full time during the 22-23 school year. She will be supervised by Superintendent. The library will be accessible and open to students at all times. Allowing library access to our students will greatly benefit the learning of all students.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Approval of the waiver will allow us to staff our library with Rhonda Scott who has many years of library experience. She does an outstanding job with our students in the library. We believe that the services she provides has a positive impact on the performance levels of our students. We have seen no drop off of student performance during her tenure in the library.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions.

A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

The timeline for staffing our library with a certified LMS will be determined by 2 things. First, our budget, by saving a salary on this position, it may allow us to keep additional classroom teachers. Secondly, the ability to find a suitable certified applicant. We will continue to advertise the position and if a suitable replacement can be found, they will be considered.

The library will be staffed and available for students throughout the normal school day.

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

The waiver will have a positive impact on our district due to the fact we will be saving the cost of a certified teacher. The saved funds will be allocated toward Covid Learning loss and additional educational opportunities for our students.

F. Describe method of assessment or evaluation of effectiveness of the plan.

The Superintendent will meet with Ms. Scott on a regular basis as well as supervise the library on a daily basis. The program will undergo constant assessment and evaluation. We will ensure that the needs of our students is being met through our library program.

To Whom It May Concern:

Arapaho-Butler Public Schools would like to formally request a statutory/waiver/deregulation for Library/Media Services for school year 2022-2023 for our single site library (OAC 210:35-5-71 & OAC 211:35-9-71) We are requesting the waiver based on two factors, 1) since the position has been advertised, we have received no suitable applicants, 2) it will help with our school budget for school year 22-23. The library will be under the supervision of the Superintendent and will be staffed full time by one of our current paraprofessionals, Rhonda Scott. Rhonda has many years of library experience. The library will be open and accessible to our students at all times. Thank you for your consideration.

Sincerely,

Jay Edelen, Superintendent

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Due to budget cuts, Middleberg is requesting to staff our library with a qualified library aide. We have one library that serves 229 students.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.
Middleberg Public School currently employs a qualified library aide and has a retired librarian who is willing to assist the library aide with any problems or questions she may have.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?
Our library has been updated with the latest technology, as well as the purchase of new books yearly. Middleberg recognizes the importance of maintaining a well-organized and up-to-date library. Middleberg also believes that with the library's strong infrastructure and the returning of the qualified aide, our library's availability and importance will not be diminished.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.
See attached schedules

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

Granting Middleberg this de-regulation would save our district at least \$12000 per year. We would then put these funds into other uses such as but not limited to purchasing student curriculum, student technology, and classroom supplies.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Reading scores would be evaluated quarterly by our teachers to indicate any problems or trends. We would also survey our parents to determine any problems that might now be known to our staff.

** You will be contacted if more information is needed to process this request.

Dear State Board of Education,

The purpose of this letter is to request a waiver/deregulation for Statute/Oklahoma Administrative Code 210:35-5-71. Due to budget cuts, Middleberg is requesting our library be staffed with a qualified library aide. We have one library that serves 222 elementary students. We currently employ a qualified library aide and we have a retired librarian who is willing to assist the library aide with any problems or questions she may have. Our library is updated with the latest technology and we recognize the importance of maintaining a well-organized and up-to-date library. Granting this waiver would save our district over \$12,000 per year. We evaluate our reading scores quarterly to indicate any problems or trends.

Sincerely,

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Ninnekah Public Schools is a small, rural school district that has had a recent decline in enrollment. A full time media specialist would be difficult to fund as well as difficult to find in our area. However, the school district finds educational value in proper use of the school library and has a full time assistant to maintain library services for our students. Denial of this waiver would limit the time and services available to the students of our school district through the school library.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Students will have access to read books, learn to research, do independent study and actively engage in the learning process. The library/media center will be open to students daily during school hours.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Ninnekah Public Schools has been through many changes in recent months. The administration is committed to reviewing all aspects of our school district to focus on student success. The library media center is one piece of what is needed to provide students with an opportunity for success. It is believed that this waiver has been granted in the past.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

See Attachments

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The approval of this deregulation will allow the students to have a library available all day each school day with an assistant. Teachers will be expected to utilize the library with students as well. The savings from this deregulation will help to fully staff classrooms.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Library use will be evaluated in multiple ways such as reflected in the TLE for teacher use of the library with students; library circulation numbers; ACT scores and more.

July 21, 2022

To Whom It May Concern;

Ninnekah Public Schools is committed to student success. The school district is within a small, rural area with limited resources and would struggle to employ a full time librarian for all sites. As a remedy, Ninnekah Public Schools is requesting a statutory waiver for Ninnekah Elementary School to be able to employ a full time assistant to staff the school library. The library would be open each school day for the duration of the school day.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Ninnekah Public Schools is a small, rural school district that has had a recent decline in enrollment. A full time media specialist would be difficult to fund as well as difficult to find in our area. However, the school district finds educational value in proper use of the school library and has a full time assistant to maintain library services for our students. Denial of this waiver would limit the time and services available to the students of our school district through the school library.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Students will have access to read books, learn to research, do independent study and actively engage in the learning process. The library/media center will be open to students daily during school hours.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Ninnekah Public Schools has been through many changes in recent months. The administration is committed to reviewing all aspects of our school district to focus on student success. The library media center is one piece of what is needed to provide students with an opportunity for success. It is believed that this waiver has been granted in the past.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

See Attachments

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The approval of this deregulation will allow the students to have a library available all day each school day with an assistant. Teachers will be expected to utilize the library with students as well. The savings from this deregulation will help to fully staff classrooms.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Library use will be evaluated in multiple ways such as reflected in the TLE for teacher use of the library with students; library circulation numbers; ACT scores and more.

** You will be contacted if more information is needed to process this request.

NINNEKAH PUBLIC SCHOOL

904 E. DELL NINNEKAH OKLAHOMA 73036

July 21, 2022

To Whom It May Concern;

Ninnekah Public Schools is committed to student success. The school district is within a small, rural area with limited resources and would struggle to employ a full time librarian for all sites. As a remedy, Ninnekah Public Schools is requesting a statutory waiver for Ninnekah Middle and High School to be able to employ a full time assistant to staff the school library. The library would be open each school day for the duration of the school day.

Thank you,

NAME OF WAIVER

A. Reason for the waiver/deregulation request (be specific).

Stidham School's Reading Coach will be teaching classes in the central library. She and an assistant will help the students choose and reshelv the library books.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

The teachers have all been trained in the Atrium Library System. They will accompany their students and advise them on their choices to coincide with the Lexile and AR level reading assignments.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Stidham School is a one school district. All teachers are together in one building and will be involved in their students reading assignments and choices of free reading times.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions.
A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

Three school years.

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

Budget cuts are forcing our district to save in all areas. The waiver will save the cost of an additional salary. Due to the budget constraints we have to utilize the certified teachers we have. We have 4 teachers for Pre-K through 5th and 3 teachers for 6th through 8th grades. These teachers will accompany their student's to the library. The aide that we have in the library will check out re-shelve the books under the direction of the certified staff.

F. Describe method of assessment or evaluation of effectiveness of the plan.

The superintendent will evaluate and advise the staff to ensure student success. She maintains an open door policy and is involved in all levels of instruction at Stidham School.

** You will be contacted if more information is needed to process this request.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Due to reassignment of personnel resulting from resignation of our previous librarian, our existing part-time librarian has been assigned to cover an elementary class preventing her from being stationed in the library for the half day.

The librarian is still available before, after, and during school as necessary to oversee the operation of the library and will be compensated for such. An experienced library aide has been assigned to assist in the library for the duration of the school day.

OAC 210:35-5-71 and OAC 210:35-9-71 (Library is shared between sites.)

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

The alternative plan which the site proposes is utilizing the librarian in both the library and as a classroom teacher. The librarian is a certified elementary teacher with 14 years of classroom experience.

This plan allows our students the opportunity to have an exceptional elementary teacher and a creative librarian who makes the library an inviting facility of learning.

Students will in no way be restricted access to our library, and having a full-time aide in the library will also make the library more accessible. Formerly, the librarian taught a few classes in the library which restricted usage. This plan provides improved access to the library and its resources.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, the deregulation has been awarded before. Deregulation has allowed the library to now be available during the full day versus part-time.

The librarian has a history of high achievement on STAR, DIBELS, and other reading assessments. Utilizing her in the classroom helped the elementary drastically in the middle of a teacher shortage. Finding another teacher of her quality would be impossible.

f

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

The library is manned from 7:45 AM until 3:30 PM by the full-time library aide. The certified librarian comes to the library 7th period to confer with the aide as needed as well as before and after school.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The proposed deregulation of library media services has a positive financial impact by preventing the District from having to hire an additional librarian. The saved funds are reallocated to library book checkout software and enrichments such as art.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The number of checked out books are compared at the end of the year with the previous year in order to ensure consistent or growing library usage. Participation in Reading Counts is also closely evaluated.

** You will be contacted if more information is needed to process this request.

- A. Reason for the Waiver request. Please include distance from your alternative education site to the closest possible district to coop with, what alternative means will have to be employed if your waiver was to be denied, and what percentage of your student population will benefit from the waiver if approved.

Waiver of COOP Agreement for the alternative education program at McCurtain Public Schools. The nearest COOP is 20 miles away. McCurtain Alternative Education program serves 1 to 5 students yearly, and travel to another school would be a hardship for students who are already at-risk and who even have a difficult time making it to school locally. Our local support prevents them from slipping through the cracks. The small school environment allows them to feel they still belong to the community.

70 OS 1201.568

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and learning achievement.

The local district provides a familiar setting for the students in which they can interact with other students at our small school. The waiver has been awarded in previous years. Last year, the local alternative education program provided an opportunity for students to progress toward graduation who were in circumstances that likely would have caused them to drop out or discontinue their education. Now both students are on track to graduate with their cohorts this upcoming school year.

The students are able to benefit from more individual attention and help which they may not receive at a larger site.

- C. Have you participated in an alternative education coop previously? Have you been awarded this waiver before and what was the educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, impact of plan on other sites in the district.

We have not participated in an alternative education coop previously. This waiver has been awarded before and has allowed us to use our local influence for these students to advocate for them and prevent them from dropping out. This lowers the District's dropout rate and allows these students an opportunity to experience academic achievement and graduation.

Not having to be bussed to another district also reduces travel time for these students. More time being transported may result in a lengthened day which is not conducive to their life situations.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

McCurtain Alternative Academy operates from 10:30 AM - 3:20 PM, 5 days per week. By the Academy being located in the same building as our regular classes, many students utilize the opportunity to take advantage of regular classes and participate in extracurricular activities during the afternoon periods.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

The financial impact to the District is the opportunity to utilize local teachers while not having to experience the costs of bussing students to another district. The District is also able to count the Alt Ed students on our child count. The cost of the Alternative Education program exceeds the allocation so reallocation is not possible.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The effectiveness of the plan is measured in graduation of participating students, ACT scores, and elimination of dropouts.

RE: Deregulation of OAC 210:35-5-71 and 210:35-9-71 and
Waiver of 70 OS 1210.568

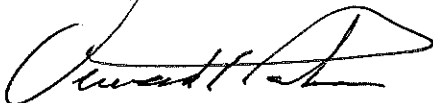

To Whom It May Concern,

On behalf of McCurtain Public Schools, I wish to request a deregulation of OAC 210:35-5-71 and OAC 210:35-9-71 in order to utilize a full-time library aide assisted by our certified librarian as needed to provide library media services while still utilizing the librarian in a classroom setting.

Also, we wish to request a statutory waiver of 70 OS 1210.568 in order to best serve our limited number of alternative education students without requiring them to ride a bus to another school to receive these services.

Thank you for your consideration on these issues. If you need any more information, please feel free to contact me at 918-945-7237 ext. 7 or by email at superintendent@mccurtainschools.org.

Sincerely,

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

We do not have any certifications in this area on staff. Additionally, in recent years we have not had applocated as well. Being a small district of 14 certified employees (including Principal & Superintendent) the long time veteran person that has filled this role for many years is well respected and has positive relationships with ALL students from elementary and high school. She runs a very good library program and has given us consistency throughout. Without this deregulation, we would just have to cover between my Principal and myself as Superintendent, putting additional strain on our entire system. The program would not run as smoothly without this deregulation.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

If denied, we do not have a staff member available that can serve in this capacity. All staff have a more than full daily schedule. Admin would have to fill the void physically, and we still would not be in compliance because no one of our staff is library certified at this time. In our small district, all students have a great relationship with our current library staff member. She is a huge part of our kids success and desire to read and utilize our library resources.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

This deregulation has been awarde previously. I feel our library aide we have has kept the student moral up and we maintain a high level of achievement and interest in our library resources with her presents. We have maintained all services and reading programs just fine in recent years with this deregulation. Without our waiver and our library aide, we would see a negative impact in the library, as we do not have certifed staff available to continue the services at the level we currently are providing.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.
See attachments:

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.
If granted this waiver, it would actually save funds from a full time certified employee (remember we have not been able to find a certified individual anyway). For our low enrollment in a tiny district of 140 students, the deregulation has served us well in recent years. Primarily, we have been able to put the saving of a certified librarian toward our core curriculum staffing and counseling services which is critically needed right now for students. We have had a full time counselor in the past year, that we have never had in the past. During this post-pandemic time, those resources are critical to kids.
- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.
Our library programs help and assist with our RSA and Report Card outcomes. Our library assistant works closely with our RSA instructors in early elementary and sees that we maximize our available resources there.

This letter is to request for the Duke Public School District I-014, Jackson County, a deregulation for our district's Library for the 2022-2023 school year. Deregulation is necessary due to no applicants available for our position. Additionally, we are able to better serve our students, paying certified salaries of core subjects and counselors with the funding saved by deregulating. We have deregulated for a number of years, with no negative impacts on student achievement. We have deregulated our Library for several years, with no negative impacts on student achievement. Please accept our request for deregulation.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Tishomingo Middle School is requesting a deregulation from 210:35-7-61

Staffing: The school shall provide staffing for the media program through one of the following arrangements: 1) Enrollment of fewer than 300: At least one full-time certified library media specialist (librarian) or a half-time certified library media specialist (librarian) and a full-time library assistant. Tishomingo Middle School has approximately 230 students enrolled in grades 5 - 8. The current budgetary climate and lack of certified media specialists are making it difficult for TMS to meet this requirement. The District does not have a suitable alternative if the waiver is denied at this time.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

We have a full-time library assistant that will keep the library open all day every day. She will work with the full-time library media specialist that is being shared among all three sites (ES, MS and HS) to guide the library development and activities. The full-time library media specialist will make periodic presentations to middle school students and classroom teachers will hold classes in the library and work with the assistant to teach library skills. This plan will assure that the library is open to students in a consistent manner. Denial of this waiver would create a more complex situation for the District in attempting to maintain an open library at the middle school.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes. Students continued to have access to the library, along periodic presentations from a library/media specialist. Student performance levels were not directly affected by the deregulation. The District has implemented automated book check-out and turn-in systems via Renaissance which has greatly improved student access and health in book handling. The District has also purchased chrome books providing for a one-to-one environment enhancing research outside the library. Other sites in the District were afforded the same service and opportunities afforded elementary students since we have been able to serve each site the same way.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

We will have a library assistant in the library full-time each week. Teachers will take classes to the library as needed and the full-time library specialist will make presentations to middle school students as scheduled by the media specialist and homeroom teacher. Teachers may also schedule a time with the Library Media Specialist to work with the teacher's specific class in the library media center on special projects.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The District actually increasing budget for the media specialist position last year by moving the half-time media specialist to a full time counseling position and replacing the half-time media specialist serving districtwide with a full-time media specialist position serving districtwide. The media center was at one time also serving as a computer lab, but the District has been able to allocate funds to provide for a one-to-one environment in which every student has a chromebook.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Evaluations will be based on library usage, survey of teachers in ease of use, availability, etc., number of books checked out. This information will be used to compare to previous year's usage where data is available. In addition, student test scores derived from the both formative assessments such as the IXL web based program and summative assessments such as the OSTP will be compared to ensure success of each student.

** You will be contacted if more information is needed to process this request.

RE: Deregulation Library Media Specialist

Dear State Board of Education Members,

The Tishomingo School District is requesting a deregulation from OAC 210:35-5-71; OAC 210-35-7-61; OAC 210-35-9-71 allowing one Library Media Specialist to serve districtwide with the assistance of a Library Media Aide at each site within the District. The District was able to maintain the service of a certified Library Media Specialist to serve in a full-time capacity for the 2022-2023. This is definitely an increase of service compared to only being able to find a half-time Library Media Specialist two years ago. The District also has an aide at each site that has been trained by the District's Library Media Specialist to facilitate day-to-day functions in the library at each campus within the District. The District has continued to work to increase service, and we have been able to fully automate the book check-out and return process by implementing the renaissance program. This program affords the District the ability to fix barcodes to all books and then scan books to manage the check-out and return of library books. We have also provided all students in Pre-K through 12th grades with chrome books allowing teachers to complete a great deal of research in class.

Thank you for your consideration and understanding as we navigate these challenging times.

Sincerely,

Bobby Waitman

A. Reason for the waiver/deregulation request (be specific).

We need to use a retired certified teacher in our library/media position half time with a full-time library assistant. We advertised the library/media position but we had no applicants certified in library/media. Therefore, we have hired a half-time certified retired teacher and full time library assistant to replace our full-time certified library position.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

This will best serve the students, because we will be able to keep the library open all day. The students would be able to receive library/media lessons based on the academic standards once a week. The library assistant would be able to check out books while the certified teacher is teaching classes and also in the afternoons while the librarian is absent.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Allowing this deregulation would allow the students in our district to continue to receive library/media instruction from a certified teacher, while also allowing them the opportunity to read and check out books. This would positively impact the students because they could continue to grow as readers which benefits all areas of their academic growth.

- D. Timeline: (Please submit class schedule, calendars, assessment forms and other attachments as necessary. A waiver/deregulation can only be granted for a one school year period)**
NOTE: A School District Empowerment Waiver can be for up to 3 years.

8:15-11:45-Monday-Friday

The certified teacher will provide library/media lessons and read-alouds based on the Oklahoma Academic standards for Library Media in 30 minute increments or the 17 classes Pr-K-5th grade.

8:15-3:00-Monday-Friday

The library assistant will provide the students with assistance checking out and locating books of interest.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.**

We will have a certified part time and a full time assistant in the library which will be a negligible difference to the cost of the full time librarian last year. There is not a significant loss or gain in the cost of library services at Newkirk Elementary School.

- F. Describe method of assessment or evaluation of effectiveness of the plan.**

Observations of the teacher and assistant executing the plan. Survey of staff on effectiveness of the library program. Monitoring numbers of books in circulation to gage the number of students taking advantage of the library.
