College Career Math Ready is a free course designed for high school seniors who have completed Algebra I, Geometry, and Algebra II, and need a transition course to get them ready for college-level coursework. By engaging students in real-world applications, College Career Math Ready develops critical-thinking skills that students will use in college and their careers. College Career Math Ready has a proven track record of increasing student readiness. For more information about College Career Math Ready, visit <http://www.sreb.org/math-ready>.

Ready for High School Math is a free course designed for eighth grade students to develop critical-thinking skills that they will use throughout their high school studies. The course addresses elementary and middle school standards, including the topics of number sense, ratios and proportions, expressions and equations, algebra, functions, geometry, and statistics and probability, agreed to as essential college and career-readiness standards for most students.

If you have any questions, send an email to Ready@SREB.org or download the FAQ at <http://www.sde.ok.gov/ccmr>.
