

**Community Eligibility Provision, Provision 2 or Provision 3 Schools in Oklahoma**

**School Year 2020-21**

The Community Eligibility Provision (CEP) is an alternative to using household eligibility applications in high-poverty schools. To be eligible for CEP, schools must:

- Meet a minimum level (40%) of their students as identified students in the year prior to implementing CEP. Identified students are those students directly certified, students that were extended benefits, and students that are certified for free meals by the homeless liaison, migrant coordinator and/or Head Start coordinator.
- Agree to serve lunch and breakfast at no cost to all enrolled students.
- Agree to cover any costs of providing meals above the amounts provided in federal assistance, with non-federal funds.
