Data Lunch Meeting Agenda

- **2 Minutes**

  Gut Check: Teachers will share what they believe the student work will show
    - What will the mastery percentage be?
    - What anecdotal data led you to this conclusion?

- **3 Minutes**

  Vision for Mastery: Teachers will share the bar for mastery
    - What will we see in student work?
    - What skills will we see in student work?
    - What strategies we will see student work?
    - What have you taught this week/last week that will be reflected in student work?

- **5 Minutes**

  Sort: Teachers will sort the work into three stacks based on the Vision for Mastery
    - Mastered
    - Almost Mastered
    - Below Mastery

- **6 Minutes**

  Review: Teachers will share the "Below Mastery" and "Almost Mastered" stacks
    - What are the gaps we see?
    - What knowledge, skill, or common errors (habit gaps) are leading to the misunderstandings?

- **9 Minutes**

  Plan with Data: Teachers will create next steps for instruction
    - What edits should we make to:
        - Do Nows?
        - Exit Tickets
        - Lessons for this week?
        - Tutoring
            - Math: Do Nows, Skills Practice
            - ELA: Mix-It Ups
    - Assign owners
        - Who will schedule the next meeting? (date and location)
        - Who will bring student work for the next meeting?
