# Classroom Management

Save the Date!

## An Overview of Proactive and Positive Approaches to *CHAMPS!*

*Safe & Civil Schools* senior author and lead trainer, Dr. Randy Sprick, is an educational consultant and trainer based in Eugene, Oregon. Each year, he presents practical and entertaining workshops to over 30,000 teachers and administrators throughout the United States and Canada.

Randy completed his doctorate degree at the University of Oregon in 1979 and began developing programs that would translate the massive volume of research on **effective discipline and behavioral interventions** into practical strategies that educators could easily adopt. Randy quickly built his reputation as an **expert in proactive classroom management** through his dynamic professional development, his consultation with schools, and his writings.

Randy's numerous articles, books, and multimedia programs assist schools in dealing with discipline and classroom management, including *CHAMPS*, *Discipline in the Secondary Classroom*, and the *Teacher's Encyclopedia of Behavior Management*. In 2007, the Council for Exceptional Children honored Randy with the J.E. Wallace Wallin **Lifetime Achievement Award** in recognition of his work developing, advocating, and proliferating Positive Behavior Support in schools.
