Curriculum Frameworks

Curricular Frameworks are resources developed to help teachers translate standards into classroom practice. They **do not** represent a directive to teachers, schools or districts for classroom instruction.

PD On Your Plan

There are two virtual modules available for professional development. The first is a 13 minute critical overview of the standards. The second is an 8 minute introduction to aligning curriculum to the standards.

Shorts

Three 4-8 minute modules provide guidance on individual standards and each features the teachers on the ELA Standards Writing Team. More coming soon!
