Achieving Classroom Excellence Act (ACE) End of Course Project Category B English III

Choice of Topics

Project Overview

Through a multi-modal research project, student will exhibit mastery of English III *Priority Academic Student Skills* (PASS).

Realm of Darkness

Role of the Project Coordinator

The Project Coordinator is an important part of the End of Course Project process. The Project Coordinator's role is to make sure the student understands the scope of the project, manage the paperwork, review a student's progress toward completion of the project at the indicated CHECK POINTS, and adjust the student's completion timeline if necessary.

In the case of a student with an Individualized Education Program (IEP) or an English Language Learner (ELL) plan, the Project Coordinator should consult the student's records and resource personnel to ensure that all appropriate accommodations allowed on the Oklahoma Core Curriculum Tests (OCCT) are provided on the End of Course Project.

Once the student has completed the project, the Project Coordinator will prepare the paperwork necessary to submit the project to the Project Evaluation Panel. To the extent possible, it is recommended that the Project Coordinator serve only as a facilitator of the evaluation process rather than as an active participant of the Project Evaluation Panel.

Directions for the Project Coordinator

- 1. Read the English III: Choice of Topics Student Guide.
- 2. With the student, determine a timeline for completing the project and enter target dates for completing each of the CHECK POINTS in the space provided.
- 3. Assist the student in determining an appropriate format to represent their work for the second component. Read the Representation of Work section for more information.
- 4. Check in with the student at the CHECK POINTS listed in the project to ensure that the student is making appropriate progress toward completion. Adjust the timeline if necessary.
- 5. Submit the final project, including the Student Learning Reflection, to the Project Evaluation Panel for scoring. Attach the Project Submission Form.
- 6. After the Project Evaluation Panel has reviewed the project, ensure that the project and the panel's recommendation are forwarded to the District Superintendent.
- 7. Ensure that the District Superintendent submits the final project determination to the Oklahoma State Department of Education and communicates the final project determination to the student.

Representation of Work

Representation of work may come in a variety of forms, including a variety of written modes and multi-media presentations, constructed objects, artistic expression, written documents, and verbal expression. Creativity is encouraged!

All student work must be documented for scoring by the Project Evaluation Panel and kept on file for at least five years after completion. The student's multi-modal project can be documented and stored through electronic files, video recordings, audio recordings, or other documentation method for accurate scoring and efficient storage. The Project Coordinator may assist the student with this documentation process by photographing, recording, or otherwise

making digital copies of student work. The Project Coordinator may not assist in completion of the student work.

Role of the Project Evaluation Panel

The Project Evaluation Panel is an important part of the End of Course Project process. The Project Evaluation Panel's role is to provide a recommendation to the District Superintendent regarding the overall performance of the student on the project. The Panel will make this recommendation without bias, adhering to the procedures and guidelines set by the Oklahoma State Board of Education, and using the scoring criteria and Performance Level Rubric included in this guide.

The Panel must consist of at least three certified educators. The Panel must include at least one teacher who is highly qualified in the content area of the project. To the extent possible, it is recommended that all panel members be highly qualified in the content area of the project. It is also recommended that the Panel include at least one educator who does not currently have the student in class and at least one administrator. Schools and districts are encouraged to work collaboratively with other schools and districts to develop Project Evaluation Panels that include qualified individuals who can provide a fair assessment of student mastery of content.

Directions for the Project Evaluation Panel

- 1) Become familiar with the English III Performance Level Rubric (Appendix C).
- 2) Follow all directions and scoring criteria included in this guide.
- 3) Submit a recommendation to the District Superintendent on the overall performance of the student on the project. Use the Review Panel Recommendations Form.

General Scoring Criteria

This project will be evaluated on the student's demonstration of mastery of the state academic content standards. A final recommendation of the student's performance level will be made to the District Superintendent based on the English III Performance Level Rubric (Appendix C).

Scoring Considerations

Representation of work for the second component (summary/reflection) will be a formal, polished presentation. The reflection must include insight and connection of theme and components to personal experiences and ideas; an explanation of the modes chosen and how those modes connect to the theme; and, an explanation of each artifact mode used within the project and its connection to the theme. Work that is not submitted in written form should be digitally copied or recorded and provided to the Panel for accurate scoring.

Scoring Directions

- 1. Use the English II and English III Writing Rubric (Appendix A) to score Component One The Multi-Modal Written Component of the Achieving Classroom Excellence (ACE) End of Course Project.
- 2. Rubrics one and two may be used to inform the final scoring, but ultimately the scores of the English III Performance Level Rubric (Appendix C) determine the overall proficiency of the student work.
- 3. Total the points earned on the English III Performance Level Rubric.
 - An overall score of 10 or more on the English III Performance Level Rubric is required for the student to score Limited Knowledge on the English III End of Course Project.
 - An overall score of 19 or more on the English III Performance Level Rubric is required for the student to score Proficient on an English III End of Course Project.
 - An overall score of 28 or more on the English III Performance Level Rubric is required for the student to score Advanced on an English III End of Course Project.
 - A student may not score Proficient or Advanced on an English III End of Course Project if the student scored a 1 on any row of the English III Performance Level Rubric.
- 4. Based on the information in #4, make a recommendation to the District Superintendent for the Performance Level score of the student on the English III End of Course Project.

Analytic Scores

Each piece of student writing is given five analytic scores that focus on specific writing skills. These ratings range from 4 (the highest score) to 1 (the lowest score). Taken together, these scores provide a profile of the specific strengths and weaknesses of the student's writing. The following are the actual scoring rubrics used to assign the five analytic scores.

Score	Ideas and Development 30%				
4	The content is well suited for the audience, purpose, and mode				
	The main idea or thesis is clear				
	Ideas are fully developed and elaborated using details, examples, reasons, or evidence				
	The writer expresses an insightful perspective towards the topic				
3	The content is adequate for the audience, purpose, and mode				
	The main idea is evident but may lack clarity				
	• Ideas are developed using some details, examples, reasons, and/or evidence				
	• The writer sustains his/her perspective toward the topic throughout most of				
	the composition				
2	The content is inconsistent with the audience, purpose, and mode				
	• The main idea is not focused and leaves the reader with question and making				
	inferences to understand the main idea				
	Ideas are minimally developed with few details				
	May simply be a list of ideas				
	The writer has difficulty expressing his/her perspective toward the topic				
1	The content is irrelevant to the audience, purpose, and mode				
	The composition lacks a central idea				
	Ideas lack development or may be repetitive				
	The writer has little or no perspective on the topic				

Score	Organization, Unity, and Coherence 25%
4	Introduction engages the reader
	Sustained or consistent focus on the topic
