Below you will find the link to the new FBA Application for the January 1 Count in SSO.

October 1 data is also on the electronic FBA forms if the districts and/or RAOs want to review.

Note: If there are corrections on the Oct. 1 count, then the district shall contact their RAO to notify State Aid to release for the district to adjust. This can ONLY be done prior to the January 1 count submission.

RAOs can release any reports that have been “Certified” but not any that are just “Audit Complete.”

New item on this report: *This district does not qualify to participate in the Flexible Benefit Allowance for Current Fiscal Year.* This should be checked for any district/charter school that does not participate in the State health insurance program. Once this has been checked, no other data can be entered.

The State Aid—Flexible Benefit Allowance (FBA) application was created to allow districts to report their FBA information in a digital format to save both time and postage. FBA is available to both districts (for initial data entry) and RAO's (for auditing purposes). Users are granted permission to access the application through the regular Single Sign on process. Initially OMES established user access for all Superintendents, RAO's and state office personnel. Future access will be granted through a ticket to the OMES helpdesk.

There are two district roles and 4 state office roles for this application. They are:

DISTRICT

- Superintendent— Access to update all fields except RAO Notes. They can review RAO Notes. This is the only role allowed to Certify the report.
- FBA Report Access- Access to update all fields except RAO notes. They can review RAO Notes. This role cannot Certify the report.
