2016-17 OAAP Weekly Update (9-27-16)

To ensure students with significant cognitive disabilities are provided with appropriate state assessments, the Oklahoma Alternate Assessment Program (OAAP) mirrors the general assessment in regards to grades and subjects assessed.

The 2016-17 OAAP will utilize two different assessment systems. High School US History will be assessed through Portfolio/PearsonAccess. The subject areas of math, science and English/Language Arts will be assessed through the Dynamic Learning Maps (DLM) Alternate Assessment System. Additional information is available at http://ok.gov/sde/assessment. The OAAP assessment windows will open on:

Dynamic Learning Maps (DLM) Assessment Window	**March 15 – May 12, 2017**
Pearson Portfolio Upload Window	**January 9, 2017 - May 12, 2017**

This OAAP Weekly Update will cover the following topics:

- **KITE Client 3.0 Release and Service Desk Open Forum Sessions**
- **Registration links for the 2016-17 in-person OAAP trainings**

KITE Client 3.0 Release and Service Desk Open Forum Sessions

On September 19, 2016 KITE® Client 3.0 was released and made available for download. **It is required that all testing devices must be updated to the new KITE Client in order to deliver the DLM alternate assessment for the 2016-17 school year.** You will not be able to administer any tests on previous versions of KITE Client. The 3.0 download, instructions, and a list of supported platforms can be found here. Installation and updates are typically handled by your local technology personnel. Please note that **Windows users MUST delete older KITE® Client folders** from your Program Files (x86) folder before installing version 3.0.

In an effort to provide support to districts when installing KITE® Client 3.0, the DLM Service Desk will host two open forum sessions for users who require assistance during the install. The first forum session is September 19–21 and the second session is September 26–28 from 8–5 Central Time. The phone number and PIN needed to dial in to the KITE open forum sessions are listed below.

Open Forum Call-in Number: 977-278-8686

PIN: 233244

2016-17 OAAP Training

The Oklahoma State Department of Education - Special Education Services will be offering in-person trainings this fall for the Oklahoma Alternate Assessment Program (OAAP). This training will cover the Dynamic Learning Maps (DLM) Alternate Assessment System and the Pearson Portfolio. This training will be available online via the OSDE website and will also be available via WebEx later in the fall semester (registration links coming soon).

Please share this communication with Building Test Coordinators and other testing personnel.
