Oklahoma School Testing Program

End-of-Instruction U.S. History

Purpose

The purpose of this test is to measure Oklahoma students' level of proficiency in U.S. History. The End-of-Instruction assessment requires students to respond to a variety of items linked to the U.S. History standards identified in the Oklahoma Academic Standards (OAS) (*revised 2012*). Each U.S. History test form will assess the standards and objectives listed below.

Oklahoma Academic Standards for Social Studies Standards and Objectives
<p>Post-Reconstruction to the Progressive Era, 1878–1900 (1.0)</p> <ul style="list-style-type: none"> • Post Reconstruction Amendments (1.1) • Immigration, Westward Movement, and Native American Experiences (1.2) • Impact of Industrialization on Society, Economics, and Politics (1.3)
<p>Expanding Role of the United States in International Affairs (2.0)</p>
<p>Cycles of Economic Boom and Bust in the 1920s and 1930s (3.0)</p> <ul style="list-style-type: none"> • Economic, Political, & Social Transformation Between the World Wars (3.1) • Economic Destabilization and the Great Depression/New Deal (3.2, 3.3)
<p>Role of the U.S. in International Affairs and World War II, 1933–1946 (4.0)</p> <ul style="list-style-type: none"> • Mobilization for World War II (4.1) • World War II and U.S. Reaction to the Holocaust (4.2, 4.3)
<p>U.S. Foreign and Domestic Policies during the Cold War, 1945–1975 (5.0)</p> <ul style="list-style-type: none"> • The Cold War - Foreign and Domestic (5.1, 5.2) • The Vietnam War Era (5.3) • The African American Civil Rights Movement (5.4) • Social Political Transformation (5.5)
<p>U.S. Foreign and Domestic Policies, 1976 to the Present (6.0)</p> <ul style="list-style-type: none"> • End of the Cold War (6.1, 6.2, 6.3) • Post Cold War World (6.4, 6.5, 6.6)

Test Structure, Format, and Scoring

The test will consist of 70–75 multiple-choice items: 60 operational items and 10–15 field-test items, which will be written at a seventh-grade reading level and will include four responses from which to choose: the correct answer and three distractors. The total 70–75 items will be divided into two test sections to be administered within one day or on consecutive days.

Each multiple-choice item is scored as correct or incorrect. Only operational multiple-choice items contribute to the total test score. For example, if a test contained 60 operational items, only those 60 items (not the 10–15 field-test items) would contribute to a student’s scaled score on the test.

The student’s raw score is converted to a scaled score using the number correct scoring method.

Test Alignment with Oklahoma Academic Standards

Criteria for Aligning the Test with the OAS Standards and Objectives
<p>1. Categorical Concurrence</p> <p>The test is constructed so that there are at least six items measuring each OAS standard with the content category consistent with the related standard. The number of items, six, is based on estimating the number of items that could produce a reasonably reliable estimate of a student’s mastery of the content measured.</p>
<p>2. Range-of-Knowledge Correspondence</p> <p>The test is constructed so that at least 75 percent of the objectives for an OAS standard are assessed.</p>
<p>3. Balance of Representation</p> <p>The test construction shall yield a balance of representation with an index value of 0.7 or higher of assessed objectives related to a standard.</p>
<p>4. Source of Challenge</p> <p>Each test item is constructed in such a way that the major cognitive demand comes directly from the targeted OAS skill or concept being assessed, not from specialized knowledge or cultural background that the test-taker may bring to the testing situation.</p>

ACE U. S. History 1878 to the Present
Test Blueprint
School Year 2013-2014

The Test Blueprint reflects the degree to which each standard and objective of the Oklahoma Academic Standards is represented on the test. The overall distribution of operational items on a test form is intended to look as follows:

Standards and Objectives	Ideal Number of Items	Ideal Percentage of Items
1.0 Transformation of the United States from Post-Reconstruction to the Progressive Era, 1878-1900	8	13–15%
1.1 Post Reconstruction Amendments	2–4	
1.2 Immigration, Westward Movement, and Native American Experiences	2–4	
1.3 Impact of Industrialization on Society, Economics, and Politics	2–4	
2.0 Expanding Role of the United States in International Affairs	6	10%
3.0 Cycles of Economic Boom and Bust in the 1920s and 1930s	8	13%–15%
3.1 Economic, Political, & Social Transformation Between the World Wars	3–5	
3.2, 3.3 Economic Destabilization and the Great Depression/New Deal	3–5	
4.0 Role of the U.S. in International Affairs and World War II, 1933-1946	8	13%–15%
4.1 Mobilization for World War II	3–5	
4.2, 4.3 World War II and U.S. Reaction to the Holocaust	3–5	
5.0 U.S. Foreign and Domestic Policies during the Cold War, 1945-1975	18	30%
5.1, 5.2 The Cold War - Foreign and Domestic	4–5	
5.3 The Vietnam War Era	4–5	
5.4 The African American Civil Rights Movement	4–6	
5.5 Social Political Transformation	4–5	
6.0 U.S. Foreign and Domestic Policies, 1976 to the Present	12	20%
6.1, 6.2, 6.3 End of the Cold War	4–8	
6.4, 6.5, 6.6 Post Cold War World	4–8	
Total Test	60	100%

- A minimum of 4 items is required to report results for an objective, and a minimum of 6 items is required to report a standard. While the actual numbers of items on the test may not match the blueprint exactly, each future test will move toward closer alignment with the ideal blueprint.
- Percentages are approximations and may result in a sum other than 100 due to rounding.

Depth of Knowledge Assessed by Test Items

The test will approximately reflect the following “depth-of-knowledge” distribution of items:¹

Depth of Knowledge	Percentage of Items
Level 1—Recall	10%–15%
Level 2—Basic Reasoning	60%–70%
Level 3—Complex and Extended Reasoning	15%–25%

Descriptions of the Depth-of-Knowledge levels for U.S. History are as follows:

- **Level 1** asks the students to recall facts, terms, concepts and trends or to recognize or identify specific information contained in graphics. This level generally requires students to identify, list, or define. The terms at this level usually ask the student to recall who, what, when, and where. Items that require students to “describe” and/or “explain” could be classified at Level 1 or Level 2, depending on what is to be described and/or explained. A Level 1 “describe and/or explain” would recall, recite, or reproduce information. Items that require students to recognize or identify specific information contained in documents, excerpts, quotations, maps, charts, tables, graphs, or illustrations are generally Level 1.
- **Level 2** includes the engagement of some mental processing beyond recalling or reproducing a response. Level 2 generally requires students to contrast and compare people, places, events, and concepts; convert information from one form to another; give an example; classify or sort items into meaningful categories; describe, interpret or explain issues and problems, patterns, reasons, cause and effect, significance or impact, relationships, point of view, or processes. A Level 2 “describe and/or explain” would require students to go beyond a description or explanation of recalled information to describe and/or explain a result or “how” or “why.”
- **Level 3** requires reasoning, using evidence and a higher level of thinking than Level 1 and Level 2. Students will go beyond explaining or describing “how” and “why” to justifying the “how” and “why” through application and evidence. The cognitive demands at Level 3 are more complex and more abstract than Level 1 or Level 2. Items at Level 3 include drawing conclusions; citing evidence; applying concepts to new situations; using concepts to solve problems; analyzing similarities and differences in issues and problems; proposing and evaluating solutions to problems; recognizing and explaining misconceptions or making connections across time and place to explain a concept or “big idea.”

Note: These descriptions are taken from Review Background Information and Instructions, Standards and Assessment Alignment Analysis, CCSSO TILSA Alignment Study, October 2001, Version 2.0.

Note: With the exception of content limits, the Item Specifications offer suggestions of what might be included and do not provide an exhaustive list of what can be included.

In addition, the sample test items are not intended to be definitive in nature or construction—the stimuli and the test items that follow them may differ from test form to test form, as may their presentations.

¹This is the ideal depth-of-knowledge distribution of items. There may be slight differences in the actual distribution of the upcoming testing session.

Universal Design Considerations

Universal Design, as applied to assessments, is a concept that allows the widest possible range of students to participate in assessments and may even reduce the need for accommodations and alternative assessments by expanding access to the tests themselves. In the Oklahoma End-of-Instruction tests, modifications have been made to some items to simplify and clarify instructions as well as to provide maximum readability, comprehensibility, and legibility. This includes such things as reducing the language load in content areas other than Language Arts, increasing the font size, displaying fewer items per page, and boxing the items to assist visual focus. The End-of-Instruction tests will have vocabulary three grade levels below 10th grade, except for content specific words, on all tests but English II and English III. English II vocabulary will be on the 10th-grade level and English III vocabulary will be on the 11th-grade level. These modifications are evident in the sample items included in this document.

Testing Schedule

This section appears in all of the test specification documents and is provided to give the reader a general sense of the overall testing program at this particular grade level.

Each End-of-Instruction test is meant to be administered in two sections within one day or consecutive days with the exception of ACE English II and ACE English III, which will be administered in three sections over two or three days. Estimated time for scheduling purposes is given in the table below.

U.S. History Online Test Time Schedule		
Preparation U.S. History Online Test	Distributing login information	Approximately 5 minutes
	Test instructions/tutorial and reviewing sample items	Approximately 15 minute
	Preparation Total:	Approximately 20 minutes
Section 1 U.S. History Online Test	Distributing login information	Approximately 5 minutes
	Administering Section 1 of the U.S. History Online Test	Approximately 45 minutes
	Section 1 Total:	Approximately 50 minutes
Section 2 U.S. History Online Test	Distributing login information	Approximately 5 minutes
	Administering Section 2 of the U.S. History Online Test	Approximately 45 minutes
	Section 2 Total:	Approximately 50 minutes

Multiple-Choice Item Rules

- All items must clearly indicate what is expected in a response and must direct students to focus on their responses.
- Each multiple-choice item will have a stem (question or incomplete statement that is completed by the correct answer choice) and four answer (or completion) options, only one of which is correct. Items may contain graphical elements and/or text excerpts.
- Multiple-choice item stems will present complete problems so that students will know what to do before looking at the answer choices. Students should not need to read all answer choices before knowing what is expected.

In summary, End-of-Instruction U.S. History test items ask questions that address a student’s understanding of relevant concepts and problems, and can develop viable solutions.

Item Types

Each multiple-choice item will have four responses—the correct answer and three distractors. Distractors will be developed based on the types of errors students are most likely to make.

For item review committee purposes, information regarding the standard(s) and objectives addressed, item format, and correct answer key will accompany each item.

Each item begins with a stem that asks a question or poses a clear problem. A stem will seldom include an incomplete sentence.

All stems will be positively worded—no use of the word not. If a negative is required, the format will be “All of the following . . . except.”

A stimulus that gives information must precede a question or a set of questions.

Stimulus Materials

Stimulus materials are the passages, maps, graphs, charts, models, graphic organizers, figures, etc., that students must read and examine in order to respond to items. The following characteristics are necessary for stimulus materials:

1. When students are given information to evaluate, they should know the research question and the purpose of the research.
2. Passages, graphics, tables, etc., will provide sufficient information for assessment of multiple standards.
3. Stimuli with text shall have a limit of 300 words (+–10%).
4. Stimulus materials for a set of items may be a combination of multiple stimuli.
5. Information in stimulus materials will be real examples of what students would encounter in or beyond school.
6. For conceptual items, stimulus materials will be necessary but not conceptually sufficient for student response.
7. There will be a balance of graphic and textual stimulus materials within a test form. At least 50 percent of the items will have appropriate pictorial and graphical representations. Graphs, tables, or figures will be clearly associated with their intended items. Graphics will appear either on the same page as the stimulus or on the facing page.

Online Administration

Test questions will be presented one at a time.

Answers may be selected by using either the mouse or the keyboard. Navigation buttons appear at the end of the page for each question. If the navigation buttons do not initially appear at the bottom of the screen, scrolling down will reveal them. A scroll bar will appear on the right-hand side of the window.

Tools appear at the top of the screen/page to aid in answering questions. The stimulus and question will appear on the screen at the same time.

Item Specifications

It is necessary to create test items that are reliable, fair, and targeted to the Oklahoma Academic Standards listed on the following pages. There are some general considerations and procedures for effective item development. These considerations include, but are not limited to, the following:

1. Each test form contains items assessing all standards.
2. Test items that assess each standard will be limited to a multiple-choice format.
3. Test items are focused on content that is authentic, engaging, and understandable to students.
4. Test items are worded precisely and clearly. The better focused an item, the more reliable and fair it is likely to be, and the more likely all students will understand what is required of them.
5. All items are reviewed to eliminate language that shows bias or that would otherwise likely disadvantage a particular group of students. Items do not display unfair representations of gender, race, ethnicity, disability, culture, or religion; nor do items contain elements that are offensive to any such groups.
6. All multiple-choice answer choices—keys and distractors—are similar in length, syntax, or structure. Students should not be able to rule out a wrong answer or identify a correct response solely by its appearance. Distractors are created so that students must reason their way to the correct answer rather than simply eliminate incorrect responses because of a distractor’s obviously inappropriate nature. Distractors should always be plausible (but incorrect) in the context of the item stem. Correct responses will be approximately equally distributed among As, Bs, Cs, and Ds.

Scoring Criteria

Scoring criteria will focus on the clear understanding of U.S. History and an effective understanding, application, and analysis of history skills.

General Considerations—Oklahoma Core Curriculum Tests

1. Items deal with issues and details that are of consequence in the stimulus and central to students' understanding and interpretation of the stimulus.
2. Test items are varied and address *all* OAS standards and/or objectives listed in the Test Blueprint.
3. To the greatest extent possible, no item or response choice will clue the answer to any other item.
4. All items reviewed and approved by the Oklahoma Item Review Committee are assigned an OAS standard and/or objective. The Test Blueprints and score reports reflect the degree to which each OAS standard and/or objective is represented on the test.
5. Test items are tied closely and particularly to the stimuli from which they derive, so that the impact of outside (prior) knowledge, while never wholly avoidable, is minimized.
6. Each multiple choice item contains a question and four answer options, only one of which is correct. Correct answers will be approximately equally distributed among As, Bs, Cs, and Ds.
7. The four choices are approximately the same length, have the same format, and are syntactically and semantically parallel; students should not be able to rule out a wrong answer or identify a correct response simply by virtue of its looking or sounding different.
8. Distractors adopt the language and sense of the material in the stimuli so that students must think their way to the correct answer rather than simply identify incorrect responses by virtue of a distractor's obviously inappropriate nature.
9. Distractors should always be plausible (but, of course, incorrect) in the context of the stimulus.
10. Order of presentation of item types is dictated by logic (chronologically, spatially, etc.).
11. Items are worded precisely and clearly. The better focused an item, the more reliable and fair it is likely to be, and the more likely all students will understand it in the same way.
12. It is not possible to measure every OAS objective on the test. However, at least 75 percent of the objectives from each OAS standard are included on the test.
13. The range of items measuring an OAS objective consisting of more than one skill will provide a balanced representation of those skills.
14. Items should be focused on what all students should know and be able to do as they complete their End-of-Instruction coursework.
15. The responses "Both of the above," "All of the above," "None of the above," and "Neither of the above" will not be used.
16. The material presented is balanced, culturally diverse, well written, and of interest to End-of-Instruction level students. The stimuli and items are fairly presented in order to gain a true picture of students' skills.
17. Across all forms, a balance of gender and active/passive roles by gender is maintained.
18. Forms attempt to represent the ethnic diversity of Oklahoma students.

19. No resource materials may be used by students during the test.
20. The stimuli avoid subject matter that might prompt emotional distress on the part of the students.
21. In addition to the 60 operational items, there will be 10 field-test items per form.
22. Permission to use stimuli from copyrighted material is obtained as necessary by CTB.

All items developed using these specifications are reviewed annually by the Oklahoma State Department of Education and approved by Oklahoma educators. The distribution of newly developed items is based on difficulty, cognitive ability, percentage of art/graphics, and grade-level appropriateness as determined by an annual Item Development Plan approved by the Oklahoma State Department of Education.

Overview of Item Specifications

For each OAS standard, item specifications are organized under the following headings:

- OAS Standard
- OAS Objective
- Item Specifications
 - a. Emphasis
 - b. Format
 - c. Content Limits
 - d. Depth-of-Knowledge
 - e. Distractor Domain
 - f. Sample Test Items

The headings “OAS Standard” and “OAS Objective” state the standard and objective being measured as found in the U.S. History section of the Oklahoma Academic Standards document.

The heading “Item Specifications” highlights important points about the item’s emphasis, format, content limits, depth-of-knowledge, distractor domain, and sample test item. All items in this test are written to address and measure a single standard.

OKLAHOMA ACADEMIC STANDARDS (Revised 2012)

END-of-INSTRUCTION U.S. HISTORY STANDARDS

The United States: The American Nation in Transformation, 1878 to the Present

In United States History, the student will describe and analyze effects of the Reconstruction Era amendments to the *United States Constitution*, examine the impact of immigration and the settlement of the American West on American society, and evaluate the economic effects of the industrialization and the changing role of the United States in world affairs at the turn of the twentieth century. The student will also describe the social, cultural, and economic events between the World Wars, investigate and analyze the Great Depression, and the causes, events and effects of World War II, and assess the foreign and domestic policies of the United States since World War II. The student will also examine the 9/11 attacks on New York City and Washington, DC.

The Common Core History/Social Studies Reading and Writing Literacy Skills are to be integrated throughout all of the content standards and used for instructional delivery of the content.

ASSESSMENT NOTE: High schools students in United States History for Grades 9–12 will study the time frame of 1878 to the present. However, for the high school ACE United States History End-of-Instruction Examination (EOI), the time frame is approximately 1878–2002, or approximately from the Reconstruction amendments through the terrorist attacks of September 11, 2001 and the immediate effects of those events.

Standard 1 and 2 Social Studies Process and Literacy Skills should be integrated throughout and across the content standards, as well as being used in teaching and assessing the course content at the classroom and district level. At the state level, Standard 1 and 2 Social Studies Process and Literacy Skills will be measured and reported within each of the Content Standards 1, 2, 3, 4, 5, and 6. Process skill assessment items will be content-based and reported under each of the content standards. For assessment purposes, each standard will have items using primary and secondary source documents, timelines, maps, charts, graphs, pictures, photographs, and/or political cartoons. There will be a balance of graphic and textual stimulus materials within the various United States History test forms.

At least 50 percent of the assessment items will have appropriate pictorial and graphical representations.

Content Standard 1: The student will analyze the transformation of the United States through its civil rights struggles, immigrant experiences, settlement of the American West, and the industrialization of American society in the Post-Reconstruction through the Progressive Eras, 1865 to 1900.

1. Cite specific textual and visual evidence to analyze the post-Reconstruction civil rights struggles.
 - A. Examine the purposes and effects of the *13th, 14th, and 15th Amendments*.
 - B. Assess the impact of the Black Codes, Jim Crow laws, and the actions of the Ku Klux Klan.
2. Integrate specific textual and visual evidence to analyze the impact of Westward Movement and immigration on migration, settlement patterns in American society, economic growth, and Native Americans.
 - A. Summarize the reasons for immigration, shifts in settlement patterns, and the immigrant experience including the *Chinese Exclusion Act*, the impact of Nativism, Americanization, and the immigrant experiences at Ellis Island.

- B. Examine the rationale behind federal policies toward Native Americans including the establishment of reservations, attempts at assimilation, the end of the Indian Wars at Wounded Knee, and the impact of the *Dawes Act* on tribal sovereignty and land ownership.
 - C. Compare the contrasting view points of Native American leadership’s resistance to United States Indian policies as evidenced by Red Cloud and his Cooper Union speech, Seattle, Quannah Parker, and Chief Joseph as expressed in his *I Will Fight No More Forever* speech.
3. Evaluate the impact of industrialization on the transformation of American society, economy, and politics.
- A. Analyze the impact of leading industrialists as “robber barons” and as “philanthropists” including John D. Rockefeller and Andrew Carnegie and his *Gospel of Wealth* essay on American society.
 - B. Identify the impact of new inventions and industrial production methods including new technologies by Thomas Edison, Alexander G. Bell, and the Bessemer process.
 - C. Evaluate the contributions of muckrakers including Ida Tarbell and Upton Sinclair that changed government policies regarding child labor, working conditions, and the *Sherman Antitrust Act*.
 - D. Analyze major social reform movements including the Women’s Suffrage and Temperance Movement and their significant leaders including Susan B. Anthony, Alice Paul, and Jane Addams.
 - E. Evaluate the significance of the Labor Movement on the organization of workers including the impact of the Pullman strikes, the Haymarket Riot, and the leadership of Eugene V. Debs.
 - F. Evaluate the rise and reforms of the Progressive Movement including the
 - 1. Direct primary, initiative petition, referendum, and recall,
 - 2. Impact of William Jennings Bryan and his *Cross of Gold* speech on the political landscape, and
 - 3. Conservation of the environment under the leadership of Theodore Roosevelt.
 - 4. Analyze the series of events leading to and the effects of the *16th, 17th, 18th, 19th, and 21st Amendments* to the *United States Constitution*.
 - G. Assess and summarize changing race relations as exemplified in the *Plessy v. Ferguson* case.
 - H. Cite specific textual and visual evidence to compare and contrast early civil rights leadership including the viewpoints of Booker T. Washington, W.E.B. DuBois, and Marcus Garvey in response to rising racial tensions, and the use of poll taxes and literacy tests to disenfranchise blacks and poor whites.

Content Standard 2: The student will analyze the expanding role of the United States in international affairs as America was transformed into a world power in the late 19th and early 20th centuries, 1890 to 1920.

1. Cite specific textual and visual evidence to evaluate the impact of American imperialism on international relations and explain its impact on developing nations.
 - A. Compare and contrast the economic, religious, social, and political rationales for American imperialism including the concept of “white man’s burden,” the annexation of Hawaii, the impact of Admiral Alfred T. Mahan, and the actions of the Anti-Imperialist League.
 - B. Assess the role of yellow journalism in inciting American desire to go to war with Spain.
 - C. Examine how the Spanish-American War resulted in the rise of the United States as a world power, and led to new territorial acquisitions and national insurrections in Cuba and the Philippines.
 - D. Compare and contrast the foreign policies of Presidents Theodore Roosevelt, William Howard Taft, and Woodrow Wilson including Big Stick Diplomacy, Dollar Diplomacy, Missionary Diplomacy, the *Roosevelt Corollary*, military interventionism, and the territorial acquisition and construction of the Panama Canal.
2. Analyze and summarize the 1912 presidential election including the key personalities of President William Howard Taft, Theodore Roosevelt, Woodrow Wilson and Eugene V. Debs; the key issues of dealing with the trusts, the right of women to vote, and trade tariffs; and the impact of the “Bull Moose Party” on the outcome of the election.
3. Evaluate the long-term impact of America’s entry into World War I on national politics, the economy, and society.
 - A. Summarize the transformation of the United States from a position of neutrality to engagement in World War I including the *Zimmerman Note* and the threats to international trade caused by unrestricted submarine warfare.
 - B. Analyze the experiences of the war’s homefront including the use of propaganda, women’s increased role in industry, the marshaling of industrial production, the Great Migration, the institution of a draft, and the suppression of individual liberties resulting in the First Red Scare.
 - C. Cite specific textual and visual evidence to examine Wilson’s foreign policy as proposed in his *Fourteen Points* and the reasons for the nation’s return to isolationism including the rejection of the League of Nations.

Content Standard 3: The student will analyze the cycles of boom and bust of the 1920s and 1930s on the transformation of American government, the economy, and society.

1. Examine the economic, political, and social transformations between the World Wars.
 - A. Cite specific textual and visual evidence to describe modern forms of cultural expression including the Harlem Renaissance, the Jazz Age, and “talkies” (movies).
 - B. Describe the rising racial tensions in American society including the resurgence of the Ku Klux Klan, increased lynchings, race riots as typified by the Tulsa Race Riot, and the use of poll taxes and literacy tests to disenfranchise blacks and poor whites.
 - C. Examine growing labor unrest and industry’s reactions including the use of sit-down strikes and court injunctions, and why socialism and communism appealed to labor.
 - D. Describe the booming economy based upon access to and easy credit through installment buying of appliances and inventions of modern conveniences including the automobile.
 - E. Assess the impact of the *Indian Citizenship Act of 1924* upon the various Native American tribes.

2. Cite specific textual and visual evidence to analyze the effects of the destabilization of the American economy.
 - A. Identify causes contributing to an unstable economy including the overproduction of agriculture products, greater speculation and buying on margin in the Stock Market, and the government’s laissez-faire policy.
 - B. Examine the role of the Stock Market Crash and bank failures in weakening both the agricultural and manufacturing sectors of the economy leading to the Great Depression.
 - C. Analyze how President Herbert Hoover’s financial policies and massive unemployment as exemplified by the Bonus Army March and Hoovervilles impacted the presidential election of 1932.
 - D. Cite specific textual and visual evidence to compare points of view regarding the economic and social impact of the Great Depression on individuals, families, and the nation.

3. Analyze the impact of the New Deal in transforming the federal government’s role in domestic economic policies.
 - A. Assess changing viewpoints regarding the expanding role of government as expressed in President Franklin Roosevelt’s *First Inaugural Address* and the *Four Freedoms* speech.
 - B. Examine how national policies addressed the economic crisis including deficit spending, Roosevelt’s court packing plan, and the new federal agencies of the Social Security Administration, Federal Deposit Insurance Corporation, Works Progress Administration, and Tennessee Valley Authority.
 - C. Cite specific textual and visual evidence to summarize the causes and impact of the Dust Bowl including the government’s responses.

Content Standard 4: The student will analyze the United States role in international affairs by examining the major causes, events, and effects of the nation’s involvement in World War II, 1933 to 1946.

1. Cite specific textual and visual evidence to examine the transformations in American society and government policy as the nation mobilized for entry into World War II.
 - A. Examine the roles of appeasement and isolationism in the United States’ reluctance to respond to Fascist military aggression in Europe and Asia including the *Neutrality Acts* and the Lend-Lease program.
 - B. Evaluate the mobilization for war as stated in President Roosevelt’s *Day Which Will Live in Infamy* speech including the role of women and minorities in the war effort, rationing, the internment of Japanese-Americans and the *Korematsu v. United States* decision, and the internment of Americans of German and Italian descent.
2. Cite specific textual and visual evidence to analyze the series of events affecting the outcome of World War II including major battles, military turning points, and key strategic decisions in both the European and Pacific Theaters of operation including Pearl Harbor, the D-Day Invasion, development and use of the atomic bomb, the island-hopping strategy, the Allied conference at Yalta, and the contributions of Generals MacArthur and Eisenhower.
3. Summarize American reactions to the events of the Holocaust resulting in United States participation in the Nuremburg Trials, which held Nazi leaders accountable for war crimes.

Content Standard 5: The student will analyze foreign and domestic policies during the Cold War, 1945 to 1975.

- 1 Cite specific textual and visual evidence to analyze the origins of international alliances and efforts at containment of Communism following World War II.
 - A. Identify the origins of Cold War confrontations between the Soviet Union and the United States including the leadership of President Harry Truman, the postwar division of Berlin, the Berlin Blockade and Airlift, the fall of the Iron Curtain, and the Marshall Plan.
 - B. Describe the role of the United States in the formation of the United Nations, NATO and the resulting Warsaw Pact, and the dividing of the political world into the Western and Soviet spheres of influence.

. . . I am tired of fighting Our chiefs are killed. Looking Glass is dead. Toohulhulsote is dead. The old men are all dead. It is the young men who say yes or no. He who led the young men is dead.

It is cold and we have no blankets. The little children are freezing to death. My people, some of them, have run away to the hills and have no blankets, no food . . . I want to have time to look for my children and see how many I can find. Maybe I shall find them among the dead.

Hear me chiefs. I am tired. My heart is sick and sad. From where the sun now stands, I will fight no more forever.

—Surrender of Chief Joseph of the Nez Perce, 1877

...When our people covered the whole of the land, as the waves of a wind-ruffled sea cover its shelled-paved floor. But that time has long since passed away with the greatness of tribes now forgotten. I will not mourn over our untimely decay, nor reproach my pale-face brothers for hastening it, for we, too, may have been somewhat to blame . . .

New Deal Programs

Relief	Recovery	Reform
Bank Holiday—only sound banks allowed to reopen after federal inspection	Agricultural Adjustment Act—paid farmers to reduce production	Social Security Act—set up benefits for retired workers and the unemployed
Civilian Conservation Corps—2.5 million men put to work on public projects	National Industrial Recovery Act—set fair prices, wages, and hours for businesses	Federal Deposit Insurance Corporation—insured deposits against bank failures

The information in this chart supports the conclusion that the New Deal

- A** created programs that were stop-gap economic measures.
- B** established a new role for the government in the economy.
- C** failed to solve the problems created by the Great Depression.
- D** recommitted the nation to the principals of laissez-faire economics.

Correct Answer: B

“I hold that . . . the proper separation of functions of the Federal and local governments requires the maintenance of the fundamental principle that the obligation of distress [hardship] rests upon the individuals, upon the communities and upon the states.”

—President Herbert Hoover, 1932

“Relief funds . . . will be expended on behalf of rural families in a manner and to an extent that will enable them to achieve self- support. . . . The needy unemployed living in cities and towns . . . should receive . . . adequate assurance of means to maintain themselves. . . . The Federal Government has no intention or desire to force either upon the country or the unemployed themselves a system of relief which is repugnant [offensive] to American ideals of individual self-reliance. . . . Labor on [work programs] . . . will be confined to those needy unemployed who can give adequate return for the unemployment benefits which they receive.”

—President Franklin Roosevelt, 1934

What do these quotations illustrate about the shift in the role of government during this period?

- A** The federal government provided generous cash benefits to citizens.
- B** The federal government began to play a greater part in meeting the basic needs of individuals.
- C** State governments became more powerful by setting up relief programs for the unemployed.
- D** Local governments became less dependent on state and federal governments for relief assistance.

Read the excerpt and then answer the questions that follow.

Egypt, Israel, Jordan and the representatives of the Palestinian people should participate in negotiations on the resolution of the Palestinian problem in all its aspects. To achieve that objective, negotiations relating to the West Bank and Gaza should proceed in three stages:

1. Egypt and Israel agree that, in order to ensure a peaceful and orderly transfer of authority, and taking into account the security concerns of all the parties, there should be transitional arrangements for the West Bank and Gaza for a period not exceeding five years. In order to provide full autonomy to the inhabitants, under these arrangements the Israeli military government and its civilian administration will be withdrawn as soon as a self-governing authority has been freely elected by the inhabitants of these areas to replace the existing military government.
