NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Moseley School District is a small rural school with approximately 172 students. The current funding will not allow for additional hire. The classroom teachers utilize the library currently. The teachers take their students once a week to access the library and totes of books are distributed into classrooms for student use for programs such as reading counts.

This district was sent a certified notice of accreditation with probation to complete a CAP. One of the accreditation deficiency was def. code 503 (Library media does not meet state board regulations) The School board approved the CAP on October 10th, 2022.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

The classroom teachers build library media lessons within their curriculum. The campus also has chromebooks for each student and the students are using the epic library online as well as other online platforms that meet the learning needs of the student body through these online pathways of instruction. The denial of this waiver will simply be a hardship on the district financially.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, essentially no impact as we follow the above plan and library media was embedded in current curriculum. We are a one site small rural dependant school district.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

These lessons are embedded in their self contained classrooms for pre-k through 5th grades. The sixth, seventh, and eighth grade ELA educator embeds the lessons in those grade levels because these students rotate through different subject area classrooms. Once a week the teacher takes their homeroom class in lower grade levels to the library. The upper classmen ELA educator takes those grade levels to the library once a week as well. During extensive writing that educator also allows for extra reference check-out as well to meet those learning needs.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The district can not afford any new hires at this time. I am a first year superintendent and the budget just does not allow for any new hires for library media at this time. Looking forward into the FY24 school year it would be great to have a part-time library media educator on staff for this school district. Moseley Public School is in hopes to be able to plan for this need in the FY24 budget. The educators currently on staff include library media literacy in the design of their used teaching curriculum. The overall negative impact is currently the district cannot afford a library media teacher.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Teachers effectiveness is evaulated using the TLE model. The evaluation includes lesson planning and project planning. The program Istation reflects the students reading skills and is a RSA approved screener. The district also uses Reading Counts (RC) as a tool to evaluate student growth. The teachers meet bi-weekly for planning purposes in their professional learning communities (PLC) meetings to stay aligned with student planning and growth. The district is also one to one with student chromebooks wich allows students to access the online platforms of online libraries.

** You will be contacted if more information is needed to process this request.

**Moseley Public School Notice of Accreditation with Probation CAP
(Corrective Action Plan)**

To address the terms and conditions of this notification the following plan has been written with each Def. Code listed then the plan summary following.

1. Def. Code 230- Not in compliance: SDE OCAS Overage on Administrative Cost 21,859.76 audit findings.

A letter was sent from the auditor's office (Bledsoe, Hewett, & Gullekson) on April 6, 2022 to the former superintendent (Charlene Carter) of Moseley School. It shows the allowable administrative costs for the school district being 143,496 and the actual costs being 165,356.

CAP: The school district will review what salaries are being coded as administrative costs (OCAS function code 2300) and determine what steps can be taken to reduce these costs. We will be working with our Treasure office (Kevin Dudley CPA Tahlequah, OK.) to help in the process.

2. Def. Code 228- Not in compliance: SDE Federal Programs No documentation submitted at all. Funding withheld for the remainder of the year.
Def. Code 405 Mandated reports not submitted in a timely manner. There is not enough room to list all the reports here. Federal Programs

Osage County Interlocal Cooperative (207 East Main St. Hominy, OK. 74035 918-885-2667) was hired by the school board to move forward with compliance and the monitoring tool as well as working with the State Department of Education to get late claims filed. The State School Board approved some late claims. Working with the Interim Superintendent and the new Superintendent Moseley School completed the necessary paperwork. The district has contracted with Barlow Education Management Services 2801 North Lincoln Boulevard Oklahoma City, OK. 73105 405-495-1911 to guide and help the school district with the federal programs process for the FY23 school year. All mandated reports will and have thus far be/been submitted on time and will continue in this manner. The new administration has been committed to making sure the district stays in compliance with all federal programs.

3. Def. Code 460 Board Members have not met their required training

The Moseley School Board of Education is a three-member board. The board members have recently become new members since late spring and early summer therefore, Julie Miller with OSSBA will be on the school's campus to conduct board member training. The training is scheduled for November 29, 2022. The training will begin at 8:30 and will cover the following topics: Oklahoma Open Meeting Act, Roles & Responsibilities, and School Finance. The district will be working closely with Julie Miller to make certain we are on the correct path moving forward with the required training for each board of education member.

4. Def. Code 503 Library Media does not meet state board regulations

The school district had no prior knowledge of this until the letter came in the mail on Wednesday 10-6-22. The districts new superintendent will be calling the accreditation division on Tuesday 10-11-22 to find out the necessary steps that need to be taken to meet this deficiency. Then those steps will be followed to meet the compliance of this deficiency.

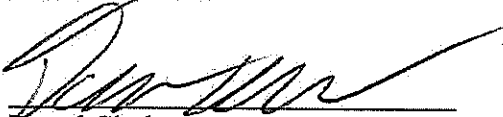

5. Def. Code 505 Teacher teaching without proper credential/endorsement Physical Education (Michael Bunch 401175)

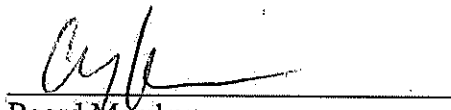

The school district has checked over teaching certificates to verify the educators credentials and has made the necessary teaching assignments accordingly. In addition, the teacher that was referenced in this letter has changed school districts.

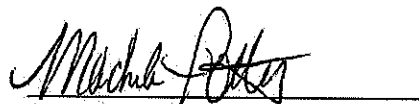

6. 536 Not in compliance: Individualized diabetes medical management plans

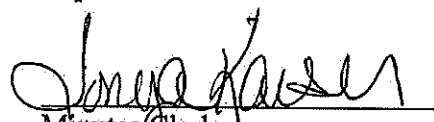

The school district send Jacke Fairchild to diabetes medical management training in the month of September 2022. The completion certificate is on file and was verified by the RAO in the fall accreditation check. The diabetes medical management plan is also on file with the school district.

To: The State Department of Education

The reason for this waiver/deregulation request is for library media services for this school year of 2022-2023.

The Statutory Waiver/deregulations OAC 210:35-5-71 & OAC 210:35-7-61 Library Media Services for Elementary students and Library Media Services for the Middle School students.

The homeroom self contained classrooms take their students to the Library for services as well as using online platforms for additional literacy learning. The ELA middle school teacher takes the grades of sixth, seventh, and eighth grades to the library for resources and services. The teachers take their students once a week to the library.

Please consider our waiver/ deregulation application for library media services.

Enclosed is the school calendar, waiver/deregulation application, board minutes for CAP approval (line item #8), corrective action plan signed copy by school board def. code 503.

Thank You,

Mrs. Potter

A. Reason for the waiver/deregulation request (be specific).

Due to the lack of local and state funding to adequately fund the position .

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

Teachers will assume the task of taking their students to the library and will assist them in the process.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Teachers will fulfill the objectives of the library media specialist for their classrooms.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions.
A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

It would have a positive impact by allowing district to use money in other areas of need as needed.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Our certified librarian resigned the week before school started. We filled the role with a certified instructor, but not a library media specialist.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

We have no alternate plans for the library. A denial would cause us to shut down the library until we could hire a certified librarian.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

No

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Students will be provided more intensive one on one help with the use of two full time certified library media specialists and three paraprofessionals who share time at the locations.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

The District plans to utilize two full-time Media Specialist to oversee the Libraries and have five paraprofessionals (one at each site) to keep the libraries open all day. The five paraprofessionals will ensure the students are selecting baseline appropriate reading materials, and make sure the library is functioning properly. This will free the librarian to work directly with the classroom teachers to help students master OAS Objectives.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, the deregulation has been awarded before.

Standard 2.0-increased vocabulary developed through exposure to library materials.

Standard 2.4-increased resources of library material usage through mandated check out and 100 per access to library materials during school hours.

Standard 6.0-research and information under the direct guidance of classroom teachers.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

School starting time: August 18, 2022

School ending time: May 18, 2023

Assessment through OCCT Testing

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

We have added a reading specialist in our elementary. We were able to do that with increased state aid and this deregulation requirement.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Evaluation will occur through the following OAS Objectives:

Standard 2.0- increased vocabulary developed through exposure to library materials.

Standard 2.4-increased resources of library material usage through mandated check out and full time access to library materials during school hours.

Standard 6.0-research and information under the direct guidance of classroom teachers.

To Whom it may concern:

I respectfully request a Waiver/Deregulation for Library Media Services for Whitebead School. Our former Library Media Specialist resigned before the start of the 2022-2023 school year leaving us without a certified Library Media Specialist. We have actively been searching for an individual who was certified in this area. At the present time we have been unable to secure an individual who does have this certification. We have posted the position in numerous job search websites including OSSBA, OSPRC, East Central University, our school website and other entities as well.

We feel fortunate to have been able to find a paraprofessional to serve as a library assistant who has formerly worked in another school district as a library assistant. She will be able to provide class time and checkout time for our students.

Sincerely,

Where is the applicant as it pertains to their pursuit of their course of study? What percentage of your student population will benefit from the waiver if approved?

We have three (3) school sites, and each site has its own library. We have only one certified librarian, but we have a full time aide employed at each site, which allows us to keep each site fully open every day. If we are not granted this deregulation, we will be forced to close individual site libraries at different times each day since a district of our size cannot afford to hire more than one certified librarian. 100% of our students will benefit from approval of this waiver

- B. List alternate strategies/plans which the district/site proposes. How does this plan best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement? Please list any negative impact if the waiver were to be denied.

Our certified librarian does all required paperwork as well as the ordering of new library books each year. The librarian also provides training for the aides if and when needed. We also have a certified teacher at one site who is a certified librarian, and she consults one hour per day, three days per week. This teacher is not being asked to give up her prep time and is compensated for any extra time.

Benefits include the following:

- Each site is open all day to accommodate our students and teachers.
- The aides are available to read to students as needed, which in many cases helps

Negative impact if waiver is denied:

- C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Currently we have a scheduled ninety minute reading block each day and a strong AR program. Closing the library each day for any period of time would negatively impact student learning. The middle school and high school libraries are research hubs for their respective buildings as well as point of contact for device check-out. There are classes using the libraries' resources almost every period of every day. Closing these libraries down for part of the day would hinder learning and achievement.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.**

The timeline would be for the 2022-2023 school year and include all three building libraries. Please see attached documents.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.**

Ultimately, the proposed waiver/deregulation will not have much of a financial impact on our district either way. If the waiver is not granted, we would have to hire a part-time librarian, and that would result in us having to let two aides go in order to cover that salary. It would also necessitate us closing our site libraries at different times each day.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.**

The effectiveness of the plan is grounded in the fact that it allows Wynnewood Public Schools to keep all three library sites open all day every day that school is in session. That is of paramount importance to our students and their learning opportunities. This will be reflected through student achievement in their coursework as well through assessments such as the third grade reading test and ACT scores.

RE: Request for Deregulation

Wynnewood Schools is requesting a deregulation for our library media for FY 2022-2023. The request is being made because our ADM has remained stable from last year.

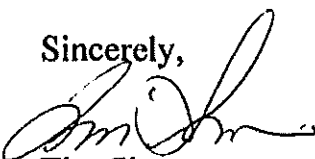

For the past several years we have had one Full Time Librarian for the district and three Full Time aides, one aide for each library site in our system. The certified librarian does all the ordering of books and programs, and provides training to the aides when needed. The certified librarian oversees all three sites.

This method, one aide per site, allows us to keep every site fully open each day that we are in session. This system has, and is, working very well. Due to budget cuts, if we are forced to hire a ½ time certified librarian we will be forced to cut two of the aide positions, which would result in at least one of our library sites being closed at different times during the day.

Our plan for the future is as follows: We have an elementary teacher who is certified in library media. This teacher is willing to consult one hour per day/three days per week, either before or after school. She is not being asked to give up her prep period and she will be compensated for the extra time.

This deregulation request was approved by the Wynnewood Board of Education at the regular board meeting held on September 8, 2022

Sincerely,

Tim Simpson

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Tuttle Public Schools is requesting consideration for a deregulation from OAC 210:35-9-71 requiring the school to provide staffing for the media program through one of the following arrangements: Enrollment (500-900) At least one full-time certified library media specialist (librarian) and a half -time library assistant.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

The District has purchased site licenses for library technology. Follett programs, creating a very effective and expedient means of book distribution and check in. Teachers take students to the library and are greatly involved in this learning time as well as the library media specialist. Upper level Tuttle High School students also serve as library assistants available to shelve books and provide other valuable assistance. We also believe the interaction with the upper-level high schools students in the library will promote a student centered learning environment and create an atmosphere conducive to peer guidance and peer-directed research.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

This deregulation has been previously awarded. This allowed the district to still positively serve our students and meet their educational and library media needs. Students were able to continue to perform at high levels.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Tuttle Schools will implement this plan for the 2022-23 school year, but will assess the plan periodically to determine that students are being well served. Tuttle High School Administrative Staff and the Library Media Specialist will reassess the plan at the end of the 2022-23.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The proposal will have a positive financial impact equating the savings of a library media specialist's position valued at approximately \$40,000. The money we save will allow us to hire additional teaching staff. The additional teaching staff will help lower our class sizes.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The administrative staff along with the Library Media Specialist will review the service provided at the end of the 2022-23 school year. Any issues that may arise will be documented in TLE throughout the year and recommendation will be made for the following year.

Re: School Site Deregulation Application

Dear Mr. Pieper:

Tuttle Public Schools is requesting your consideration of a school site deregulation concerning our library media specialist services at Tuttle High School pursuant to OAC 210:35-9-71. "The school shall provide staffing for the media program through one of the following arrangements: At least one full-time certified library media specialist (librarian) and a half-time library assistant for a school with an enrollment of 500-999."

We are requesting this waiver so that we may serve high school students with a half-time library media specialist and a full-time library media aide. Tuttle High School is fortunate to have a state-of-the-art library with a high level of technology and a very competent library media specialist with 28 years of experience.

We have to file this waiver this year because we lost our middle school media specialist over the summer. We have a staff member that is working on her library media certification and hope to fill this role with her when she completes the program. To help with this the district has purchased technology in the form of computers and programs that allow for quick check-out and check-in of books. Upper-level students will serve in the library by stocking shelves with books that have been returned. We believe that the involvement of upper-level students will create a more student-centered environment in the library.

Sincerely,

Keith Sinor

NAME OF WAIVER SERVICES

A. Reason for the waiver/deregulation request (be specific).

Altus Schools has had a job posting for a Librarian for several months and there have been no qualified applicants that hold Library Media Certification.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

The librarian from Altus Junior High School will work at Altus Primary School for three hours each week. There will continue to be a full time library assistant at Altus Primary School. the part-time library assistant at Altus Junior High School will be changed to a full time time job. This allows the library to be open at each site, every day all day.

The students will have access to both libraries in each school day all day long. The guidance from the AJH Librarian will be helpful to the library assistant at APS. The library standards at Altus Primary School will be taught by the classroom teacher in the library with the assistance from the library assistant.

AJH should not see any change in instruction with the addition of a fulltime library assistant and the Librarian being out of the library three hours each full week.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

Because the standards will be taught by the certified classroom teacher, there should not be any change in the education of our students.

The benefits to the students is that both the library assistant and the classroom teacher will be able to team teach each class on library standards.

D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions.

A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

Altus Primary School Library will be open 7:45-3:00 each school day with a full time library assistant.

Altus Primaray School will have a Certified Librarian for 3 hours each week in the library.

Altus Junior High School will be open 7:45-3:00 each school day with a full time library assistant and a Certified Librarian for 30 hours each full week.

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

Altus District will pay an additional stipend to the AJH librarian for the additional responsibility of monitoring the APS library. The district will also add another 1/2 day salary for the addition of the library assistant changing from a part time position to a full time position.

With the addition of the stipend and added position the cost will be less than being able to hire a Certified Librarian.

F. Describe method of assessment or evaluation of effectiveness of the plan.

This plan will be evaluated by the documentation of standards taught to each of the classes. Documentation of concerns will be noted each semester.

Our goal is to continue to seek out a certified person or encourage an employee to condider furthering education in Library Science.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Buffalo Valley School District is a small rural school district whose enrollment stays around 180-200. It is very difficult to find or afford a full-time library media specialist. We have had a retired/part-time specialist staffed in the past but have been unable to find a replacement thus far.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

All library media resources will be provided thru teacher assisted and directed practices; with access being granted by the teacher providing the learning experience or by the library assistant.

The students will continue to have access to all the resources that are onsite and receive the best possible benefits as in previous years.

Library assistants will be available to the k-8 and 9-12 libraries giving students access at all times.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes this dereg has been awarded before.

The effects on student performance has been minimal as they have access to the libraries all during the day.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Library hours are: K-8 7:50 am - 3:15 pm

9-12 7:50 am - 3:15 pm

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

The financial impact on Buffalo Valley School District would result in savings of around \$23,000 per year. A portion of these saved funds will be spent to provide access to the libraries with teacher aides, and a portion for supplies and materials for the libraries. Part of these funds will be absorbed into our budget to help our district maintain and retain teachers. The district will continue to look for a Library Media Specialist to fill this position.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Principals and superintendent will access and evaluate the effectiveness of the plan. They will follow the evaluation of the policy and procedures process of our school's student/teacher handbook

NAME OF WAIVER

- A. Reason for the Waiver request. Please include distance from your alternative education site to the closest possible district to coop with, what alternative means will have to be employed if your waiver was to be denied, and what percentage of your student population will benefit from the waiver if approved.

Current demands for personnel adversely effect the ability to get a full-time certified librarian even though we have greater financial freedoms this year over subsequent school years. We have a library Media Specialist serving in our library part-time as she works with our virtual programing and gifted programs as part of her duties. This waiver will allow us to sustain our G/T and Virtual program efforts.

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and learning achievement.

The district will use our Library Media Specialist part-time, allowing her to work her other two programs while maintaining a full-time support person who has a HS diploma and ParaPro test for credentials.

- C. Have you participated in an alternative education coop previously? Have you been awarded this waiver before and what was the educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, impact of plan on other sites in the district. Student impact by this change should not be noticeable as we will continue to operate the library media program as we have in prior years. the support person will continue all aspects of the program when the media specialist is involved with other programs.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

This is a one year waiver request.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation?
If positive please describe where the available would be reallocated.

this decision will allow the district to maintain a strong G/T and Virtual Student program and keep financial resources in areas to benefit direct student services as well as avoid moving staff from needed positions.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Teacher/student formal and informal surveys for effectiveness of the program.

Accreditation Division,

This letter is to address Howe Public Schools 2021-22 school year statutory waiver request for our Library Media Program. We would like to request a waiver to the Library Media Requirements of a full-time certified Library Media Specialist. Due to financial obligations, we would like to request the use of a full-time support person to oversee our Library Media Program under the supervision of a Certified Library Media Specialist that is currently working as our part-time Gifted and Talented Coordinator. This request will allow us to maintain our Gifted Program and Library Media programs with a certified specialist overseeing both programs in a part-time capacity. .

Our Board of Education approved this waiver request at our June 13th Board Meeting. Enclosed are the agenda, signed minutes, and the waiver request.

If you have any questions regarding this request, feel free to contact me at your earliest convenience.

- A. Reason for the Waiver request. Please include distance from your alternative education site to the closest possible district to coop with, what alternative means will have to be employed if your waiver was to be denied, and what percentage of your student population will benefit from the waiver if approved.

The district seeks to employ a full-time library media assistant to implement and advance our current library service for students pk-12. We have one library facility. This strategy will allow the library to remain open the entire day. The following programs will be offered on a full-time basis. Regular Circulation: pk-12; Story Time: pk-12; Accelerated Reader: 1-8; Basic Literacy.

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and learning achievement.

The district's student performance goal is to have all students reading on grade level. We have made significant gains in the last year by emphasizing reading in grades K-3. Students will continue to participate in Accelerated Reader Program and incentives will be developed to encourage students to love to read.

The district will continue to place a heavy emphasis on tracking data, especially in light of the RSA requirements. Adjustments to the program will be made based on the results of benchmark assessments but we are committed to student success in reading.

- C. Have you participated in an alternative education coop previously? Have you been awarded this waiver before and what was the educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, impact of plan on other sites in the district.
na

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

This request is for the 2022-2023 school year. Please see the attachment.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

Porum is a poor, rural district in Muskogee County. We have cut several certified and support position starting 2015-2016 school year and cut another position in 2016-2017 and one more in 2018-2019, and in 2020-2021 we cut two more certified positions and our carry over was down in approximately \$230,000. Currently, this current school our enrollment is down from 451 students to 409 students. We need to save money for this decline in enrollment which means a decline in revenue. The revenue saved from this library deregulation will be used to pay for other district salaries and curriculum expenses .

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The district will continue to survey and seek input from students, parents, teachers, library staff, administrators and community partners as to the effectiveness of the library services offered by the school. Annual evaluations of the library staff will be conducted by the district administration. Reading levels and test scores will be used to guide the needs and effectiveness of our library services. Circulation percentages will also be evaluated to reflect the library services and student engagement.

** You will be contacted if more information is needed to process this request.

5. Secondary Principal's Report

Enrollment has been going on last week and this week, running smoothly. We have been doing it by appointment and it has drastically cut down their wait time. Meet and Greet is next Tuesday from 4-6 pm, I am purchasing hot dogs and FFA is going to hand them out until they are gone. We have 16 students enrolled at Vo-Tech, many are on the waiting list. I have been working on Professional Development for next week. High School Softball got started with their first games today. Football kicked off practice with some midnight madness last night.

6. Superintendent's Report

First he'd like to thank the support people working this summer, they have worked hard. Hopefully our 2 5th grade bathrooms will be finished before school starts. We have replaced 4 air conditioners in the last couple of months. We need to replace 2 more in the Event Center. I went and picked up the rest of the curriculum for the Elementary.

7. Vote to approve or not to approve to amend the paragraph addressing Immunization Records in the High School Elementary School Handbooks for the 2022-2023 school year

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Crutch Public School would like to request a deregulation for the Library Media Services for the elementary and middle school. The librarian retired and it ' s been difficult retaining a librarian. Our library is fully staffed with a library clerk full time. We would like to apply for two deregulations.

??OAC 210:35-5-71 - Library Media Services Elementary School - School is changing the standard of library services for their size school.

??OAC 210:35-7-61 - Library Media Services Middle School - School is changing the standard of library services for their size school.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

Our students will still be able to receive full library services. The library will be staffed with a full time clerk and a certified teacher. The certified teacher will work with each class when they visit the library weekly. Students will have access to the library 100% of the school day four days per week. The following programs below will continue to be offered on a full time-basis. Regular Circulation (Pk-8th), Story time (Pk-K), Basic Library Skills (1st-3rd), Information Literacy Skills (4th-8th). After school reading program and summer reading programs will still be offered. We do not anticipate any negative impacts. Services will still continue under the direction of a certified teacher.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

There will be no effect of impact on student performance levels. The district ' s student performance goal is to have all students reading on grade level. This year we ' ve added additional supports and supplemental reading classes to support our goal. Students will always have access to the library 100 % of the time. The certified teacher will create lesson plans and activities to be implemented and assisted by the library assistant. The district has seen an increase in reading levels and scores across the district over the past school year. This district has worked out an agreement and partnered with the metropolitan library system to offer students electronic books checked out to also serve as a resource due to COVID-19.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

We propose the library will be open four and a half days per week for students to have access. Teachers will have general times each week when their class will visit the library. Students will be able to leave class with permission from the teacher to visit the library.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

At this time we will not see any significant financial impact on the district. The salary for a certified librarian will be used to employ a certified teacher to provide support to the library program until we can identify a librarian. The district will continue to work on grants to help with additional materials to keep the library stocked with current material and offerings.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The superintendent will evaluate the progress and the effectiveness of the library program to determine if any changes need to be made. Our student population continues to make academic improvements in reading. Reading test assessments will be evaluated to determine if the proposed plan is effective. We will continue monitoring reading levels each semester to determine if any changes are needed.

**** You will be contacted if more information is needed to process this request.**

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

OAC 201:35-5-71. Staffing - Option A

We have three elementary schools with enrollment numbers of 500-999 with only one certified library media specialist. The regulation requires that we have at least one full-time certified library media specialist and one half-time library assistant.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

To best serve the students of Mid-Del Schools, the elementary schools will have to strategically time the usage of media specialists and other certified teachers in order to maintain the functionality of each library setting.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

By reducing the staff in the libraries, we are able to keep other certified teachers which allow us to keep our class sizes reduced. For the 2023-24 school year, we plan to re-institute the media assistant position at all three schools in an effort to move toward returning each site to acceptable staffing levels while minimizing student impact.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

See attached letters.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

This deregulation allows a positive impact on the district's finances. By allowing us to employ less than the required number of library assistants, we are able to keep more certified teachers in the classroom to help reduce class sizes and the need to hire class-size teacher assistants.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

To Whom It May Concern:

Hello my name is Kevin Hill and I am the principal of Epperly Heights Elementary. The purpose of my letter is to give you some statistical information about our media center for the 2022-23 school year. Our media center is currently staffed with one full-time, certified media specialist. The EHES media center is open for scheduled classes Monday-Friday from 9:15am-3:15pm. Each class is in 40-minute increments. Every day from 2:00-3:15pm there is a block of open library time for students to visit the library without scheduling a time to check out books or equipment. Parent volunteers are welcomed and periodically assist with book fairs, preparing new materials for circulation, and shelving books. Feel free to contact me at 405-671-8650 if you have any questions for me.

Very respectfully,

To Whom It May Concern:

Please accept the attached District Deregulation Application for Library Media Services at Mid-Del Public Schools for the 2022-23 school year. Due to budget restrictions, we are using alternative means to provide library services to our students.

We are requesting a deregulation for Regulation OAC 210:35-5-71 for Del City Elementary, Epperly Heights Elementary, Parkview Elementary, and Del City High School.

Thank you for your consideration and assistance in this matter.

Sincerely,

Dr. Rick Cobb, Superintendent
Mid-Del Public Schools

Mission Statement

When the young people of Mid-Del enter our schools, they will be **safe**.

When they enter our classrooms, they will be **challenged**.

When they leave our schools, they will be **ready**.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Western Heights Public School District is requesting a deregulation for the 2022-2023 school year for our library media specialist, Laurie McCracken, at Winds West Elementary and Greenvale Elementary Schools within our district. Despite every effort to find a certified library media specialist, our district has not been able to do so. Therefore, we are requesting to staff our librarian positions at the sites listed with certified teachers that are attempting to gain their library media specialist certification.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

There is no financial impact to the district as the teacher employed for this position is an elementary certified teacher and the district is employing a full time aid as required by 210: 35-5-71.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

This deregulation has been awarded before and there were improvements within the SFA framework, internal SFA testing results, and moving the academic progress needle for students on NRT and OSTP.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.
See attached timelines.

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.
There is no financial impact to the district as the teacher employed for this position is an already certified elementary education teacher. Additionally, the district is employing a full time aid as required by 210: 35-5-71.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, i.e. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.
The assessment of effectiveness will be the RSA assessments, SFA assessments, and assessments from iStation.

The evaluation of the teacher employed as a librarian will be conducted using the Tulsa Model of the Teacher Leader Effectiveness (TLE).

** You will be contacted if more information is needed to process this request.

Mrs. McCracken has 40 years of educational service, and she brings that knowledge with her each and every day to help the students at Greenvale Elementary and Winds West Elementary foster a love for learning and reading. She also brings new ideas gleaned from her coursework with her. She has received grants and other funding solutions to help her bring the best technology and resources to the library for our Western Heights students.

Since the district has no other candidates for Elementary Library Media Specialist positions, we are asking to keep Mrs. Laurie McCracken in the position of Library Media Specialist. She is continuing to pursue her degree as a Library Media Specialist at the University of Central Oklahoma; however, the pursuit has taken a little longer than anticipated. Unfortunately, Mrs. McCracken has had numerous injuries over the last 6-8 months. Thankfully, she will be able to enroll and resume coursework in the later part of the Fall semester. Thank you for your understanding on this matter.

There is no financial impact to the district as the teacher employed for this position is an already certified elementary education teacher. Additionally, the district is employing a full time aid as required by 210: 35-5-71.

The district will evaluate Mrs. McCracken using the OKTLE Method which is district policy. The evaluation information will be sent to the OKSDE with all other required OKTLE documentation.

Ryan Peiper
Executive Director of Accreditation
Accreditation Office
Oklahoma State Department of Education

Executive Director Peiper,

This letter is to make a formal request for statutory waiver 70 O.S. § 3-126. We have an elementary library media specialist vacancy for Greenvale Elementary and Winds West Elementary. We currently have no applicants who hold the library media certification necessary for this position.

We have a former classroom teacher at Winds West who is currently in pursuit of her Library Media degree through the classes offered at the University of Central Oklahoma. We feel that she is still our best recommendation for filling this vacancy. She has done an outstanding job at both of these campuses. We are asking for a deregulation to allow us to keep Mrs. Laurie McCracken in this position based on her certification and years of elementary classroom experience. We need this deregulation to staff both of our libraries. Moreover, the district, as required by 210:35-5-71, will staff the libraries with library assistants.

We appreciate your consideration, and approval of this request.

In service of our students,

Brayden J. Savage

NAME OF WAIVER Services

- A. Reason for the Waiver request. Please include circumstances which necessitate hiring a non certified library media specialist. What alternative means will be employed if your waiver is denied? Where is the applicant as it pertains to their pursuit of their course of study? What percentage of your student population will benefit from the waiver if approved?

Library services for high school and elementary sites are shared in one central library. The use of paraprofessionals, along with the English teacher, is employed. They consult with the local city librarian at Prague Haynie Library in order to operate the school library.

- B. List alternate strategies/plans which the district/site proposes. How does this plan best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement? Please list any negative impact if the waiver were to be denied.

Our paraprofessionals and teacher will consult with the head librarian at the Prague Haynie Library when needed or on a weekly basis. In addition, they actually meet with the students weekly to teach them how to use the library and learn research methods. If the waiver were to be denied, we cannot find an actual certified librarian due to the teacher shortage.

- C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

This allows our students more time and access to the library with a knowledgeable person, which should result in higher reading scores.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

Students may visit the library at any time during the day from 8:00-3:00, as long as the classroom teacher allows them a library pass. In addition, each classroom teacher knows how to operate the library system, also.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

There is no negative impact; the positive impact is that we already have these people hired, so they are already here, so it's not costing us more money. We are simply using the resources we have on hand, especially since we can't find a librarian due to teacher shortages.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

At the end of the year, we compare the number of check outs and whether or not AR scores are up or down. We also look at the number of AR tests that our students are taking to see if those numbers have increased from the previous year.

NAME OF WAIVER

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

Turkey Ford School District currently has 103 students enrolled at the single elementary site.

Our former librarian retired and has offered to volunteer a day along with others in the community.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

The teachers have all been trained in the Library system and classes are scheduled to ensure weekly access to the library. Some alternative strategies and plans include; Turkey Ford School has worked with the teachers to ensure individual classrooms provide a variety of reading options for the students. We have scheduled library time with each classroom with the assistance of classroom teachers and para-professionals.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

The deregulation has been awarded previously. Library access remains open to students and classes with minimal change to the operation of the school. We currently have a strong AR reading program encouraging and promoting reading points and celebrating Lexile reading and GE score improvements.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

The library is open 8 am - 2:30 pm Monday - Friday. Reading Specialist, para professional and classroom teachers work to ensure students have access to check out books every week.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

The deregulation provides a positive financial impact to our district, allowing us to hire a dedicated and energetic library assistant (that is taking classes to be a certified classroom teacher). She dedicates her time to the library and the PreK classroom. In the library she promotes new books purchased for the library and highlights book collections from different author's to build excitement in reading. She work closely with our Reading Specialist who oversees the Library.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

The school principal/suuperintednet will collaborate with the staff and maintain an open door policy with teachers, parents and students to ensure the success of the library program. The reading teacher works closely with the district para-professional to keep the library open through the day.

We review reading scores quarterly, interventio reading scores monthly and state test scores to make adjustment to instruction.

- A. Reason for the Deregulation request. Please include circumstances which necessitate changing the standard of library services for your size of school, what alternative means will have to be employed if your waiver was to be denied?

We are to have 1/5 time certified librarian. Having a 1/5 time employee with a library certificate in our rural area isn't possible at this time. We are a very remote district and to hire someone 1/5 time to drive this far out is not feasible. If we were denied the waiver, we would consider a virtual teacher.

- B. List alternate strategies/plans which the site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement and any negative impact if the waiver were to be denied.

We are able to have the library open during the school day using paraprofessionals. We have a self check out system where kids can check out their own books. We also have our library system online so books can be reserved, and delivered to the student. We also have a library aide that works part time who maintains the library and the curriculum.

- C. Has this deregulation been awarded before? If so what was the educational impact to the district: Results of the Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district. If not what do you expect?

Yes, there were no evident negative effects on student performance level that we feel that were contributed to not having a certified librarian.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

8:00-12:30 Library open for classroom use. Kirchner

- E. Any financial impact to the District (positive or negative) for the proposed deregulation? If positive please describe where the available would be reallocated.

We have been able to have a librarian on staff the last two years due to having the Striving Readers grant. We have not budgeted for a librarian in approx. 10 years, so there would not be a financial impact to the district. The only financial impact would be if we were forced to hire a librarian. It may be impossible for us to hire a 1/5 time librarian due to our location. Therefore, we would have to do 1/2-a full time employee. That would be a big financial impact on our small district.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E. TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Our reading sufficiency team meets to discuss student needs biweekly. During these meetings we discuss interventions used for students, counseling, library lessons, reading instruction at the tier I, II, III level.

Bowring School is asking for a deregulation for our school library. We are not financially able to hire a full time librarian or is one needed to serve our 55 students. We have attempted to hire a 1/5 time librarian, but with our remote area one is not available. We currently are serving students with a library aide who served under and was trained by a library media specialist for 2 years. The library is currently open Monday-Friday from 8:00am – 3:00pm.

A. Reason for the waiver/deregulation request (be specific).

Ripley Elementary is requesting this waiver due to not being able to hire a certified library media specialist to coordinate and direct our elementary library. While this position was available we received exactly zero certified applicants. To best serve our students and budget at this time we feel our district must utilize full time library assistants.

B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement.

We currently have hired a full time person with experience in working in a library to run and coordinate our library for our elementary students. This staff member will oversee, organize, and order material for the elementary site with guidance from our elementary site administrator. With the employment of this full time staff member it ensures our library will be open and available 6 hours a day for our elementary students.

C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

I believe that with our alternate strategy and plans we will see no negative effect on student performance levels. By approving this deregulation it will ensure that our students have access to library materials and resources for the entirety of our school day.

D. Timeline: (Please submit class schedule, calendars, assessment forms and other attachments as necessary.

A waiver/deregulation can only be granted for a one school year period)

NOTE: A School District Empowerment Waiver can be for up to 3 years.

The waiver requested is for the 2022-2023 school year. We will assess our financial situation before next school year.

E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation.

There will be a positive impact financially if we are to receive this waiver. We will save money in paying a noncertified staff member as opposed to paying a certified staff member. Our library will still be available for our students for the entirety of the school day. Through paying an experienced noncertified staff member who has been helping our library run for years we will save approximately \$15,000 in salary. We will be able to use this money to continue to provide supplemental and remediation opportunities for students who are reading below grade level. This money will also help us to be able to provide quality up to date reading material and books for all students within the elementary.

F. Describe method of assessment or evaluation of effectiveness of the plan.

Our Elementary Administrator will regularly monitor our library and ensure that student needs are being met. Also our teachers will be able to have input and will be tracking and monitoring reading progress to ensure students needs are being met.

To Whom It May Concern:

Ripley Public School is requesting deregulation from OAC 210: 35-5-71 and OAC 210:35-9-71 in order to provide the best library staffing possible with Considerations for full day staffing of the library, most beneficial impact to academics, and school finances. By having an approved deregulation, we will be able to staff our libraries at both the elementary school and high school for all hours of school operation. Without the deregulation, this would not be possible without affecting our other academic areas due to needing to allocate additional funds to the library. Thank you for your consideration.

NAME OF WAFER

- A. Reason for the Deregulation request. Please include how your students would benefit from this deregulation, what alternative means will have to be employed, and negative effects on your alternative education population if your waiver was to be denied.

OAC 210:35-5-71

Canadian Public School is currently 1 to 1 with all of our students having Chromebooks. We have worked very closely with the public library and other resources to give our students more access to a large number of books for them to read. This will give them easy access and more availability to books. We recently had our certified librarian resign to take another job and we have had a hard time filling the library position. We will continue to actively pursue employment of a certified librarian. The best way to serve our students will be to hire a full time library media assistant to continue services.

- B. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your alternative education program, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and the result of the previous years alternative education audit.

The district has a certified teacher that has agreed to pursue certification in library media services this year. In conjunction with this, the district seeks to employ a full-time library media assistant to implement and advance our current library service for students Prek-12. We have one library facility. The district will utilize the certified teacher that is pursuing certification to oversee the facility operations but shee will be in the classroom all day. This strategy will allow the library to remain open the entire day. The following programs will still be offered on a full-time basis:

Regular circulation Prek-12

Story time: PreK-2

Accelerated Reader: Grades 1-8

Basic Literacy: Prek-12

- C. Educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, and predicted graduation rate.

No

Library utilization will remain at a high level even with the deregulation. The certified teacher that has agreed to pursue certification in library media services will be next door to the library and will be able to assist with any situation that may arise.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary, or described in instructions. A waiver/deregulation can be granted for up to 3 years. (Please see instructions for additional requirements)

The library will be open normal school hours and be staffed by a full time library aid. We are seeking this deregulation waiver for the 2022-2023 school year.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

We believe with the approval of this application the district can put funds that would have been used for a certified librarian towards providing more resources for our students. We anticipate a positive financial impact because of using existing staff rather than filling the position with someone less qualified on an emergency certificate.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

Effectiveness of the plan will be assessed through input from staff, students and other stakeholders. Effectiveness will also be assessed through the number of students utilizing resources offered through the library.

The district will continue to place heavy emphasis on tracking data, especially in light of the TLE and RSA requirements. Adjustments to the plan will be made based on the results of benchmark assessments.
