### Art Contest Instructions

This summer, the Oklahoma Institute for Child Advocacy and the Oklahoma State Department of Health are co-hosting an art contest to showcase great drawings by Oklahoma children. The theme is “*Envisioning a Bright Future*,” and we invite children and youth to submit drawings of what they think will be in their future, what they want to be when they grow up, what holidays they look forward to, or how they think the world will look in their future.

Selected artwork will be featured in OICA's 2020 Legislative Calendar, which highlights child welfare data and celebrates heroic work done by Oklahoma organizations and individuals to help children. Additionally, a panel of judges will select a number of winners who will be eligible for prizes.
