## Why Postsecondary Opportunities Are Important

In Oklahoma, we want all students to be successful after high school. Postsecondary Opportunities (PO) help students explore what matches their passions and interests as they consider a technical field, college, or military service. These opportunities provide access to coursework and experiences that align to a student's career goals defined in their Individual Career and Academic Plan (ICAP). An ICAP gives students a personalized road map that ensures they are ready for their next steps and excited about the future.

During the ICAP process, students discover pathways that fit their unique talents and interests. Students also learn what academic preparation and experiences will prepare them for in-demand careers. An ICAP has a strong, intentional connection with readiness for career and college.

## The Individual Career Academic Plan (ICAP)

**Self-Awareness**          **Exploration**          **Preparation**          **Action**

An ICAP equips students with the awareness, knowledge, and skills to create their own individualized, meaningful exploration of college and career opportunities. The ICAP, developed in collaboration with students, families, and educators, leads to a meaningful plan that charts the progress needed to prepare students for college, career, and life.

A student's ICAP includes:

- Career and college interest surveys.

- Written postsecondary and workforce goals that reflect progress toward these goals.

- Scores on assessments (required state and federal assessments and college- and career-readiness assessments).

- Experience in service learning and/or work environments, including apprenticeships, internships, mentorships, and job shadowing.
- An intentional sequence of courses that reflects progress toward the postsecondary goal (this may include identified career pathways or career endorsements); and

- Academic progress.

For more information on Individual Career and Academic Plans, please https://www.okedge.com/educators/implementing-the-icap/.

## Postsecondary Opportunities Indicator

Aligned with ICAP, the Postsecondary Opportunities indicator in the Oklahoma School Report Card rewards schools for providing access to opportunities that prepare students for life after high school. Acknowledging that students have different, individualized goals, multiple college and career readiness options are included in the indicator to empower districts to highlight local approaches that best support their student's academic and career goals.

```
  Work-Based                                    Dual/Concurrent
  Internships        →      Postsecondary   ←      Enrollment
                              Readiness
  Industry Certification  →               ←      College Prep
  Program                                         Coursework
```

Points earned under the Postsecondary Opportunities indicator are based on the percentage of high school juniors and seniors successfully participating in at least one of the approved options. Schools receive a point when their 11th and 12th grade Full Academic Year (FAY) students complete and pass at least one approved postsecondary opportunity by earning a D or higher. Students who may be taking multiple Postsecondary Opportunities can only earn one point. For example, a student enrolled in an approved CareerTech course that leads to industry certification and an Advanced Placement course would earn one point.

Students are considered Full Academic Year (FAY) for the Postsecondary Opportunities indicator if they enrolled within the first 20 instructional days of the school year and do not have a gap of 10 or more consecutive instructional days of enrollment prior to the end of the school year as set by the district calendar. For more information on Full Academic Year, please visit https://sde.ok.gov/resources-accountability-reporting.

## How Data Populates the Postsecondary Opportunities Indicator in the Accountability Reporting Application

| Local Student Information System (SIS) | → | The Wave | → | Accountability Reporting App<br>Student Data Tab - Coursework Tab |
|---|---|---|---|---|

A school's local Student Information System (SIS) sends data to the Wave; this data is used to populate the School Courses and Coursework tabs in the Accountability Reporting application (AR) in Single Sign-On (SSO). The student-level Coursework tab provides data, updated weekly, and allows schools to monitor their PO-eligible data throughout the year to:

- Ensure that **ALL** their 11th and 12th-grade students have access to at least one postsecondary eligible course; and

- Ensure that grades are being displayed correctly for PO-eligible courses.

### Resolving School Data Conflicts in the Accountability Reporting Application

High school users may view current school year coursework instructional level conflicts in AR at any point during the school year by going to the Conflicts tab and then selecting School Data Conflicts.

TITLE I ✕

| Contact | School Data | Student Data | Reports ▾ | Conflicts | Appeals | Lookup |

Student Data Conflicts | School Data Conflicts

School Year  2024 ▾

Records 1 to 2 of 2

| | DVR TypeID | Conflict Type | Conflict Count |
|---|---|---|---|
| | ▾ | ▾ | ▾ |
| 1 | 60 | School Course - State Course Code Conflict | 62 |
| 2 | 23 | School Course Instructional Level Code Conflict | 169 |

**Ensuring Coursework Data are Correct in the Accountability Reporting Application**

High school users should ensure current school year coursework data are reporting to the Wave from their local SIS by checking the Coursework tab in AR in SSO. These data elements include State Course Code, Instructional Level, Term Span, and Letter Grades. Letter Grades should display in AR in the Coursework tab within a week of posting them in your SIS. Information about each Postsecondary Opportunity type and their reporting requirements, including state course codes, are provided in the following pages.

## College Prep Coursework: Advanced Placement (AP) and International Baccalaureate (IB)

College-prep coursework challenges students to learn at a college-level pace and rigor and may provide the opportunity to earn college credit based on test scores and college policies. Reminder: students must earn a D or higher to be eligible for credit under the PO indicator.

| Reporting Requirements for AP and IB | | | |
|---|---|---|---|
| PO Type | Instructional Level | Term Span | Number of Grades Expected |
| College Prep Coursework | 0575 (Advanced Placement) 0574 (International Baccalaureate) 0571 (General; for course code 4550 only) | Two semesters. One grade per semester. Any exceptions must be approved by Accountability. | Two grades expected per two semesters. In general, 2 GRADES (one for each semester). |

College-prep courses that count toward credit for the Postsecondary Opportunities indicator are shown in the table below. Please note: A course may only use the AP state course code if it has been authorized by The College Board's AP Program (Pre-AP courses may not use an AP course code).

| **Advanced Placement (AP) OCAS Course Codes** | |
|---|---|
| 2535   AP Computer Science Course | 5035   AP Biology |
| 2536   AP Comp. Science Principles | 5055   AP Chemistry |

| 3189  IB Chinese | 5751  IB World Religion |

For more information on AP, visit https://sde ok gov/advanced-placement.

# Internships

An internship (paid or unpaid) is a position for a student to work in an organization for a limited duration to gain work experience, and potentially satisfy requirements for a credential and/or course credit if enrolled in an academic institution. An internship is a component of work-based learning.

| Reporting Requirements for Internships | | | |
|---|---|---|---|
| PO Type | Instructional Level | Term Span | Number of Grades Expected |
| Internship | **0571** (General) | 1 or 2 semesters | Minimum – 1 |

Internship course codes that count for credit for the Postsecondary Opportunities indicator are shown in the table below. Reminder: Students must earn a D or higher to be eligible for credit.

| Internship Course Codes |
|---|
| • 2790   Internship I – Juniors <br> • 2791   Internship II – Seniors |

A paid or unpaid internship is a component of work-based learning. Students who participate in internships can increase their employability skills and use this experience on their resumes for future employment. Current legislation provides authorization for schools to enter into an agreement with private or public organizations as outlined in 70 O.S. § 1210.528-1.2. and are as follows:

- Students must be juniors or seniors to participate in an internship.

- A maximum of 2 high school elective hours of the 6 rigorous course hours required per school day, can be used for such programs. (The 2 hours include student travel to the internship site.)

  - A senior student may petition their local school board to increase to 3 hours if that fits into the student's schedule.

  - Semester course (can be repeated for elective credit) – up to ½ credit per semester (per class - consistent with dual enrollment)

- Districts should consider developing local policies and guidelines to govern internship programs.

    o   Agreements between the school and business

    o   Grading rubrics for school, student, and business

    o   Attendance

    o   Feedback forms for business

    o   Workplace Safety

- Teacher of Record

    o   A teacher, administrator, or individual with adjunct certification may be the teacher of record.

For more information on internships, visit https://www.okedge.com/business-community/service-work-based-learning/

## Dual (Concurrent) Enrollment

Dual (concurrent) enrollment enables students who meet specified criteria (GPA or ACT/SAT score) to enroll in a college course offered through a local postsecondary institution.

| Reporting Requirements for Dual Enrollment | | | |
|---|---|---|---|
| PO Type | Instructional Level | Term Span | Number of Grades Expected |
| Dual Enrollment | 0576 (College Level) | 1 semester | Minimum – 1 |

Dual (Concurrent) enrollment requirements:

- Include opportunities for high school students to earn college credit.

- Provide collegiate experience evidenced by the rigor of the course, the qualifications of the person delivering the course, and the student's readiness for college as defined by the policy of the Oklahoma State Regents for Higher Education.

- Students must have a signed statement from their high school principal or counselor stating that they are eligible to satisfy the requirements for graduations no later than spring of their senior year.

- Students cannot enroll in remedial coursework offered by colleges and universities under this program.

- Students may be able to enroll in different types of higher education institutions based on eligibility. This includes research universities, regional universities, and community colleges.

- Eligible high school seniors will receive a tuition waiver for a maximum of 18 credit hours of concurrent college enrollment. The senior tuition waiver may be divided over the three senior semesters: summer, fall, and spring.

- The nine hours of funding for juniors is dependent on the appropriation of the current year and may be divided by the three junior semesters: summer, fall, and spring. Contact your partner college or university for more information about the status of funding for high school juniors.

| **Dual/Concurrent Enrollment Course Codes** |
|---|
| OCAS Subject Code = most equivalent high school course subject code<br><br>  • OCAS Subject Codes for 9th - 12th grades can be found here: https://sde.ok.gov/accreditation-standards-division<br><br>Please Note: Students must successfully complete the course and earn a D or higher. AP course codes may not be used for concurrently enrolled courses. In addition, CareerTech course codes (8000 and 9000 courses) are strictly reserved for CareerTech courses. Please do not use these codes for concurrent enrollment. |

An overview of Dual Enrollment can be found here: https://www.okcollegestart.org/College_Planning/Prepare_for_College/concurrent_enrollment.aspx.

# CareerTech

Approved programs that lead to Industry Certification may also earn credit under Oklahoma's accountability system. In Oklahoma, the conveyor of these opportunities is the Oklahoma Department of Career and Technology Education (ODCTE), also known as CareerTech. While there are many programs offered by CareerTech, only those leading to an industry certification are approved for credit under the Postsecondary Opportunities Indicator

CareerTech courses combine classroom work with skill-based practices to train and develop students in preparation for the workforce. Courses may only be taught by CareerTech certified instructors.

CareerTech opportunities are provided through two channels:

1)  **9000+** - Students enroll and complete courses at their local technology center through a program that leads to industry certification; or

2)  **8000+** - Students enroll and complete courses. These courses may include internships. Courses are taught at either the local technology center or at the high school by a certified or endorsed technology instructor.

| Reporting Requirements for CareerTech | | | |
|---|---|---|---|
| PO Type | Instructional Level | Term Span | Number of Grades Expected |
| CareerTech | **0579** (Accepted as a high school equivalent) | 1 or 2 semesters | Dependent on the CTE Program: 9000+ or 8000+ |

Scheduling Best Practices
*   9000+ are full year programs that may be two semesters of the same OCAS code with one grade for each semester OR one full year section with two grades (i.e.,1S grade and 2S grade).

These subject codes can only be used for programs taught by technology center's certified teachers. High schools SHOULD NOT use 9000+ subject codes for courses offered at the high school unless the course is taught by an instructor from the technology center at the local campus. 9000+ courses should be scheduled in your SIS just as any other course to be brought into Accountability Reporting.

- Approved 8000+ subject codes can be one semester with one grade or two semesters with two grades.

These are used for courses taught by certified Career Tech Educators at the high school and courses taught at technology centers. 8000+ courses should be scheduled in your SIS just as any other course to be brought into accountability Reporting.

For more information on CareerTech coursework, please visit https://oklahoma.gov/careertech/educators/ocas-codes.html.

Approved CareerTech OCAS course and program codes are shown in the following table. Reminder: Students must successfully complete the course or program by earning a grade of D or higher to be eligible for credit under the PO indicator.

# Frequently Asked Questions

**Why does our grade show up under Term grade T1 and T3 instead of T2 and T4 in AR?**
In Accountability Reporting, the term grade position does not matter. As long as we receive the required term grade count, the student will be eligible to receive postsecondary credit.

**I made changes to our coursework data in our SIS, but those corrections are not showing in AR.**
Many tables in Accountability Reporting update nightly but some of the tables required to populate Postsecondary data are updated on the weekends only. So, if changes you make in your SIS do not show up by the following Monday, please reach out to us for assistance.

**What do I do if there is a conflict? Do I have to fix them?**
Yes, all conflicts should be fixed in your SIS. You may hover over the specific conflict for more information on what values are conflicting and how to resolve it.

**What to do if I entered grades but they are not showing up?**
Check with your vendor to make sure all coursework objects are sent in correctly. If everything is entered correctly and your grades are still not showing up, reach out to us for assistance.

**How do I know If I am getting credit?**
The PS credit eligible column in Accountability Reporting will show up with a "Y" if the student has at least one course where all requirements for credit are met.

| Course Credit | PS Courses | PS Credit Eligible |
|---|---|---|
| 13.00 | 0 | |
| 7.50 | 4 | Y |
| 7.50 | 2 | N |

# Additional Questions

For information on how Postsecondary Opportunities connect with high school

requirements and transcripts, please visit https://sde.ok.gov/academic-advisement.

Remember, each of these data elements must be accurate in your SIS and reporting to the Wave correctly for PO credit to generate accurately for students in the Coursework tab.

For cases where your Wave data is still not displaying accurately in the Coursework tab in AR, contact your local Student Information System vendor and have them work with Student Data and Information to resolve the problem.

For questions on Postsecondary Opportunities and the Accountability Reporting app, please contact the Office of Accountability at Accountability@sde.ok.gov or (405) 522-5169.
