

How to send a Student Attendance Summary Record

Example 1: (FQSR Response WITH a gap in enrollment)

1. Student A has a [StudentSchoolEnrollment.EntryDate](#) of August 12, 2019, and a [StudentSchoolEnrollment.ExitDate](#) of August 16, 2019.
 - Between August 12, 2019, and August 16, 2019, there were 5 [instructional days](#) that [counted towards student attendance](#).
 - The student was not eligible for transportation and was present for all 5 days.
2. Student A has a [StudentSchoolEnrollment.EntryDate](#) of August 27, 2019, and a [StudentSchoolEnrollment.ExitDate](#) of August 30, 2019.
 - Between August 27, 2019, and August 30, 2019, there were 4 instructional days that [counted towards student attendance](#).
 - The student was eligible for transportation and was present for all 4 days.

Because this student exited early, it is not expected to receive an attendance summary for the full year.

Response 1 would contain the following:

Element Name	Value Sent
StartDate	2019-08-12
EndDate	2019-08-16
DaysAttended	5
ExcusedAbsences	0
UnexcusedAbsences	0
DaysInMembership	5
SIF_ExtendedElement/Name = " DaysTransportedEligibleStateAid "	0
"Other required elements in this object not mentioned above"	

Response 2 would contain the following:

Element Name	Value Sent
StartDate	2019-08-27
EndDate	2019-08-30
DaysAttended	4
ExcusedAbsences	0
UnexcusedAbsences	0
DaysInMembership	4
SIF_ExtendedElement/Name = " DaysTransportedEligibleStateAid "	4
"Other required elements in this object not mentioned above"	

Example 2: (FQSR response WITHOUT a gap in enrollment) and (ASR response WITHOUT a gap in enrollment)

1. Student B has a [StudentSchoolEnrollment.EntryDate](#) of August 18, 2019, and a [StudentSchoolEnrollment.ExitDate](#) of May 21, 2020.
 - o Between August 18, 2019, and May 21, 2020, there were 172 [instructional days](#) that [counted towards student attendance](#).
 - o This district's first nine weeks ends on October 17, 2019.
 - o The student was eligible for transportation and was present for all but 3 days.

Response 1 (FQSR) would contain the following:

Element Name	Value Sent
StartDate	2019-08-18
EndDate	2019-10-17
DaysAttended	40
ExcusedAbsences	2
UnexcusedAbsences	0
DaysInMembership	42
SIF_ExtendedElement/Name = "DaysTransportedEligibleStateAid"	40
"Other required elements in this object not mentioned above"	

Response 2 (ASR) would contain the following:

Element Name	Value Sent
StartDate	2019-08-18
EndDate	2020-05-21
DaysAttended	169
ExcusedAbsences	2
UnexcusedAbsences	1
DaysInMembership	172
SIF_ExtendedElement/Name = "DaysTransportedEligibleStateAid"	169
"Other required elements in this object not mentioned above"
