Superintendent Hofmeister & State Board Members,

After a review of our records and discussion with our local board members, it is clear that I was negligent in responding to emails from the Child Nutrition division and responding to the Civil Rights data report. I am grateful to Mr. Ryan Pieper for reaching out and offering his assistance in this matter.

There is no excuse for my failures. As Superintendent, I am charged with ensuring our district meets with all state and federal mandates and moving forward, I assure you that I will. Approaching 30 years in education, I'm simply embarrassed by my actions. My apologies to all this has affected with loss of time, effort, and resources due to my negligence.

The Buck stops at me and I will be putting protocols in place to ensure all reports, emails, and phone calls are logged and responded to in a timely manner. Thanks to each of you for the accountability and leadership you provide.

Respectfully,

Todd Kimrey
