FY25 ESEA (Title I, II, III, IV) Allocations

Oklahoma received the ESEA Grant Award Notifications (GANs) from the United States Department of Education in July 2024. The process is underway now to calculate district allocations. As with previous years, districts may use the previous year's allocation amount to plan for the upcoming school year. As a reminder of the message that was announced earlier this year in the April 23rd Lunch and Learn session - allocations to districts include a "hold harmless" rule that prevents an abrupt decline in federal funding to the district. Final district allocations are expected to be released on August 16th.

FY24 ESEA Program Closeouts - September 1st

All districts must perform the closeout process on the Grants Management System (GMS) when the district has finished expending funds **and** has received payments for all claims
