National Assessment of Educational Progress (NAEP): January 29 - March 9, 2018
Trends in International Mathematics and Science Study (TIMSS): March 5 - April 13, 2018
International Computer and Information Literacy Study (ICILS): March 5 - May 25, 2018
Oklahoma Alternate Assessment Program (OAAP) | DLM Testing Window: March 26 - May 11, 2018

* Under special circumstances only
Paper/Pencil Make-up testing should be completed by April 20, 2018. All students that enroll during the testing window MUST be tested, including Grade 3 ELA.
Scheduling Tests

• Grades 3 & 8 ELA and Grade 5 (all subjects) must be finished by end of the 2\textsuperscript{nd} week of the testing window (April 13\textsuperscript{th}) to be included in preliminary score reports. Shipping of materials will occur the next week on April 17, 2018.
  • Grade 3 integrated test booklets as well as Grade 5 and 8 ELA writing tests need additional time for scoring.
  • Since Grade 5 has a combined answer document, this means all Grade 5 testing needs to be completed in this time frame to receive preliminary reports.
  • If taking a \textit{paper-based} Grade 8 assessment, then all subjects must be completed by the end of the 2\textsuperscript{nd} week of the testing window.
January 22, 2018 – March 30, 2018

Students marked as ELL (English Learners) are required to take one of the WIDA English Language Proficiency Assessments
Changes to Test Administration
Proctor Passwords

- DTCs will now have access to and management of the Proctor Passwords.
- Test Administrators or BTC will contact DTC for Proctor Passwords.
- Ensure Test Administrators understand these are confidential.
- DTCs will need to periodically reset Proctor Passwords to prevent unauthorized use.

No need to call SDE for a Proctor Password!
Security Forms

• DocuSign – Documents can be signed, tracked and submitted online. No need to send paper copies to vendor or SDE. Measured Progress will provide training.

• Used for:
  • District Security Forms
  • Building Security Forms
  • Classroom Security Forms
  • Test Administrator/Test Proctor Security forms
  • Nondisclosure forms
  • (possibly) Training Records
The following fields must be certified in precode as accurate by districts:

- STN
- First, Last Name
- Birthdate
- EL Status
- IEP/504 Status (EdPlan must be correct)
- Grade
The demographic overlay report will be submitted to the vendor soon after the testing window closes.
  - Ensure information in your SIS is correct.

Demographic Overlay replaces the Class Identification Sheet.
# Precode Rules

## Grades 3-8
- If a student is enrolled in the same district during pre-code and the testing window, the grade the student is in during pre-code will determine what grade level tests they take.
- If a student transfers to a new district between pre-code and testing window, the demographic overlay will determine grade level that should have been assessed.

## Grade 11
- Students who are in grade 11 on November 30th will be included in pre-code as a grade 11 student.
- If a student transfers districts and is enrolled in the wrong grade, **do not exit and re-enroll**, correct in local SIS.

Shift in Performance Perspective

• Oklahoma Academic Standards and the Oklahoma School Testing Program have been created by Oklahoma Educators for Oklahoma students.

• During this writing process, there was a desire to have a measure of student performance to ensure our students would be better prepared for postsecondary success.

• The Oklahoma Performance Index (OPI), or scale score, indicates students are on track for college- and career-readiness at or above 300. (note: US History is not a CCRA and is based on the old scale)
ASSESSMENT IN THE SYSTEM

**FORMATIVE:**
As checkpoints designed to inform instruction, these assessments are extremely useful for teachers and schools.

**INTERIM:**
As valuable indicators of progress, these assessments can occur at the end of a unit and act as checkpoints to make certain all classes are on track for success across a school or district.

**SUMMATIVE:**
As indicators of college and career readiness, these assessments are used for state accountability and to inform districts about changes that may be necessary to their programs.
Importance of Scale Scores

- Oklahoma is shifting from focusing on the performance label to the scale score continuum.
- Accountability no longer uses percent proficient in their calculation.
- Scale score is a measure of a student’s mastery of Oklahoma Academic Standards.
- For example, most people are familiar with ACT’s scale, ranging from 1-36.

### ACHIEVEMENT LEVEL PERFORMANCE

Your student’s Performance Level is LIMITED KNOWLEDGE.

Your student’s OPI score on any one test provides an estimate of what he/she knows and is able to do. If tested again, your student would likely score in this range: 282-298.

**Important:** The Performance Level indicates the student can perform the majority of what is described for that level and even more of what is described for the levels below. The student may also be capable of performing some of what is described in the next level, but not enough to have reached the level. A description of each Performance Level is presented on the back of this report.

**Lexile Measure**

Your student’s Lexile Measure is 1150L.

The Lexile® Framework for Reading is a scientific approach to measuring reading ability and the text demand of reading materials. The Lexile Framework involves a scale for measuring both reading ability of an individual and the text complexity of materials he or she encounters. The Lexile scale is like a thermometer, except rather than measuring temperature, the Lexile Framework measures a text’s complexity and a reader’s skill level. For more information, please visit [http://www.lexile.com](http://www.lexile.com). Lexile is a registered trademark of MetaMetrics Inc. All rights reserved.
Description of Sub-Score

• Student performance on each of the Content Standards is determined by comparing performance on the associated items against the Proficient cut point (300 OPI) for that grade and subject area.

• **Below Standard** indicates that the student’s performance on those items was more than one standard error below the overall Proficient cut point.

• **Above Standard** indicates that the student’s performance on those items was more than one standard error above the overall Proficient cut point.

• **At/Near Standard** indicates that the student’s performance on those items was within one standard error of the overall Proficient cut point.

Applying for Accommodations

IEP/504 Team determines accommodations.

Conduct detailed conversations during the IEP Team meeting concerning the implications of non-SAT/ACT-approved accommodations and college-reportable scores.

Be very thorough and detailed when completing the SAT/ACT Request.

SAT/ACT will only approve accommodations that are regularly used in a classroom setting.

District/School submits accommodation request to SAT/ACT.

SAT Accommodations Request

ACT Accommodations Request

If approved:

Take SAT/ACT with accommodations.

Scores ARE college-reportable.

If NOT approved:

Take the SAT/ACT with state-approved accommodations.

Scores are NOT college-reportable

OR

Take the SAT/ACT with NO accommodations.

Scores ARE college-reportable.

Assessment accommodations must match instructional accommodations in EdPlan in accordance with best practice for student testing.
ACT Accommodations

Starting November 6th: STC can go into the Test Accessibility and Accommodations (TAA) systems for accommodation requests for State Testing programs.

- ACT suggests that you submit requests *early* (by Dec 30th).
- Accommodations and supports must be requested through the ACT TAA system for ACT review and approval. Detailed instructions for this process can be found on the Oklahoma ACT website.

**Myth Busters!**

- State or District ACT testing with standard time or with ACT approved accommodations ARE equally college reportable.
SAT Accommodations

- All accommodations requests will be submitted through the Services for Students with Disabilities (SSD) Online system. There are two types:
  - College Board Accommodations: Students with approved accommodations will receive college reportable scores. Once approved for accommodations, with limited exceptions, a student remains approved for all College Board tests.
  - State Allowed Accommodations (SAA): These are state specific accommodations. Students, schools and the state will receive scores; however, the scores are not college reportable.

The majority of students with a current Individualized Education Program (IEP) or 504 Plan will have those same accommodations automatically approved.

  - Paper Forms
    - Math grades 3-8
    - Science grades 5 & 8
  - Computer Forms
    - Math grades 6-8

- Spanish translated forms must be requested from Measured Progress.
- Large print Spanish forms are available, must be requested through Elizabeth Warren – SDE Director of ELPA.
• Students may also have Spanish audio files for read aloud with either an English or Spanish form.
• Computer-based testing, using a Spanish form with Text-to-Speech, requires the Alejandro voice pack.
Text-To-Speech for ELA

- Grades 6 & 7: TTS is available as a state approved non-standard accommodation.

- Grade 8: The only item in the test that will have TTS will be the writing prompt.
  - If a student needs and is approved for a read aloud non-standard accommodation for the MC sections of the ELA test, they will have to have a human reader.
EL Testing Timeline

• Since the New Accountability system is a growth measure, there will no longer be 1st year EL exemptions for ELA.

• **First year**, ELs will test to establish a baseline; scores will not be reported in accountability.

• **Second year**, ELPA scores will be reported, as will Academic growth for ELA and math -- but not Academic Achievement Status.

• **Third year**, ELPA scores, Academic growth (ELA and math), and Academic Achievement Status (ELA, math and science -- if applicable) will be reported.
