

Oklahoma School Testing Program

Calculator Policy

Effective beginning 2017-18 School Year

Purpose

- The items on the Grade 6-8 Math, Grade 8 Science, and CCRA Science Content assessments are designed so that all tasks can be solved without the use of a calculator. However, certain tasks are more difficult if a calculator is not available.
- Before the first day of the test, students using a calculator for any Math and Science assessment should be familiar with the use of the specific calculator that can be utilized. Students should be consistently instructed throughout the school year in the use of calculators, otherwise it may hinder students' performance on the assessment.

Grade Specific Requirements

Grades 3-5 Math:

Calculators are only allowed as an approved accommodation for students on an IEP or 504 Plan, and only a basic four-function calculator with square root and percent.
